Mayor 
Subject: Social Equity Statement for Ordinance Relating to Boundary Changes and
Incorporations

This proposed ordinance relating to boundary changes and incorporations requires additional information be provided to the Board of County Commissioners (Board) when considering a boundary change or incorporation petition. The ordinance further defines an enclave, adds considerations for proposed boundaries, and defines revenue positive and revenue neutral areas, and any adjacent areas that may be included. Additionally, it states that if an area is revenue positive and does not include a suitable revenue neutral area that is adjacent to the proposed annexation or incorporation area, the Board must approve the annexation or incorporation with a two-thirds vote. By providing this additional information, residents within the annexation/incorporation area will have additional information available at the public hearing and it will ensure that revenue neutral areas are considered in boundary changes and/or incorporations.
