Agenda Item No. 8(L)(1)(A)

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. S. [Signature]
County Manager

Subject: Application for Health and Human Services Funds Under the Ryan White HIV/AIDS
Treatment Modernization Act of 2006

R# 1223-07

Recommendation

It is recommended that the Board of County Commissioners approve the attached Resolution authorizing the County Mayor to apply for, receive, disburse, and expend approximately \$24 million in Ryan White Part A (formerly known as Title I) funds from the U.S. Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA) on or before November 5, 2007; to receive and expend additional funds that might become available during the term of the grant period; to file and execute any necessary amendments to the application on behalf of Miami-Dade County; execute amendments, modification, cancellation, and termination clauses of any existing contracts and agreements previously approved by the Board. These funds must be utilized during the period of March 1, 2008 through February 28, 2009. No County matching funds are required.

Scope

The impact of this resolution is countywide as the HIV/AIDS related health and support services will be provided to low income populations living with HIV/AIDS residing in the entire county.

Fiscal Impact

If awarded funding by the U.S. Department of Health and Human Services' Health Resources and Services Administration, this grant will provide approximately \$24 million for persons living with HIV or AIDS with HIV-related health and support services. No County matching funds are required.

Track Record/Monitor

The Office of Strategic Business Management (OSBM) has been designated by the County Manager as the entity responsible for entering into contracts with public or not-for-profit community-based organizations that will provide the above mentioned services to persons living with HIV/AIDS. OSBM's Ryan White Program staff will be responsible for monitoring Ryan White Part A contracts for compliance with all programmatic, fiscal, and administrative requirements.

Background

In accordance with the Title I Grant under the Ryan White Comprehensive AIDS Resources Emergency (C.A.R.E.) Act of 1990, as amended, Miami-Dade County has consecutively received funds in years 1991 through 2007. These funds were awarded to the County due to the high incidence of HIV/AIDS cases. In 2007, Miami-Dade County was awarded approximately \$25.061 million in grant funds that included \$2.5 million in Minority AIDS Initiative (MAI) funds. The newly re-

authorized and re-named Ryan White HIV/AIDS Treatment Modernization Act of 2006, (Public Law 109-415), hereafter called the Ryan White Program, requires that Eligible Metropolitan Areas (EMAS) that are recipients of Part A funding, compete via an annual grant application process for continuation funding. The deadline for applying for these funds is expected to be early November 2007. These funds are awarded to relieve the overwhelming burden of the HIV epidemic among low income persons living with HIV/AIDS and to provide support for needed services in order to decrease disparities in health outcomes and increase access to medical care and treatment. It is anticipated that the County will receive official notice of the grant award by March 1, 2008.

As required by the Ryan White Program, the Board created and established the Miami-Dade HIV/AIDS Partnership (Partnership) to determine the needs of the community and service priority areas. For grant year 2008-09, these service priorities for Part A funding include prescription drugs, outpatient medical care, medical case management, residential and outpatient substance abuse treatment, oral health care, mental health and psychosocial counseling, legal assistance, home health care, food/meals, transportation services, insurance premium payment assistance, and outreach services. This grant will be specifically used to fund community agencies that have a commitment to ensuring comprehensive services to persons living with HIV disease.

Pending federal award notification, funding allocations based on service priorities identified by the Partnership, and contract awards already approved by the Board of County Commissioners via Resolution 1381-06 will be executed with a budget period start date of March 1, 2007.
