Agenda Item No. 8(P)(3)

Subject: Recommendation to Waive Competitive Bidding Procedures and Approval of Additional Time and Expenditure Authority under Contract for Garbage Collection and Disposal

Summary

This item is requesting approval of additional time and expenditure authority for multiple County departments to continue procuring garbage collection and disposal services for County-owned locations. This item is seeking an extension to allow the Department of Solid Waste Management (DSWM) adequate time to procure trucks and hire and train staff to insource these services instead of contracting out to vendors. An update to DSWM's schedule of fees in Implementing Order 4-68 was adopted via Ordinance 22-117, as part of the Fiscal Year 2022-23 County Budget, to include a wider array of dumpster and roll-off price ranges, based on market rates researched by DSWM staff. It is in the best interest of the County to transition County departments' garbage collection and disposal to DSWM service upon expiration of this contract's extension.

Recommendation

It is recommended that the Board of County Commissioners (Board) waive the competitive bidding requirements of Section 2-8.1 of the Code of Miami-Dade County and Section 5.03(d) of the Home Rule Charter by a two-thirds vote of the Board members present and approve additional time of five-years, except for the Miami-Dade Aviation Department (MDAD), and increase the expenditure authority by \$21,559,359 under *Contract 6938-2/22, Garbage Collection and Disposal* for multiple County departments. Because the failure to collect and dispose of garbage and waste at MDAD facilities constitutes an immediate danger to public health, it is recommended that the contract be extended one year for the MDAD sites and any optional services for MDAD as allowed by the contract. If DSWM is not able to take over the MDAD sites and any optional services utilized by the department prior to the one-year extension period, a competitive contract will be established for the remaining term and come to the Board for approval.

DSWM was tasked to determine whether it can assume the additional solid waste services provided under this contract. The department is recommending transition of County departments to DSWM service upon expiration of the requested extension. Due to recent supply chain issues and difficulties recruiting personnel, DSWM is requesting a five-year extension of the contract to allow time to procure trucks and dumpsters, and establish positions, conduct recruitment, and train new staff. Currently, DSWM is experiencing difficulties purchasing trucks and dumpsters, and there are concerns that the dumpsters required for this transition will not be easily obtainable under current market conditions. Market research is being performed to locate more vendors that can provide dumpsters. The department believes that these needed acquisitions and transition of services are achievable within the requested five-year period.

Background

This competitive contract was established by the Board on September 17, 2013, for a five-year term, with two, two-year option to renew terms through Resolution No. R-740-13. The contract was subsequently modified under delegated authority and by the Board through Resolution Nos. R-358-17 and R-889-21. The contract is currently in its final option to renew term and expires on May 31, 2023.

MDC001

County departments use this contract for disposal of trash and garbage generated at County-owned locations. The service locations include, but are not limited to, multi-story office buildings, parks, and County-owned housing facilities.

DSWM performed an inventory of services covered by this contract and the resources necessary to increase DSWM coverage to include them. The department anticipates needing to scale-up as follows: add garbage dumpsters and front-end load trucks for dumpster routes; add waste truck drivers and waste collectors for dumpster routes; add roll-off containers and waste truck drivers for roll-off routes; and add roll-off trucks for roll-off routes. It is estimated that the dumpsters and trucks needed for this effort will take two-years to arrive once an order has been placed. Additional time will be needed for recruitment and training of staff and to transition the services.

Accordingly, it is in the County’s best interest to waive competitive bidding requirements pursuant to Section 2-8.1 of the Miami-Dade County Code and Section 5.03(d) of the Home Rule Charter to ensure continuity of garbage collection and disposal services.

Scope

The scope of this item is countywide in nature.

Fiscal Impact/Funding Source

The current term expires on May 31, 2023. The contract has a current cumulative allocation of \$36,961,030. If this request is approved the contract will have a modified cumulative allocation of \$58,520,389 and will expire on May 31, 2028. For MDAD only, the contract will expire on May 31, 2024. The requested allocation is based on negotiated rates from all three awarded vendors for the contracted locations and is based on current economic conditions. The requested allocation also includes a 10 percent contingency for additional locations and services to be added, if needed, as well as any price adjustments associated with Living Wage and the Consumer Price Index.
