Subject: Liberty Homes Street Lighting Improvement Special Taxing District Upgrade and Revised Assessment Roll Resolution

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached revised assessment roll resolution to fund the upgrade of streetlights in the Liberty Homes Street Lighting Improvement Special Taxing District (District) to increase their intensity from 6,300 to 16,000 lumens, per Ordinance No. 02-12. This ordinance, which was adopted by the Board on January 29, 2002, established a procedure to increase streetlight intensity in specified existing Special Taxing Districts to meet current County standards. The revised assessment roll resolution is submitted for consideration and adoption in accordance with the provisions of Section 18-14 of the Code of Miami-Dade County (Code).

Scope

This Special Taxing District lies within Commission District 1, which is represented by Commissioner Barbara J. Jordan.

Fiscal Impact/Funding Source

The combined capital and first year's rate increase costs to upgrade the District's 103 streetlights and advertise the revised assessment roll hearing are estimated to be \$26,566.14 and will be paid from the District's future assessments. The current annual assessment rate is \$0.4552 per front foot and will increase to \$1.0691 for the first year due to the proposed streetlight upgrade. Subsequent annual assessments will be adjusted each year thereafter based on actual costs. The proposed upgrade of the streetlights will provide special benefits to properties within the District's boundaries exceeding the amount of revised special assessments to be levied.

ESTIMATED ANNUAL COSTS

Estimated Annual Assessments:	Current	First Year
Per Assessable Front Foot	\$0.4552	\$1.0691
For a Typical 75-foot Interior Lot	\$34.14	\$80.18
For a Typical 117-foot Corner Lot	\$53.26	\$125.08

Social Equity Statement

The proposed resolution revises the assessment roll, which provides annual assessments against properties located within the boundaries of the Liberty Homes Street Lighting Improvement Special Taxing District, pursuant to Section 18-14 of the Code.

If approved, property owners within said District will pay revised special assessments appropriately apportioned according to the special benefit they receive from the District's services regardless of their demographics or income levels. The street lighting upgrade of this District is in accordance with Ordinance 02-12.

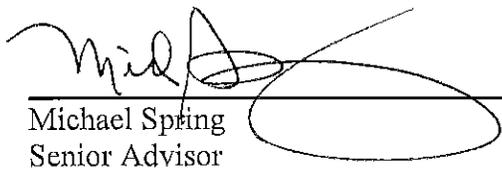

Track Record/Monitor

Contingent upon the Board's approval of this District's revised assessment roll resolution, the Special Taxing Districts Division (Division) will monitor the Florida Power and Light's (FPL) agreement, installation and billing process. It is expected that FPL will complete the engineering and replacement of the street lighting facilities by the spring of 2017. Since the initial assessment increase for the proposed upgrade exceeds the 15 percent ceiling specified in Ordinance No. 02-12, public hearing notices will be mailed to the approximately 507 affected property owners in the Liberty Homes Street Lighting Improvement Special Taxing District.

Background

The Liberty Homes Street Lighting Improvement Special Taxing District was created on October 16, 1973, by Resolution No. R-1235-73. Over the years, the facility of the District's streetlights was increased from 4,500 lumen mercury vapor to 6,300 lumen sodium vapor. This change allowed for a higher level of light intensity and represented savings for the District since sodium vapor streetlights consume less energy.

The Division performed a cost and feasibility study on upgrading the existing streetlights to 16,000 lumens, in response to the District residents' requests and in accordance with Resolution No. R-290-16, adopted by the Board on April 5, 2016. Based on the District's configuration and spacing of the streetlights, the proposed upgrade will result in acceptable lighting levels without the addition of new streetlights.
