**Subject:** FY 2019-20 End-of-Year Budget Supplement and Amendment

Agenda Item No. 5(B)

This substitute differs from the original item in that it corrects certain errors on the Operating Budget Appropriation Schedules for Countywide General Fund (Fund GF 010, Subfund 010), UMSA General Fund (Fund GF 010, Subfund 010) and Board of County Commissioners (Fund GF 030, Subfund 052, Project 052BCC, Various Project Details). The changes are shown in underline and in a new column for additions, and in strikethrough for deletions.

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) approve the attached budget supplements and amendments in accordance with the Home Rule Charter and Section 129.06 of the Florida Statutes. These amendments will align the County's FY 2019-20 Adopted Budget with actual expenditures.

## **Scope**

The impact of this item is countywide.

## **Fiscal Impact/Funding Source**

Detailed below.

## **Background**

A budget supplement is required by the Miami-Dade County Charter and State law when expenditures exceed budgeted appropriations.

The total value of all operating adjustments detailed below is \$489.464 million. The revisions reflected in this item include adjustments needed to acknowledge additional revenues associated with allocated interest earnings and bond proceeds (CB 360, Subfund 103 Project 360111, CB 361, various Subfunds various Projects, CB 362, various Subfunds various Projects, CB 363, Subfund 002 Project 363005, D1, Subfund 2A1, D5, various Subfunds and D6, Subfund 2N2), transactions needed to balance funds (GF 030, Subfund 023 and SO 120, Subfund 122 Project 122000), transfer of other revenues (SO 120, Subfund 122), along with the corresponding expenditures. Pursuant to Resolution No. R-432-16, a transfer of \$7.556 million from the Countywide General Fund to the Affordable Housing Trust Fund is included as part of this item. With this transfer, the balance of the Affordable Housing Trust fund is \$19.549 million.

## **General Fund Adjustments**

The following departments require a budget amendment in GF 010 totaling \$7.226 million for additional expenditures or activities. These adjustments are funded with savings from other departments in Fund GF 010, Subfund 010:

Director, Office of Management and Budget

**Subject:** Office of Management and Budget, Human Resources, Finance, Internal Services and Information Technology Department Reorganizations, Request for Centralized Employment Services (CES) Waiver and Overage Request

---

The first phase of the County's Enterprise Resource Planning (ERP) System implementation is scheduled to go live on October 1, 2020. As a result, it is necessary to establish the organizational structure that will support the system which integrates the general ledger, accounts payable, accounts receivable, billing, payroll, time and leave, benefits, supply chain, strategic sourcing, performance reporting and budgeting into one system. This will require tables of organization (TO) changes for the Office of Management and Budget (OMB), Human Resources (HR), Finance (FIN), Internal Services (ISD) and Information Technology (ITD) departments.

A new division of OMB, Strategic Business Management, will be responsible for the maintenance, enhancement/upgrade and support of the ERP technology applications, tools, processes and third-party integration systems. It will also coordinate business process improvements and strategic planning that will drive the analytics derived from the ERP. The new division will be responsible for managing and coordinating all activities referenced above including the change management communication plan throughout the organization. It will further ensure that the reporting of controls established by FIN, HR, ISD and ITD are incorporated into the ERP. This will require the transfer of positions and employees (if currently filled) from the following departments: Human Resources (two), Finance (seven), Internal Services (three) and Information Technology (five) as illustrated in the attached departmental TOs. Pursuant Section 2-41 (9) of the Miami-Dade County Code, all employees transferred to OMB as a result of this reorganization will be exempt from the classified service.

I respectfully request an overage position and approval of a CES waiver to appoint Mr. Joseph P. Conway as Assistant Director, Strategic Business Management Division, effective February 24, 2020 with a starting salary of \$186,200. This newly defined role will lead the support efforts for strategic systems and business processes for at an enterprise level for the County.

Mr. Conway is a seasoned IT and business professional with more than 30 years of experience leading information and business process engineering changes for both the private sector and government. In his tenure as an ITD Division Director with Miami-Dade County, he led the implementation of time collection (ePars) for all County departments and managed the successful upgrades for the Water and Sewer and Aviation departments' ERP applications. Mr. Conway will continue to lead the County's ERP implementation. As the project transitions to meet significant go-live milestones, it will be essential to establish a cross-functional team to support the on-going efforts associated with the new ERP solutions and for the enhancement of future business needs. Mr. Conway possesses an Executive Master of Business Administration from the University of Maryland, and a Bachelor of Science, magna cum laude, from the University of Baltimore. Mr. Conway also holds a Project Management Professional (PMP) certification.

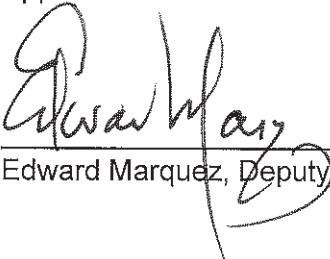

With the appointment of Mr. Conway to the new Strategic Business Management Division, ITD will need to restructure its divisions to better align staff and workloads throughout the organization. A new branch is being created, "Administration and Customer Service", moving the Operational Support Services (administration), Service Management and Enterprise Portfolio Management divisions from under the Director to a new Assistant Director position. In addition, the Business Relationship Management unit is also transferred out of the Shared Services Division and into the Administrative and Customer Service branch. This change requires in the reclassification of an existing vacant Network Manager 1 to an Assistant Director position.

In addition, HR will assume responsibility of the entire payroll process requiring the transfer of seven currently filled positions from the Payroll Unit in the Finance Department. These positions will be responsible for all tasks and responsibilities associated with the processing of direct deposits, garnishments, vouchers and stop payments, W2 processing for active and retired employees, last wage payments, Florida Retirement System reporting, biweekly payroll wire transfers and the administration of the two payroll bank accounts. Through the continued review of the various HR business processes of the ERP implementation, it may be necessary to centralize certain functions such as Position Management and Department Personnel Representative (DPR) functions. At that time, a separate reorganization recommendation will be provided for your review and approval.

As we complete the various phases of the ERP implementation, operational impacts requiring position changes will be addressed through the budget development process.

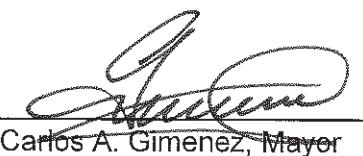

Thank you for your consideration.
