RESOLUTION NO. **R-784-08**

RESOLUTION URGING CONGRESS AND THE ADMINISTRATOR OF NASA TO EXPLORE ALL POSSIBLE DOMESTIC OPTIONS TO REDUCE OR ELIMINATE THE NEED TO PROCURE FOREIGN LOGISTIC SERVICES FOR THE INTERNATIONAL SPACE STATION COMMERCIAL ORBITAL TRANSPORTATION SERVICES (COTS) PROGRAM AND TO FULLY UTILIZE THE DEMONSTRATED EXCELLENCE OF THE KENNEDY SPACE CENTER FOR THE INTEGRATION AND LAUNCH OF THESE CREW AND CARGO LOGISTIC OPERATIONS

WHEREAS, the United States has a strategic interest in maintaining the nation's preeminence in spaceflight; and

WHEREAS, the spaceflight expertise at the Kennedy Space Center is a center of excellence that should be maintained after the discontinuance of Space Shuttle missions; and

WHEREAS, the United States has obligations to provide crew and cargo logistic services to the International Space Station after the Shuttle is retired; and

WHEREAS, until the Constellation Program reaches operational status, the U.S. currently plans to substantially fulfill those obligations by purchasing logistic services from Russia, notably Soyuz and Progress flights; and

WHEREAS, these plans make the United States largely dependent on the Russians in obtaining access to the International Space Station for a period of five year or more; and

WHEREAS, the National Aeronautics and Space Administration (NASA) has executed Space Act Agreements under the Commercial Orbital Transportation Services (COTS) Program to foster domestic commercial capability to provide crew and cargo logistics to the International Space Station; and

WHEREAS, the COTS Program provides for four different cargo and crew logistic capabilities known as Capabilities A, B, C and D; and the United States is the world's premier spacefaring nation because the American aerospace industry has consistently provided solutions to national needs including those of NASA; and

WHEREAS, these talents should be tasked to providing domestic solutions to America's crew and cargo logistic needs; and resources to be spent on procuring Russian Soyuz and Progress logistic services would best be devoted to the development and procurement of domestic crew and cargo logistic capabilities,
