Memorandum

Date: May 8, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

Agenda Item No. 3(O)(12)(A)

From: George M. Burgess
County Manager

Subject: Resolution Authorizing Execution of a Sub-grant Agreement with the State of Florida Department of Management Services to Retroactively Accept Radio Equipment as Part of the State and Local Domestic Preparedness Equipment Program

Recommendation

It is recommended that the Board approve the attached resolution authorizing execution of a Sub-grant agreement between Miami-Dade County and the State of Florida's Department of Management Services. The agreement retroactively allows for the acceptance by Miami-Dade County of interoperability radio equipment made available pursuant to the State and Local Domestic Preparedness Equipment Program.

Scope

This agreement supports emergency response services countywide.

Fiscal Impact/Funding Source

The funding source is the State of Florida's Department of Management Services. The County is not required to provide any matching funds and there is no fiscal impact on County operations as a result of the agreement.

Track Record/Monitor

There are no known issues with the State of Florida's Department of Management Services. Felix Perez, ETSD's Radio Services Division Director, will monitor this agreement.

Background

The State of Florida participates in the State and Local Domestic Preparedness Equipment Program, a program designed by the federal government to provide assistance to state and local jurisdictions in improving disaster preparedness with respect to potential terrorist acts. Pursuant to this program, the State has already furnished to Miami-Dade County radio communication interoperability equipment, valued at approximately \$93,000, which links with the Florida Interoperability Network (FIN). The system, composed of equipment and associated software application, is currently installed and operational in support of the 911 operations of both the Police and Fire departments.

As a participant in the State's interoperability strategy, Miami-Dade County currently uses this system to gain access to Mutual-Aid and Tactical channels via FIN. This network is one of the tools utilized by Miami-Dade County to enable first responders on disparate radio systems and frequencies to communicate with one another. The system provides secure interagency communication across jurisdictional and geographical boundaries. The State of Florida has indicated that the execution of this agreement is necessary for the State to be in compliance with federal requirements regarding the sub-granting of these funds and equipment.
