# Memorandum

**Date:** June 5, 2007

**To:** Honorable Chairman Bruno A. Barreiro  
and Members, Board of County Commissioners

**From:** George M. Burgess

**Subject:** Ordinance Amending Section 2-8.2.10 of the Code of Miami-Dade County  
Related to Procurement Procedures

---

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) adopt the attached ordinance amending Section 2-8.2.10 of the Code of Miami-Dade County. The amendment establishes provisions that would allow municipalities to use their own procurement procedures when constructing projects on behalf of the County with Building Better Communities (BBC) General Obligation Bond Program funds. The County's Community Small Business Enterprise (CSBE) and Community Small Business Enterprise – Architectural and Engineering (CBE-A/E) programs would apply unless a municipality has their own small business program approved by their board which would then be used in lieu of ours. On June 6, 2006 the Board approved an ordinance for cities to use their own procurement procedures for projects inside their municipal limits. Individual development agreements between the County and a municipality will continue to be brought to the Board for approval.

## **Scope**

The impact of this ordinance is within the boundaries of the 35 municipalities within Miami-Dade County.

## **Fiscal Impact/Funding Source**

The proposed legislation will permit municipalities to use their own procurement procedures to construct Building Better Communities bond projects on behalf of the County. The proposed ordinance does not exempt the municipalities from complying with the Florida Statutes that govern the selection of architects and engineers (A&Es) and contractors. Like the County, municipalities will have to use a qualifications-based selection for A&Es as prescribed by Florida Statute 287.055. Similarly, municipalities must obtain competitive, sealed bids for construction contractors as governed by Florida Statutes 255.20. Bid waivers by municipalities are only permissible to the extent that such waivers are allowed under Florida law and city ordinance.

The ordinance will save time due to the learning curve associated with utilizing unfamiliar County procurement procedures. Currently, the local economy is facing a 2% per month inflation on construction costs. The proposed ordinance allowing municipalities constructing Building Better Communities projects on behalf of the County to use their own procurement procedures will minimize these inflationary costs as well as allow the County to save the cost of training the municipalities.

The County will make disbursements to the municipalities on a reimbursement basis and the Office of the Inspector General will continue to have access to inspect, audit and review any GOB-funded project.

**Track Record/Monitor**

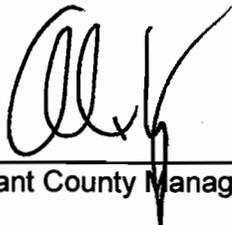

**Recommending Entity** – The implementing agency will be one of 35 municipalities located within Miami-Dade County.

**Responsible for Monitoring** – Office of Capital Improvements (OCI), Roger T. Hernstadt, Director. The Project Manager from OCI will be Ana Watson, P.E. - Senior Professional Engineer.

**Background**

On June 6, 2006 the Board approved Ordinance No. 06-88 enacting Section 2-8.2.10 of the Code of Miami-Dade County to establish procurement procedures for contracts related to projects funded in whole or in part by the BBC General Obligation Bond Program. The ordinance established provisions for the municipalities and certain not-for-profit organizations with projects funded by the BBC General Obligation Bond program to use their own procurement procedures for projects on their property, including application of their own small business programs.

However, Ordinance No. 06-88 did not include provisions for municipalities to use their own procurement procedures when constructing a project on behalf of the County. In order to expedite and distribute the work load of the BBC General Obligation Bond projects, the Library Department has requested to allow municipalities to construct two (2) of their projects. These projects include the Northeast Library (City of Aventura) and the Hialeah Gardens Library (City of Hialeah Gardens). Additionally, other projects may be expedited by allowing municipalities to construct projects for the County. The proposed amendment would allow municipalities to adhere to their own procurement procedures, with the exception of the CSBE and CBE-A/E programs, when constructing projects on behalf of the County. In the event a municipality has their own small business program approved by its board, it can be used in lieu of the County's programs. Although this change would waive adherence to most of the County's procurement procedures for these projects, the total dollar value of the impacted projects is very small when compared to the whole of the \$2.9 billion BBC capital program. These changes should expedite the delivery of BBC Bond projects to the community since, through the use of municipal capital construction forces, the total number of projects that can be constructed at any given time would be increased.
