Background

Century Hammocks T-24617

- Located in Section 28, Township 55 South, Range 39 East.
- Zoning: EU-M.
- Proposed Usage: Single family residences.
- Number of Parcels: Ten.
- This plat meets concurrency.
- Available public water lines about the proposed subdivision to which connection is required. Public sanitary sewers are not within feasible distance to the subdivision. Each Lot will be served by an onsite sewage treatment and disposal system.
- On July 7, 2022, the Board adopted Ordinance No. 22-83, which institutes more rigorous standards for new and replacement onsite sewage treatment and disposal systems (OSTDSs) commonly referred to as "septic tanks" or "septic systems. After January 1, 2023, if proposed development is not within feasible distance to public sanitary sewers, development applications (including plats) that can be approved using an onsite sewage and treatment system, will be reviewed in accordance with the new advanced treatment standards.
- Pursuant to ordinance no. 22-137, plat applications filed prior to the effective date of the ordinance may be reviewed under the feasible distance provisions of Chapter 24 that were in effect prior to the effective date of the ordinance. This plat was evaluated under the former feasible distance standards since the application was submitted prior to the effective date of the ordinance. Future applications (e.g. building permits) for the same property will be reviewed under the new feasible distance standards. It is anticipated that unless new sanitary sewer infrastructure is installed within feasible distance or unless a future application is made, for example an application for larger homes as compared with the current application, no connection will be required.

Developer's Obligation

Mobilization, clearing, maintenance of traffic, paving, sidewalk, drainage, street name signs, traffic control signs, curb & gutter, guardrail, landscaping, striping, and monumentation which are bonded under bond number 8331 in the amount of \$209,133.00.
