

Memorandum

Date: January 20, 2021
To: Honorable Chairman Jose “Pepe” Diaz
and Members, Board of County Commissioners

Substitute No. 2
Agenda Item No. 5(E)

From: Daniella Levine Cava
Mayor *Daniella Levine Cava*

Subject: Ordinance Creating the Sawyer’s Landing Community Development District

Substitute no. 2 differs from substitute no. 1 in that it replaces Michael Swerdlow with Sherie Swerdlow as an initial member of the Board of Supervisors. Substitute no. 1 differed from the original item in that it removed all references to a declaration of restrictive covenants because this development will not have any residential units for sale. The double strike-through and double underline shown in substitute no. 2 pursuant to rule 5.06(i) identifies changes from both substitute nos. 1 and 2.

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached Ordinance creating the Sawyer’s Landing Community Development District (CDD) in the City of Miami, Florida, pursuant to the authority granted by the Miami-Dade County Home Rule Charter for the purposes set forth in Chapter 190 of the Florida Statutes.

Scope

This Sawyer’s Landing CDD is located within Commission District 3, represented by Commissioner Keon Hardemon and will provide funding for capital improvements, as well as multipurpose maintenance functions, within the CDD.

Fiscal Impact/Funding Source

The creation of the Sawyer’s Landing CDD will have no fiscal impact to the County. CDD funding is derived from assessments levied against the properties within the CDD, which are secured by a lien against the properties and collected directly by the CDD or through the annual Combined Real Property tax bill pursuant to an interlocal agreement with the County.

Social Equity Statement

The proposed Ordinance grants a petition for the creation of the Sawyer’s Landing CDD, pursuant to the procedures and factors set forth in Section 190.046, Florida Statutes.

If approved, pursuant to Chapter 190, Florida Statutes, the CDD will have the power to levy taxes and special assessments and charge, collect, and enforce fees and other user charges affecting property owners within the proposed district, regardless of their demographics or income levels. The CDD is a timely, efficient, effective, responsive, and economic way to deliver and finance basic community development services.

Track Record/Monitor

This development has public roads that are to be maintained by a Property Owner’s Association (POA) or the Sawyer’s Landing CDD. A Multipurpose Maintenance Special Taxing District will be created to

maintain the development’s infrastructure, such as roadway improvements, storm drainage and landscaping, should the CDD be dissolved or fail to fulfill its maintenance obligations. The Special Taxing District will remain dormant until such time as the County determines to implement the district. Oversight of CDDs is the responsibility of the State.

Background

Downtown Retail Associates, LLC., (“Petitioner”), the petitioner of the Sawyer’s Landing Development, has filed an application to create the Sawyer’s Landing CDD in connection with said development. Sawyer’s Landing is a proposed 3.42 acres residential development lying wholly within the City of Miami, in an area bounded by NW 2 Avenue on the east, NW 6 Street on the south, NW 3 Avenue on the west, and NW 7 Street on the north. The Sawyer’s Landing CDD is designed to provide a financing mechanism for community infrastructure, facilities, and services along with certain ongoing operations and maintenance for the Sawyer’s Landing CDD. The development plan for the lands within the proposed Sawyer’s Landing CDD includes construction of retail space and approximately 556 apartment units with associated roadway improvements, stormwater management system, wastewater collection system, landscaping, open space, lighting and signage, parking facilities, and water distribution system, which are estimated to cost approximately \$72.387 million. This development has public and private roads that are to be maintained by a POA or the Sawyer’s Landing CDD. A detailed summary of CDD elements, as well as the cost and anticipated lack of fiscal impacts to government agencies, are presented in the attached application submitted by the Petitioner. In accordance with Chapter 190, Florida Statutes, the Petitioner has paid a filing fee of \$15,000.00 to the County and an additional \$15,000.00 for future advertising costs according to State Statute.

This Board is authorized by the Florida Constitution and the County Home Rule Charter to establish governmental units, such as this CDD, within the County and to prescribe such government’s jurisdiction and powers.

ORDINANCE NO. _____

ORDINANCE GRANTING PETITION OF DOWNTOWN RETAIL ASSOCIATES, LLC., FOR ESTABLISHMENT OF A COMMUNITY DEVELOPMENT DISTRICT GENERALLY BOUNDED ON THE NORTH BY NW 7 STREET, ON THE EAST BY NW 2 AVENUE, ON THE SOUTH BY NW 6 STREET, AND ON THE WEST BY NW 3 AVENUE; CREATING AND ESTABLISHING SAWYER’S LANDING COMMUNITY DEVELOPMENT DISTRICT; PROVIDING FOR NAME, POWERS AND DUTIES; PROVIDING DESCRIPTION AND BOUNDARIES; PROVIDING INITIAL MEMBERS OF BOARD OF SUPERVISORS; PROVIDING SEVERABILITY, EXCLUSION FROM THE CODE AND AN EFFECTIVE DATE

WHEREAS, the Florida Legislature created and amended Chapter 190, Florida Statutes, to provide an alternative method to finance and manage basic services for community development; and

WHEREAS, section 1.01(A)(21) of the Miami-Dade County Home Rule Charter grants the Board of County Commissioners the authority to exercise all powers and privileges granted to municipalities and counties by the laws of this state; and

WHEREAS, article VIII, section 6(e) of the Florida Constitution provides the authority for Miami-Dade County, through its charter, to provide a method for establishing new governmental units in Miami-Dade County and to provide for their government and prescribe their jurisdiction and powers; and

WHEREAS, Downtown Retail Associates, LLC., a Florida Limited Liability Company (“Petitioner”) has petitioned for the establishment of the Sawyer’s Landing Community Development District (“District”); and

WHEREAS, a public hearing has been conducted by the Board of County Commissioners in accordance with the requirements and procedures of section 190.005(2)(b), Florida Statutes, and the applicable requirements and procedures of the Miami-Dade County Home Rule Charter and Code; and

WHEREAS, the District will constitute a timely, efficient, effective, responsive and economic way to deliver community development services in the area, thereby providing a solution to the County's planning, management and financing needs for delivery of capital infrastructure therein without overburdening the County and its taxpayers; and

WHEREAS, the Board of County Commissioners finds that the statements contained in the Petition are true and correct; and

WHEREAS, the creation of the District is not inconsistent with any applicable element or portion of the State comprehensive plan or the Miami-Dade County Comprehensive Development Master Plan; and

WHEREAS, the area of land within the District is of sufficient size, is sufficiently compact, and is sufficiently contiguous to be developable as one functional interrelated community; and

WHEREAS, the creation of the District is the best alternative available for delivering the community development services and facilities to the area that will be served by the District; and

WHEREAS, the proposed services and facilities to be provided by the District will be compatible with the capacity and uses of existing local and regional community development services and facilities; and

WHEREAS, the area that will be served by the District is amenable to separate special district government; and

~~[[WHEREAS, the owner of the properties that are to be developed and served by the community development services and facilities to be provided by the District has submitted an executed declaration of restrictive covenants pledging among other things to provide initial purchasers of individual residential lots or units with notice of liens and assessments applicable to such parcels, with certain remedial rights vesting in the purchasers of such parcels if such notice is not provided in a timely and accurate manner; and]]¹~~

WHEREAS, having made the foregoing findings, after a public hearing, the Board of County Commissioners wishes to exercise the powers bestowed upon it by section 1.01(A)(21) of the Miami-Dade County Home Rule Charter in the manner provided by chapter 190, Florida Statutes; and

WHEREAS, the Board of County Commissioners finds that the District shall have those general and special powers authorized by sections 190.011 and 190.012, Florida Statutes, and set forth herein, and that it is in the public interest of all of the citizens of Miami-Dade County that the District have such powers,

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA:

Section 1. The foregoing findings, which are expressly set forth herein, are hereby adopted and made a part hereof.

¹ The differences between the substitute and the original item are indicated as follows: Words double stricken through and/or [[double bracketed]] are deleted, words double underlined and/or >>double arrowed<< are added.

Section 2. The Petition to establish the District over the real property described in the Petition attached hereto, which was filed by the Petitioner on April 23, 2020, and which Petition is on file at the Office of the Clerk of the Board, is hereby granted. A copy of the Petition is attached and incorporated herein as Exhibit A.

Section 3. The external boundaries of the District shall be as depicted in the certified metes and bounds legal description attached hereto and incorporated herein as Exhibit B to the Ordinance. The external boundaries of the District shall be as depicted on the location map attached hereto and incorporated as Exhibit C.

"EXHIBIT A to the Ordinance"

**PETITION TO CREATE SAWYER'S LANDING
COMMUNITY DEVELOPMENT DISTRICT**

Dated: August 21, 2020

**PETITION TO ESTABLISH
SAWYER'S LANDING
COMMUNITY DEVELOPMENT DISTRICT**

November, 2019

**PETITION TO ESTABLISH SAWYER’S LANDING
COMMUNITY DEVELOPMENT DISTRICT**

Petitioner, DOWNTOWN RETAIL ASSOCIATES, LLC, a Florida limited liability company, petitions Miami-Dade County, Florida (“County”), pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes and the Miami-Dade Home Rule Charter, to adopt an ordinance to establish a Uniform Community Development District (the “District”) and to designate the land area for which the District would manage and finance basic service delivery and states as follows:

1. **Petitioner and Authorized Agent:** Petitioner is a limited liability company with principal office at 2901 Florida Avenue, Coconut Grove, Florida 33133. Copies of all correspondence and official notices should also be sent to the authorized agent for Petitioners:

Dennis E. Lyles, Esq.
Billing, Cochran, Lyles, Mauro & Ramsey, P.A.
515 E. Las Olas Boulevard, Sixth Floor
Fort Lauderdale, Florida 33301
Phone: 954-764-7150 / Fax: 954-764-7279
Email: dlyles@bclmr.com

2. **District Location and Description:** The land area to be included in the District comprises approximately 3.42 gross acres more or less. A map showing the location of the land area to be included in the District is attached hereto as **Exhibit 1**. All of the land within the proposed District is located in the City of Miami, Florida. A metes and bounds legal description of the external boundaries of the District is attached hereto as **Exhibit 2**.

3. **District Impact:** There is no property within the external boundaries of the District which will not be part of the District. The impact of creating the District on the parcels adjacent to the District should be positive, in that the facilities provided by the District and maintenance of same should result in an aesthetically pleasing surrounding area with beneficial infrastructure while not detrimentally affecting anyone outside the District. In addition, any

potential establishment costs to the City of Miami or Miami-Dade County, the establishing entity, will be nominal.

4. **Property Owners Consent:** Attached hereto as **Exhibit 3** is documentation constituting written consent to the establishment of the District by the owner of the real property to be included in and serviced by the District.

5. **Initial Governing Board:** The five (5) persons designated to serve as the initial members of the board of supervisors of the District, who shall serve in that office until replaced by elected members, as provided in Section 190.006, Florida Statutes Amended, are named in **Exhibit 4** attached hereto.

6. **District Name:** The proposed name of the District is Sawyer's Landing Community Development District.

7. **Water and Sewer Lines:** The major trunk water mains, sewer interceptors and outfalls currently in existence to serve the District are identified on **Exhibit 5** attached hereto.

8. **Timetables and Construction Costs:** The proposed timetables and related estimates of cost to construct the District services and facilities, based upon available data, are attached hereto as **Exhibits 6** and **7**, respectively.

Petitioners intend that the District will finance (i) stormwater management system, (ii) water distribution system, (ii) wastewater collection system, (iii) roadway improvements, (iv) landscaping, open space, lighting, and signage, and (v) parking facilities and land allocation. The stormwater management system will be owned and maintained by the City of Miami or Miami-Dade County. The water distribution system and the wastewater collection will be owned and maintained by Miami-Dade County. The roadway improvements will be owned and maintained by the City of Miami. The landscaping, open space, lighting and signage will be owned and maintained by the District or City of Miami. The parking facilities will be owned and maintained by the District.

9. **Zoning Designation; Future Land Use:** The land within the District is zoned T6-12-O, Urban Core Zone and was subject to a development agreement between the Petitioner and the property owner, Southeast Overtown/Park West Community Redevelopment Agency (“CRA”) to which the Project is a mixed use development consisting of no less than 500 residential units, at least 250,000 square feet of retail, restaurant, office and entertainment uses and at least a 1,000 parking spaces. The zoning designation of the property is consistent with the Project. The future general distribution, location and extent of the public and private land uses proposed within the District are shown on **Exhibit 8**. These proposed land uses are consistent with the state comprehensive plan and the City of Miami Comprehensive Plan.

10. **Statement of Estimated Regulatory Costs:** The statement of estimated regulatory costs of the granting of this Petition and the establishment of the District pursuant thereto is attached hereto as **Exhibit 9**.

11. **Rights to be Granted the District:** Petitioners hereby request that the District be granted the right to exercise all powers provided for in Sections 190.012(1) and (2)(a) and (d), Florida Statutes.

12. **Disclosure Requirements:** Petitioner undertakes on behalf of the District that Petitioner and the District will provide full disclosure of information relating to the public financing and maintenance of improvements to real property to be undertaken by the District as required by Section 190.009, Florida Statutes, as amended and as required as a condition of the creation of the District by the Board of County Commissioners of Miami-Dade County.

13. **Reasons for the Establishment of the District:** The property within the District is amenable to operating as an independent special district for the following reasons:

a) Establishment of the district and all land uses and services planned within the proposed District are consistent with applicable elements or portions of the effective Miami-Dade County Comprehensive Master Plan.

b) The area of land within the District is part of a unified plan of development. The land encompassing the District is of sufficient size and is sufficiently compact and contiguous to be developed as one functional interrelated community.

c) The community development services of the District will be compatible with the capacity and use of the existing local and regional community development services and facilities.

d) The District will be the best alternative available for delivering community development services to the area to be served because the District provides a governmental entity for delivering those services and facilities in a manner that does not financially impact persons residing outside of the District.

14. **Resolution of Support from the City of Miami:** A Resolution of the City of Miami City Commission supporting the establishment of the District is attached hereto as **Exhibit 10.**

15. **Responsibility for Landscape Maintenance in the Public-Rights-of-Way:** The maintenance of improved swales and medians in the public rights-of-way excluding swale maintenance by owners of property as defined by Chapter 19 of the Code of Miami-Dade County shall be provided by District, including but not limited to, irrigation, landscape lighting, payment of related utility bills, turf, trees, shrubs and any other landscaping improvements provided or caused by this development, covenants associated with landscaping permitting in the public rights-of-way notwithstanding. In the event the District is dissolved or becomes defunct and fails to provide maintenance services within the public rights-of-way as specified herein, the

required dormant multipurpose maintenance special taxing district shall be activated to provide any such maintenance services.

WHEREFORE, Petitioners respectfully request Miami-Dade County to:

A. Schedule a public hearing to consider this Petition pursuant to the uniform procedures set forth in Section 190.005(2)(b) and (1)(d), Florida Statutes.

B. Grant the Petition and adopt an ordinance to establish the District and designate the land area to be serviced by the District, pursuant to Sections 190.005(2), Florida Statutes.

Respectfully submitted this 19th day of November, 2019.

STATEMENT OF ESTIMATED REGULATORY COSTS

STATEMENT OF ESTIMATED REGULATORY COSTS
Sawyer's Landing Community Development District

1.0 Introduction

1.1 Purpose

This statement of estimated regulatory costs ("SERC") supports the petition to form the Sawyer's Landing Community Development District ("District" or "CDD"). Downtown Retail Associates, LLC ("Petitioner") is master planning a +/- 3.42 acre mixed-use community, Sawyer's Landing ("Project"), located between NW 2 Avenue on the east, NW 3 Avenue on the west, NW 6 Street on the south and NW 7 Street on the north in the City of Miami ("City"), Miami-Dade County ("County"), Florida.

The District will provide community Infrastructure that will serve all the land in the proposed District. The District plans to provide community infrastructure including, but not necessarily limited to, water distribution improvements, wastewater collection improvements, roadway improvements, stormwater management improvements, landscape, open space, lighting and signage improvements, parking facilities and other community improvements to support the development of the Project. The District plans to finance community Infrastructure by issuing bonds ("Bonds") secured by, among other things, proceeds of non-ad valorem special assessments (the "Assessments") levied on land within the District that will specially benefit from the community infrastructure all as discussed more fully below.

1.2 Scope of the Analysis

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2) (d), F.S. (governing District formation or alteration) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

As noted above, the proposed District intends to provide community infrastructure and services along with their operations and maintenance, to the approximately 3.42 acres comprising the Project. The current development program for the land contained in the District is shown in Table 1 below. These plans are subject to change as market conditions may dictate in the future.

1.3 Requirements for Statement of Estimated Regulatory Costs

Section 120.541(2), F.S., defines the elements a statement of estimated regulatory costs must contain:

(a) An economic analysis showing whether the rule directly or indirectly:

1. Is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule;
2. Is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule; or
3. Is likely to increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.

(b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(c) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

(d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule. As used in this paragraph, "transactional costs" are direct costs that are readily ascertainable based upon standard business practices, and include filing fees, the cost of obtaining a license, the cost of equipment required to be installed or used or procedures required to be employed in complying with the rule, additional operating costs incurred, and the cost of monitoring and reporting.

(e) An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined

by Section 120.52, F.S. The City is not defined as a small city for purposes of this requirement.

(f) Any additional information that the agency determines may be useful.

(g) In the statement or revised statement, whichever applies, a description of any good faith written proposal submitted under paragraph (1) (a)[of Section 120.541, F.S.] and either a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed rule.”

- 2.0 (a) An economic analysis showing whether the rule directly or indirectly is likely to (1) have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule; (2) have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule; or (3) increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.**

It is unlikely the establishment/creation of the District will meet any of the triggers in Section 120.541(2)(a), F.S. The basis for this determination is provided in the discussions in Section 3.0 through Section 6.0 herein.

- 3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the ordinance, together with a general description of the types of individuals likely to be affected by the ordinance**

As noted above, the proposed District will provide infrastructure and community services to the +/-3.42 acres of land planned for the Project as outlined in Table 1. All of the ultimate property owners in the District will be required to comply with District rules and their properties will be encumbered with District obligations to pay for infrastructure and operations and maintenance expenses incurred by the District. Based on the current development program the following entities and individuals would be affected by the formation of the District: the owners and occupants of (a) +/- 556 apartment units and +/- 353,470 square feet of retail space. Prior to the development and sale of the real estate, all of the undeveloped land owned by Petitioner and any other landowner within the District boundaries will also be under the jurisdiction of the District.

- 4.0 Good faith estimate of the cost to state and local government entities, of implementing and enforcing the proposed ordinance, and any anticipated effect on state and local revenues**

- 4.1 Costs to Governmental Agencies of Implementing and Enforcing Ordinance

State Governmental Entities

The cost to State entities to review or enforce the proposed ordinance will be very modest. The District comprises less than 2,500 acres. Therefore, the County will review and act upon the petition to establish the District.

There are minimal additional ongoing costs to various State entities to implement and enforce the proposed ordinance. The District is a special purpose unit of local government, and it is required to file various reports to the State of Florida, the Department of Economic Opportunity and other agencies of the State. The filing requirements are outlined in Appendix A. However, the additional costs to the State and its various departments to process the additional filings from the District are very low, since the State routinely processes filings from over 500 similar districts. Finally, the filing fees paid by the District are designed to offset any additional costs to the State.

Miami-Dade County and the City of Miami

This petition to establish the District will require the County to review the petition and its supporting exhibits. In addition, the County will hold public hearings to discuss the petition and to take public input. These activities will absorb staff time and time of the County Commission.

However, these costs are very modest at most for the following reasons. First, the review of this petition to form the District does not include an analysis of the Project itself. In fact, such a review of the Project is prohibited by statute. Second, the petition contains all of the information necessary for its review. Third, the County already has all of the staff necessary to review the petition. Fourth, no capital costs are involved in the review. Fifth, the County routinely processes similar petitions for land use and zoning changes that are far more complicated than this petition to form the District. Finally, Petitioners will pay a statutorily prescribed filing fee to the County designed to offset these costs.

The County will incur only a small additional annual cost if this petition is approved. The proposed District is an independent unit of local government, so the District is responsible for its own budget, reporting, and the full conduct of its powers within its boundaries. The District will provide the City and the County with its budget each year, but no City or County action is required.

4.2 Impact on State and Local Revenues

Adoption of the proposed ordinance will have no negative impact on State or local revenues. The District is an independent unit of local government. It is designed to provide community facilities and services to serve the development. It has its own sources of revenue. No State or local subsidies are required or expected.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any other unit of local government except the District. By State law, debts of the District are strictly its own responsibility.

5.0 A good faith estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the ordinance

The District plans to provide various community facilities and services to the land in the District, as outlined in Table 2 below. The District plans to fund, own, operate and maintain the landscape, hardscape, lighting and signage, and part of the stormwater management improvements. The District plans to fund the public roadways, utilities, additional stormwater management improvements, and parking facilities, all of which will be owned by the District or dedicated to the County or City, and the County or City will operate and maintain these dedicated public infrastructure facilities.

Table 2. Proposed Facilities and Services

<i>Facility</i>	<i>Funded By</i>	<i>O&M By</i>	<i>Ownership</i>

Water Distribution System	CDD	County	County
Stormwater Management ¹	CDD	City/County	City/County
Parking Facilities	CDD	CDD	CDD
Landscaping/ Open Space/Lighting/Signage	CDD	City/CDD	City/CDD

Petitioners have estimated the costs for providing the capital facilities as outlined in Table 2, and these are shown in Table 3. Total costs for these facilities and land allocation are estimated to be approximately \$72,387,000. To fund this construction program, in whole or in part, the District may issue special assessment or other revenue bonds. The Bonds would be repaid through non-ad valorem assessments levied on all lands in the District that may benefit from the District's proposed facilities and services as outlined in Table 2 and any other available revenue source.

Table 3. Summary of Estimated Capital Costs for Proposed Sawyer’s Landing Community Development District

Prospective future landowners in the District may be required to pay non-ad valorem assessments levied by the District to secure the debt incurred through bond issuance. In addition to the levy of non-ad valorem assessments for debt service, the District may also impose a non-ad valorem assessment to fund the operations and maintenance of the District and its facilities and services.

It is important to note that the various costs outlined in Table 3 are typical for developments of the type contemplated here. In other words, there is nothing peculiar about the District’s financing that requires additional infrastructure over and above what would normally be needed. Therefore, these costs are not in addition to normal development costs. Instead, the facilities and services provided by the District are substituting in part for developer-provided infrastructure and facilities. Along these same lines, District-imposed assessments for operations and maintenance costs are similar to what would be charged in any event by a property owners’ association common to most master planned developments.

Real estate markets are quite efficient, because buyers and renters evaluate all of the costs and benefits associated with various alternative locations. Therefore, market forces preclude developers from marking up the prices of their products beyond what the competition allows. To remain competitive the operations and maintenance charges must also be in line with the competition.

Furthermore, locating in the District by new landowners is completely voluntary. So, ultimately, all owners and users of the affected property choose to accept the District’s costs in tradeoff for the benefits that the District provides.

The District is an alternative means to finance necessary community services. District financing is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a neighborhood

association, City provision (directly or via a dependent special district), or through developer bank loans.

6.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

There will be no impact on small businesses because of the formation of the proposed District. If anything, the impact may be positive. This is because the District must competitively bid certain of its contracts. This affords small businesses the opportunity to bid on District work.

The development is located in the City Miami. As of the Census date, the 2010 Census, the City has a population of in excess of 10,000 people. Therefore, the proposed District is not located in a City defined as a “small city” (10,000) according to Section 120.52, F.S.

7.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from Petitioners’ Engineer and other professionals associated with Petitioners.

Finally, it is useful to reflect upon the question of whether the proposed formation of the District is the best alternative to provide community facilities and services to the Project. As an alternative to the District, the City or County could approve a dependent special district for the area, such as a Municipal Service Benefit Unit (“MSBU”) or a special taxing district under Chapter 170, F.S. Either of these alternatives could finance the improvements contemplated in Table 2 in a fashion similar to the proposed District.

However, each of these alternatives is inferior to the District. Unlike the District, the alternatives would require the City or County to continue to administer the Project and its facilities and services. As a result, the costs for these services and facilities would not be sequestered to the land directly benefiting from them, as the case would be with the District.

A District also is preferable from a government accountability perspective. With a District as proposed, landowners and renters in the District would have a focused unit of government under their direct control. The District can then be more responsive to landowner needs without disrupting other City or County responsibilities.

Another alternative to the District would be for the developer to provide the infrastructure and to use a property owners association (“POA”) for operations and maintenance of community facilities and services. A District is superior to a

POA for a variety of reasons. First, unlike a POA, a District can impose and collect its assessments along with other property taxes. Therefore, the District is far more assured of obtaining its needed funds than is a POA. Second, the proposed District is a unit of local government. Therefore, unlike the POA the District must abide by all governmental rules and regulations.
