Agenda Item No. 12(A)(1)

Subject: Ratification of Emergency Orders Issued in Response to COVID-19 Pandemic

On April 7, 2020, the Board of County Commissioners (Board) ratified a series of emergency orders and amendments I have issued to protect the health, safety and well-being of the 2.8 million residents of Miami-Dade County since first declaring a local State of Emergency due to the COVID-19 pandemic on March 12, 2020. Additional emergency orders have since been issued that also require ratification by the Board.

The additional orders requiring ratification are posted on the miamidade.gov/coronavirus website, and I have also attached them as part of this memorandum for your convenient reference. Following is a quick summary of my Emergency Orders signed since the last ratification of orders by the Board on April 7, 2020:

- Emergency Order 16-20, as amended, ordered Adult Day Cares within the unincorporated and incorporated areas of the County to close, or otherwise cease all programs to deliver personal services to the elderly. Providers may offer basic, supportive and optional services to persons at that person's residence.
- Emergency Order 17-20 ordered all essential commercial and retail establishments, as defined in Emergency Order 07-20, which provide unpackaged food for consumption, to limit capacity and monitor entrances and exits to reduce their maximum occupancy load by 50 percent in those areas where food is sold; close all salad bars and other self-serve food stations with the exception of prepackaged, "grab and go" items; and not distribute free samples or conduct tastings. All essential businesses are encouraged to provide necessary sanitizing products to customers and employees and allow employees to wear masks, gloves or other personal protective equipment.
- Emergency Order 18-20, as amended, ordered each hospital to report on a daily basis the total number of available beds and beds that can be converted for use, ventilators and ventilators available for immediate deployment, ventilators on standby, respirators and/or anesthesia machines that can be converted to serve as ventilators, patients admitted, COVID-19 positive patients in ICU beds and non-ICU beds, COVID-19 patients currently on a ventilator, new COVID-19 patients admitted since the prior day's reporting, and COVID-19 patients discharged since the prior days reporting.
- Emergency Order 19-20 encouraged all persons outside their homes to wear a cloth facial covering consistent with the current CDC guidelines, including cloth masks.
- Emergency Order 14-20, as amended, modified emergency procedures and allowed inspections performed by architects, engineers, and accredited laboratories, virtual inspections remotely and in person by County inspectors.

- Emergency Order 20-20 ordered persons working in or visiting grocery stores, restaurants, pharmacies, construction sites, public transit vehicles, vehicles for hire, and locations where social distancing measures are not possible to wear facial coverings as defined by the CDC, except for children under two or persons who have trouble breathing due to a chronic pre-existing condition.
- Emergency Order 21-20 rescinded Emergency Order 06-20, as amended, and ordered the opening of parks, golf courses, marinas and boat ramps with certain restrictions.
- Emergency Order 15-20 was also amended to conform with the provisions of Emergency Order 21-20.

These orders reinforce the day-by-day monitoring approach that my administration and I took in consultation with medical experts to protect our community, allow essential activity to continue to take place, and establish guidelines for the responsible, safe and enforceable reopening of certain areas of our community. I will continue to take this approach in unwinding previously issued orders, in a phased manner, as we adjust to a new normal. Let me reiterate that any decisions made to reopen will be done in consultation with medical experts with industry input.

Pursuant to Section 8B-7 of the Miami-Dade County Code, all of the orders that I have signed during the State of Local Emergency require ratification by the Board of County Commissioners. Therefore, I respectfully request that you ratify these orders so that we can continue to slow down the spread of COVID-19 in our community, while re-opening our community in a phased manner, with medical guidance, when the time is right.

**EXHIBIT 1: MODIFIED PROCEDURES FOR
BUILDING CODE INSPECTIONS
DURING COVID-19 EMERGENCY PERIOD**

EFFECT

These emergency procedures (the “Emergency Procedures”) will be effective on the effective date of Amendment 1 to Miami-Dade County Emergency Order 14-20 and shall be in effect throughout the Miami-Dade County State of Emergency related to COVID-19 novel Coronavirus. These Emergency Procedures supersede Exhibit 1 of Miami Dade County Emergency Order 14-20.

Nothing in these Emergency Procedures is intended to modify the requirements for special inspectors of threshold buildings contained in Section 553.79 of the Florida Statutes, or the provisions of Florida Law relating to Alternate Plans Review and Inspections contained in Section 553.791 of the Florida Statutes. Nothing in these Emergency Procedures is intended to limit the authority of the Building Official to issue any interpretation or take any actions consistent with the Florida Building Code or with any of the express provisions below.

These are the procedures for Building Code inspections to be used during the COVID-19 Emergency Period (the “COVID-19 Emergency”) by the Department of Regulatory and Economic Resources (RER). This notice does not set forth procedures for Fire Code inspections.

INSPECTION PROCEDURES

These Emergency Procedures allow for three different kinds of inspections which will be presumed to satisfy Building Code requirements: (a) inspections performed by architects, engineers and accredited laboratories (“Qualified Professional Inspections”); (b) virtual inspections conducted remotely by County inspectors in the manner set forth below (“Virtual Inspections”); and (c) inspections conducted by County personnel in person (“On-Site Inspections”). These inspections will be performed in the manner and subject to the procedures and limitations set forth below. Please note that certain inspections are required to be On-Site Inspections.

(a) Qualified Professional Inspections

1. Applicability

The permit holder may opt to have inspections performed by a State of Florida licensed and registered architect or engineer who has no financial interest in the construction (“Qualified Professional Inspection”). Inspections by TAS301 accredited laboratories are also acceptable provided they are signed and sealed by the qualified independent professional. This procedure does not supersede or otherwise limit other inspection procedures currently allotted to private providers, threshold and special inspectors.

Upon the effective date of these Emergency Procedures, permit holders will no longer be authorized to contract with contractors for the performance of limited inspection services provided under Executive Order Number 20-52. The County will continue to accept inspection reports relating to such inspections provided the permittee: (a) contracted for such services prior to the

effective date of these Emergency Procedures; (b) the inspection is performed prior to April 27, 2020 and (c) report of that inspection is submitted to the County not later than May 1, 2020.

Notwithstanding the Qualified Professional Inspection, certain inspections specifically identified below must still obtain an On-Site Inspection.

2. Qualified Professional Inspection Requirements

Qualified Professional Inspections must be reported on the (RER) STATEMENT OF INSPECTION REPORT COVID 19. A Report must be completed per each permit. The individual providing the statement must perform and record all inspections for the permit number and provide the completed report to Miami-Dade County via the email addresses below for the respective trade supervisor or to the RER inspector at the next scheduled inspection.

- a. Building and Roofing- Robert.Fatora@miamidade.gov,
JeanSocrate.Devilme@miamidade.gov, or
Charles.Walton@miamidade.gov
- b. Electrical - Amado.Diaz@miamidade.gov , or
Wilfredo.Gonzalez@miamidade.gov
- c. Mechanical – Gerald.Somerset@miamidade.gov, or
Carlos.DeLaTorre2@miamidade.gov
- d. Plumbing – Bernard.Chitolie@miamidade.gov , or
David.Erickson@miamidade.gov

Compliance with the provisions for inspections above shall be presumed to satisfy Florida Building Code requirements for the performance of building inspections. RER encourages the use of photographs or other documentation that supports the inspection result and can be attached to the report.

(b) Virtual Inspections

1. Applicability

In the event a County inspector is preferred, the County will first attempt to conduct a Virtual Inspection, with On-Site Inspections reserved, in the County's sole discretion, to situations where the County determines that public safety requires the inspection to be in person. Examples include, but are not limited to, construction of extraordinary complexity, inspections where the conditions cannot be appreciated remotely, and bad signal or other impediment to communication.

2. Procedures for Virtual Inspection

Virtual Inspections are conducted by using a video call on a smart phone or tablet to interact with the RER inspector. The process for Remote Virtual Inspection is as follows:

- The permit holder will schedule the inspections [online](#) or by calling (786)315-2100.
- When scheduling the inspection, the permit holder must provide a contact name, contact number and contact email address so that the inspector can schedule a Microsoft Teams meeting invite.
- On the day of the scheduled inspection, the inspector will contact the permit holder and schedule a meeting for the specific inspection time.
- The meeting invite will contain instructions on requirements and documents that need to be submitted to the inspector prior to the virtual inspection.
- At the scheduled time, the contractor will need to join the Team Meeting.
- Ensure the person walking the site has the necessary tools (based on the inspection type) readily available. For example, a tape measure level, GFCI tester, ladder, flashlight, etc.

3. Permit Holder Responsibilities

- Ensure your inspection location has 4G connectivity and your smart phone or tablet has 4G connectivity. You must have Microsoft Team App for the Remote Virtual Inspection.
- Make sure the smart phone or tablet is fully charged.
- Be ready to accept a video call at the scheduled time and respond to requests from the inspector.
- Make sure the auto rotate feature on your phone is turned on.
- Make sure to move slowly so the inspector can see the image clearly.
- Allow camera a moment to focus when showing specific items.
- Make sure any testing equipment, manometer, pressure valves... are already set up.
- Have the required tools (tape measure, level, GFCI tester, step ladder, etc.)
- Turn off phone or tablet notifications during the video call. Notifications freeze the video call and will cause delays to the inspection or could require the inspection to be rescheduled.

4. How To Do the Actual Virtual Inspection

- Begin inspection at street view looking at structure, exterior of property and close in on house or unit number. The contractor will show the inspector the following documents at the start of the inspection. If these documents are not available, the inspection will not be conducted and “*Not Ready for Inspection*” result shall be entered.
 - (i) Notice of Commencement (for new inspections)
 - (ii) Permit card
 - (iii) Approved Permit job Copy
 - (iv) Depending on the inspection type, any reports or special inspector letters necessary to enable inspection to be conducted.
- Follow the directions of the inspector. The inspection will be conducted by following the standard operating procedures as outlined in RER inspection [checklists](#).
- Make note of any items that require correction.
- When an inspection is performed through RER virtual inspection process, the inspector reserves the right to perform an on-site inspection. This may be due to a connection issue or the complexity of the inspection.
- The inspector will tell you in the video call if the inspection has passed or failed and inspection results can also be found in [Routes and Results](#).

(c) On-Site Inspections

1. Applicability

An On-Site Inspection shall be required for Final building code inspections and flood inspections of new construction that require a Certificate of Occupancy or Certificate of Completion and for alterations, repairs and residential additions 1000 square feet or larger. On-Site Inspections shall not be required for alterations, repairs and residential additions under 1000 square feet, accessory structures such as pool, fence and sheds and other miscellaneous permits such as metal awnings, shutters. On-Site Inspections shall not be required for Roofing, Electrical, Plumbing or Mechanical work associated with a master permit or any single trade (standalone) permits. Notwithstanding, the County may require an On-Site Inspection in any instance where the County, in its sole discretion, determines that the public interest requires the physical presence of a County inspector.

2. Procedures for On-Site Inspection

- The permit holder must schedule inspections either [online](#) or by calling (786)315-2100.
- When scheduling the inspection, the permit holder must provide a contact name and phone number in the comment line.
- Inspector will call thirty (30) minutes prior to the inspection to allow the contractor to relocate all personnel from the inspection area.
- When inspector arrives on-site, one contact person who is assigned to walk with the inspector can approach the vehicle. If more than 9 workers are present within the inspection area, the inspector will cancel the inspection.
- Contractor needs to maintain a safe and healthy job site environment and follow the CDC's best practices regarding social distancing.
- Inspector will perform inspection and inspection results can also be found through [Route and Results](#) portal.
