Comprehensive Development Master Plan (CDMP)

Substitute
Special Item No. 1

Ordinance No. 08-88

THE ENCLOSED SUBSTITUTE ORDINANCE DIFFERS FROM THE ORIGINAL IN THAT IT REVISES THE PREAMBLE OF THE ORDINANCE TO REFLECT (1) THE REQUEST TO EXTEND THE DRI/CDMP AMENDMENT DEADLINES PURSUANT TO CHAPTER 380.06(6)(b)3, F.S., (2) THE ACTIONS TAKEN BY THE BOARD OF COUNTY COMMISSIONERS AT ITS "TRANSMITTAL" PUBLIC HEARING ON JULY 26, 2007, AND THE RECEIPT OF THE OBJECTIONS, RECOMMENDATIONS AND (3) COMMENTS (ORC) FROM THE FLORIDA DEPARTMENT OF COMMUNITY AFFAIRS (DCA) BY LETTER DATED OCTOBER 12, 2007. IN SECTION 2 OF THE SUBSTITUTE ORDINANCE, PARAGRAPH NO. 1 WAS AMENDED TO INCLUDE INTENSITY STANDARDS AND PERCENTAGES OF USE IN RESPONSE TO THE ORC COMMENTS, AND PARAGRAPH NO. 4 WAS ADDED TO STATE THAT TABLE 3 ON PAGES VIII-10 AND VIII-11 OF THE INTERGOVERNMENTAL COORDINATION ELEMENT OF THE CDMP WAS AMENDED TO INCLUDE "MIAMI METROZOO" AND THE "MIAMI METROZOO ENTERTAINMENT AREA" AS FACILITIES OF COUNTYWIDE SIGNIFICANCE. FURTHERMORE, PARAGRAPH NO. 5 WAS ADDED TO STATE THAT TWO CAPITAL IMPROVEMENT PROJECTS WERE INCLUDED IN THE PARK AND RECREATION (TABLE 6) COMPONENT OF THE CAPITAL IMPROVEMENTS ELEMENT (CIE).

RECOMMENDATION

It is recommended that the Miami-Dade County Board of County Commissioners (BCC) approve the attached ordinance, which provides for adoption, adoption with change, or denial of the proposed Miami Metrozoo Development of Regional Impact (DRI) application to amend the Comprehensive Development Master Plan (CDMP) at the public hearing scheduled for **9:30 AM on Thursday, July 3, 2008**. The CDMP amendment application was filed for concurrent processing with a separate, but related, application requesting changes to the existing Miami Metrozoo DRI (a.k.a. Miami Metrozoo and Larry and Penny Thomson Park). Under the special concurrent process provided in Chapter 380.06(6), F. S., and Section 2-116.1 of the Code of Miami-Dade County, the BCC is to take final action on the CDMP amendment ordinance and the proposed changes to the DRI.

SCOPE

The CDMP is a broad-based countywide policy-planning document to guide future growth and development, to insure the adequate provision of public facilities and services for existing and future populations, and to maintain or improve the quality of the natural and man-made environment. The application site is located within District 9, and relates to a 170-acre property generally located within Miami Metrozoo and the Gold Coast Railroad Museum. The proposed CDMP amendment is expected to have a countywide impact.

FISCAL IMPACT

Fiscal impact refers to the cost to the County of implementing the activities or actions that would be incurred after approval of the amendment Application, as per Ordinance 01-163. The costs associated with the development of the project, including public infrastructure improvements,

construction costs and operation of the facilities, will be borne by private sector partners that will be selected through a competitive request for proposal (RFP) process. The proposed development includes the construction of a water park, a family entertainment center, and a hotel, as well as improvements to the site of the Gold Coast Railroad Museum. Except for signage and improvements to roads and parking areas within the Metrozoo property [which will be funded through the General Obligation Bonds (GOB) for Miami Metrozoo], Miami-Dade County will not use Park and Recreation funds or other County funds for the proposed development. Below are the most current estimates of public infrastructure and operational costs resulting from the proposed development that will be borne by the private developer selected as a result of the RFP process:

- Water impact fee: \$151,257
- Sewer impact fee: \$609,382
- Annual operating and maintenance costs for water and sewer: \$87,397
- Total construction cost for water and sewer infrastructure: \$1,916,171 (*Includes a 16-inch water main and two 10-inch water meters; a lift station and installation of a 12-inch sanitary sewer force main and a pump station for Metrozoo's private sewer system.*)
- Water conservation improvements (Cost to be determined)
- On-site stormwater retention system and stormwater utility fee (Cost to be determined)
- All required permit fees associated with the development from DERM, WASD, etc.

TRACK RECORD/MONITOR

CDMP Amendments do not involve contracts; therefore, information on Track Record/Monitoring is not applicable.

BACKGROUND

The Miami Metrozoo CDMP amendment application requests the creation of a new CDMP Land Use Plan (LUP) map category, identified as the "Miami Metrozoo Entertainment Area," with text establishing development standards for allowable land uses, including intensities and percentages of use. The Application proposes to change the land use designation on 170 acres of land within the existing Metrozoo and Gold Coast Railroad Museum properties from "Parks and Recreation" to "Miami Metrozoo Entertainment Area" on the adopted 2015-2025 Land Use Plan map. Approximately 52 acres would be "new" land added to the Miami Metrozoo DRI.

The attached ordinance provides for final action on the proposed CDMP application requesting text and map amendments to the CDMP. The BCC's previous action on the proposed Miami Metrozoo CDMP amendment application was to "Adopt with Change and Transmit with Staff's Recommendation, as revised on July 3, 2007."

The DCA coordinated the State agency consistency review on the transmitted CDMP application at the request of Miami-Dade County. In its Objections, Recommendations and Comments (ORC) report, dated October 12, 2007, the DCA issued two objections to the Metrozoo CDMP amendment application. The first DCA objection called for Miami-Dade County to add intensity standards and percentages of use to the proposed "Miami Metrozoo Entertainment Area" CDMP land use category. In response, intensity standards were added allowing a maximum floor area ratio (F.A.R.) of 0.30 for the water theme park and the Gold Coast Railroad Museum and an F.A.R. of 0.40 for the family entertainment center and hotels. The percentages for the allowable mix of uses were also included in the proposed land use category (60 to 99 percent for attractions and recreation and 1 to 40 percent for hotels and other lodgings).

The second objection in the DCA ORC called for Miami-Dade County to coordinate with the Florida Department of Transportation (FDOT) in addressing traffic congestion at intersection of SW 152 Street and SW 117 Avenue. The County, FDOT, and the Florida Turnpike Enterprise (FTE) were able to reach an agreement and the County, as well as FTE, committed to various improvements to facilitate traffic flow at the intersection, including a free-flow right turn lane onto SW 152nd and a continuous right turn lane from the southbound exit ramp of the HEFT. These improvements will be incorporated into existing funded projects, including the County's SW 117 Avenue widening project and the FTE's HEFT widening project on SW 117 Avenue. As such, no additional funding will be required to implement the proposed improvements.

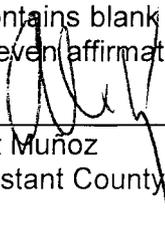

In addition to the DCA ORC objections, the following provides a summary of other key issues related to the application. First, although the project originally called for non-potable water to be used for the water park pool, the Miami-Dade Water and Sewer Department (MDWASD) has required the water park to utilize potable water due to possible public health concerns, and determined that there is sufficient capacity to meet the project's potable water demand. Second, MDWASD has required the proposed development to incorporate various water conservation and reuse practices. This includes treating and injecting the water from the water park pool into the zoo's moat at the end of each season in order to recharge the aquifer, using reclaimed water for irrigation where feasible, and integrating water conservation into the design of all the proposed facilities. Third, Miami-Dade County was required to execute an Agreement in Principal (AIP) with the U.S. Department of the Army regarding the modifications and transfer of federal deed restrictions necessary to develop the proposed Miami-Metrozoo Entertainment Area. On September 19, 2007 the AIP was executed; however no development will be permitted until the deed related actions outlined in the AIP are complete. All of the items discussed above are part of the development order conditions for the proposed changes to the Miami-Metrozoo DRI, including requirements to protect the Natural Forest Communities (NFCs) and the historical/archeological resources located within the amendment site.

Attached you will find the "Revised Recommendation, Miami Metrozoo DRI Application to Amend the Comprehensive Development Master Plan," report dated April 25, 2008 prepared by DP&Z staff and revised May 5, 2008. That report summarizes the pending Miami Metrozoo CDMP application as transmitted to DCA, presents the DP&Z's revised recommendation and principal reasons for the revised recommendation, and includes the ORC report and DP&Z's response to the ORC.

The Planning Advisory Board acting as the Local Planning Agency (LPA) conducted its final public hearing on the pending CDMP application on May 5, 2008, and recommended that the proposed Miami Metrozoo CDMP application be "Adopted as Transmitted with Additional Changes." The PAB's recommendation is contained in the attached PAB resolution and meeting minutes, both dated May 5, 2008.

Ordinance Format

The ordinance follows the same format used for other CDMP amendment applications. That is, it contains blank spaces to record your action on the requested CDMP amendment. A minimum of seven affirmative votes is required by County Code to amend the CDMP.
