Qualification Experience

We have over 28 years in the construction industry working in a wide variety of areas such residential, commercial and industrial/government projects.

1. Residential

Everything in residential from single custom homes to entire developments. Full spectrum of turn key operation to the actual completion of all said projects. This has all been done in conjunction with architects, engineer/consultants, interior designers, and owners.

2. Commercial

Completed shopping centers from conception to renovation including from office build outs to complete turn key operations.

3. Industrial/Government

Exterior ADA project from Miami Dade County GSA Dept. at South Dade Government Center which included demolition of existing structures and landscaping to installing new ADA compliance ramps and sidewalks, elevators and any and all access including new parking for the disabled. We also did total landscaping from sod, irrigation, installation of miscellaneous trees and shrubs to 30ft. Royal Palms Trees. All this was done in meeting with codes, inspections and all general compliance. We have also done underground utilities, paving, storm sewer, drainage, catch basins, well boxes, wells, concrete sea walls, valley gutters, curb and gutters, sidewalks, irrigation, landscaping and including all infrastructure at all seawalls with City of Miami Beach, Normandy Shores Isle Right of Way Project. With have worked with City of Miami for over 20 years working on Parks, Recreational Centers, Infrastructure Right of Way and Seawalls.

4. Miami Dade County Public Schools

For the last sixteen (16) years we have performed numerous tasks at over four hundred (400) projects for MDCPS from Safety to Life, to Job Order Contracts (JOC). We managed the installation of PA systems, fire systems, new kitchen hoods, new HVAC systems, roofing, interior, and exterior modifications, installation of new interior and exterior fire metal doors, new stage rigging and curtains, new flooring and ceilings, complete interior and exterior painting, auditorium seating, window systems, landscaping and irrigation systems, underground piping and catch basins, fencing, recreational facilities including artificial grass turf (Trans Powell Stadium), rubberized track surfaces and striping and all field events.

We have done every possible project in the spectrum of Construction Management to Turn Key Projects for All Cities and Counties in South Florida.

RE: Small Business Enterprise Construction Advisory Board Appointment

Dear Ms. Jean,

Thank you for the opportunity to fill the vacant seat on the Miami Dade Small Business Enterprise Construction Advisory Board for the Underground Contractors Association of South Florida dba NUCA of South Florida. The Board of Directors has officially nominated Marcus Thermes of Ryan Inc. Southern to serve on behalf of NUCA of South Florida. He has years of experience in developing the infrastructure of Miami Dade County. We thoroughly believe he will be an asset to you and the community.

Thank you again for allowing us to have a seat and serve on the Miami Dade Small Business Enterprise Construction Advisory Board. If you have any questions, please contact our Executive Director, Johnna Venuti-Piggee at ucasfl@gmail.com or by phone 561-425-8905.

Sincerely,

Ken Goldberg

Profile

Over thirty (30) years of hands on experience with major construction projects in the Mid-west and south Florida. My current capacity as Vice President includes the administration and planning of multiple at risk construction contracts for governmental, industrial, and commercial owners, specializing in underground utilities, heavy civil roadway, airport, seaport, and site development.

Experience

- **RYAN INCORPORATED SOUTHERN**
Miami, Florida
Aug. 2017 to Present

Vice President: Business development and management of team members through the coordination of contract procurement, budgeting, cost control, scheduling, safety and quality control on multi-million-dollar construction contracts for well-established heavy civil contractor in South Florida. Major Scopes performed include maintenance of traffic, site demolition, clearing and earthwork, concrete and asphalt paving, bridges, underground utilities, highway lighting and signals, striping and signage. My specialties also include airport, stadium, water and sewer treatment plants and sea port construction.

Special tasks include establishment of Miami regional office and development of Public Sector clients.

- **CENTRAL FLORIDA EQUIPMENT, INC.**
Medley, Florida
Oct. 1994 to Jul. 2017

Vice President: Business development and management of team members through the coordination of contract procurement, budgeting, cost control, scheduling, safety and quality control on multi-million-dollar construction contracts for well-established heavy civil contractor in South Florida. Special tasks include establishment of companywide Job Costing System, Estimating database, and Contract Administration systems and procedures

- **ODEBRECHT-CENTRAL JOINT VENTURE**
Ft. Lauderdale, Florida
Mar. 2012 to Present

Construction Manager: Manage and coordinate all construction operations, contract administration, production, scheduling and coordination for the Fort Lauderdale International Airport – WP-302 Site Preparation and NAVAIDS - South Runway Expansion project of \$226M.

- **FLORIDA ROCK & SAND CO., INC.**
Florida City, Florida
Nov. 1992 to Oct. 1994

Project Coordinator/Estimating: Evaluate, coordinate and administer multi million dollar construction contracts for large engineering contractor in South Florida.
Tasks include: Quantity takeoff and pricing, scheduling, subcontractor coordination, claim/change order preparation and proposal presentation.

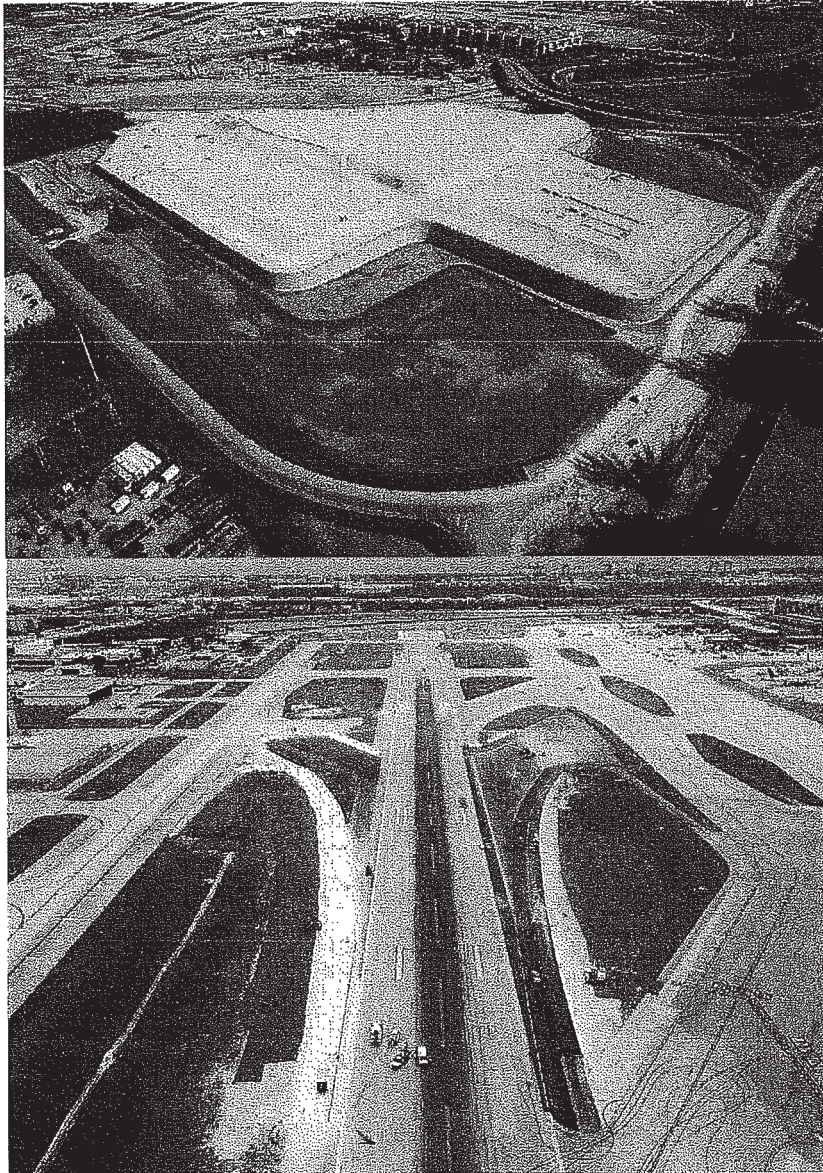

- **THE LOWELL DUNN COMPANY**
Hialeah, Florida
Feb. 1992 to Oct. 1992

Estimator/Project Manager: Evaluated, coordinated, administered and organized construction projects for a large scale engineering contractor. Scope of work performed was typically land development in both a prime and subcontractor capacity.
Tasks included: Preparing bid proposals, change orders, project correspondence, contract administration, scheduling, claim/change order preparation, cost summary and cash flow reviews.

- **BAKER CONCRETE CONSTRUCTION**
Monroe, Ohio
Jun. 1986 to Sep. 1990

Major Projects of the Past Eighteen Years
Managed and Estimated by Marcus Thermes
(Not included are several minor projects of less than \$1 Million)

Airport

Terminal 1 Expansion and Infrastructure (FLL)

March 2015 – August 2017

Owner: Broward County Aviation Dept.

CPM: Hunt Moss Joint Venture

Contract Amount: \$18 Million

Work to include demolition and underground utilities, construction of all embankment. Maintenance of storm water pollution prevention. Maintenance of Airside traffic and operations, including temporary pavement marking. Underground Utility construction in contaminated conditions, removal and replacement of storm systems Major piping including 18-48" RCP along with concrete structures. Water main and forcemain system installation. 14" Concrete pavement and asphalt paving.

10R-28L Runway Expansion – Site Prep and NAVIADs Infra (FLL)

March 2012 – March 2015

Contract Amount: \$225,914,660.78

Owner: Broward County Aviation Dept.

CPM: Parsons Transportation, Inc.

Work to include demolition and underground utilities, construction of all embankment (6.7 Million CY) with a peak production of 40K tons per day and MSE Walls (324K SF) up to 60 feet in height. Maintenance of storm water pollution prevention. Maintenance of Airside traffic and operations, including temporary pavement marking. Underground Utility construction in contaminated conditions, removal and replacement of storm systems and underground duct banks for power, communication and airfield lighting. Major piping including 18-96" RCP (26,900 FT) along with concrete structures (128 EA). Soil improvements utilizing methods including Deep Soil mixing, Stone Columns and Mammoth Vibro- tamping (700K SY).

Taxiway "C" East End and High Speed Taxiways (FLL)

January 10, 2011 – March 17, 2012

Contract Amount: \$20,739,930.48

Owner: Broward County Aviation

CM: Reynolds, Smith and Hills, Inc.

Work to include demolition and underground utilities, construction of all new asphalt runway and taxiway paving per FAA specifications. Maintenance of storm water pollution prevention. Maintenance of Airside traffic and operations, including temporary pavement marking. Utility construction in contaminated conditions, removal and replacement of storm systems and underground duct banks for power, communication and airfield lighting. Major piping including 36-48" RCP along with concrete structures. All earthwork and disposal of all soil and spoils resulting from demolition work such as pavement excavation for all underground work.

High Speed Taxiways and Taxiway Rehabilitation (FLL)

November 6, 2008 – September 2010

Contract Amount: \$25,406,106.35

Owner: Broward County Aviation

CM: TYLin International

Work to include demolition and underground utilities, construction of all new asphalt runway and taxiway paving per FAA specifications. Maintenance of storm water pollution prevention. Maintenance of Airside traffic, including pavement marking. Utility construction in contaminated conditions, removal and replacement of storm systems and underground duct banks for power, communication and airfield lighting. Major piping including 36-48" RCP along with concrete structures. All earthwork and disposal of all soil and spoils resulting from demolition work such as pavement excavation for all underground work.

B-C Underground Utilities & Apron (MIA)

November 6, 2001 – December 25, 2003

Contract Amount: \$4,579,398.51

Owner: Miami Dade County Aviation

CM: Turner Austin Airport Team

Work to include demolition and underground utilities, construction of all new paving concrete in excess of 18" thick and Asphalt aprons per FAA specifications. Maintenance of storm water pollution prevention. Maintenance of Airside traffic, including pavement marking. Utility construction in contaminated conditions, removal and replacement of water system, fire system, sewer system, storm systems, lift station and underground duct banks for power and communication. Major piping including 36" RCP and 16" DIP along with concrete structures. All electrical work including 9 way 6 concrete encased duct and comm. /elect. manholes. All earthwork and disposal of all soil and spoils resulting from demolition work such as pavement excavation for all underground work.

C-D Underground Utilities & Apron (MIA)

May 18, 2000 – March 29, 2002

Contract Amount: \$10,348,578.82

Owner: Miami Dade County Aviation

CM: Turner Austin Airport Team

Work to include demolition and underground utilities, construction of all new paving concrete in excess of 18" thick and Asphalt aprons per FAA specifications. Maintenance of storm water pollution prevention. Maintenance of Airside traffic, including pavement marking. Utility construction in contaminated conditions, removal and replacement of water system, fire system, sewer system, lift station, storm systems and underground duct banks for power and communication. Major piping including 7'x9'Box Culvert, 96" RCP and 48" DIP along with concrete structures with the largest in excess of 120 Tons. All electrical work including 9 way 6 concrete encased duct and comm. /elect. manholes. All earthwork and disposal of all soil and spoils resulting from demolition work such as pavement excavation for all underground work.

West Side Retention/Detention Pond (MIA)

September 15, 1997 – July 16, 1998

Contract Amount: \$3,608,053.88

Owner: Miami Dade County Aviation

CM: Dade Aviation Consultants, Inc.

The project includes the excavation of 100,320 c.y. of a retention/detention pond the installation of transmission lines 60" casing crossing lines. Installation of a submersible electric pump, vertical lineshaft pump assembly, 42" pipe aerial canal crossing and pumping equipment. The construction of a pump house building and generator building, the installation of steel sheet piling, and miscellaneous site work.

Employee Parking Lot – Phase I (MIA)

1996 - 1998

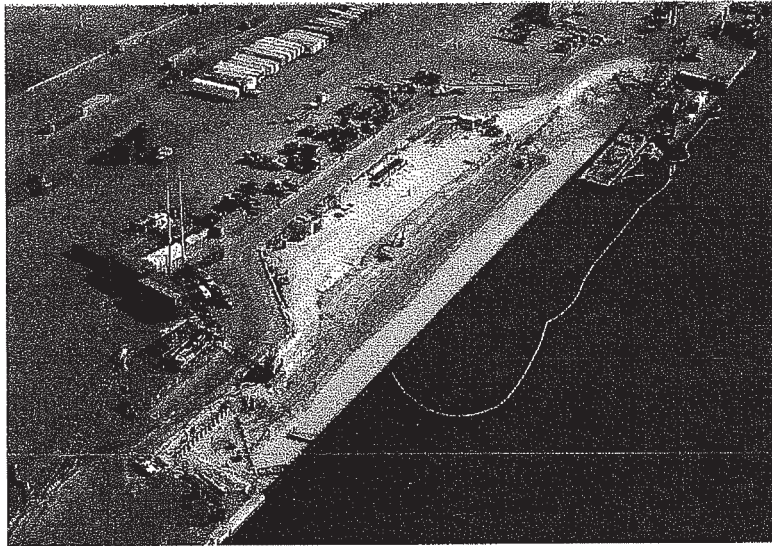

Contract Amount: \$3,352,562.08

Owner: Miami Dade County Aviation

Prime: Central Florida Equipment, Inc.

This project consisted of relocating NW 14th Street to the south and rename the existing road to NW 15th Street. A new NW 13th Street, NW 45th Avenue and NW 43rd Place was constructed.
