CLERK OF THE BOARD
OF COUNTY COMMISSIONERS
MIAMI-DADE COUNTY, FLORIDA**

Memorandum 

Date: October 7, 2008

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Right-of-Way Closing P-864
Section: 17-52-40

A Right-of-Way Located in the City of Hialeah and Extending from NW 107 Avenue East
for Approximately 1,320 feet
Commission District: 12

Agenda Item No. 5(E)

Recommendation

It is recommended that the Board of County Commissioners (BCC) set a public hearing to close the subject right-of-way. The Miami-Dade County Public Works Department (PWD) has no objection to closing the subject right-of-way.

Scope

The subject road right-of-way is located within Commission District 12.

Fiscal Impact/Funding Source

There is no fiscal impact to the County associated with this item.

Track Record/Monitor

Not Applicable.

Background

The Director of the PWD, pursuant to the functions, powers and duties prescribed in Article XIV, Sec. 2-100 (a), (b) and (c) of the Code of Miami-Dade County Volume I, has taken the initiative to request that the BCC grant the closing of the subject road right-of-way.

The subject right-of-way, located within the City of Hialeah and extending from NW 107 Avenue East for approximately 1,320 feet, was dedicated in 1939 by a right-of-way deed recorded in Deed Book 2222, Page 510, of the Public Records of Miami-Dade County, Florida. The area surrounding said right-of-way is zoned AG (Agricultural).

The right-of-way being closed has never been improved or maintained by Miami-Dade County, therefore, this action will not adversely impact traffic flow or traffic continuity in the area.

Miami-Dade County owns, in fee simple, the land adjacent to the south of the subject right-of-way; the proposal is to merge said property with the right-of-way being closed in order to allow the City of Hialeah to build a Reverse Osmosis Plant within the combined sites. The right-of-way being closed contains a reverter clause which will cause the land to revert to FDG Beacon Countyline, LLC (FDG) the owner of the property adjacent to the north of the subject road closing. FDG has agreed to provide the County a Quit Claim Deed in order for Miami-Dade County to retain the ownership of the subject property after the right-of-way closing.

On July 26, 2007, the BCC approved Resolution R-918-07, authorizing execution of a Joint Participation Agreement (JPA) with the City of Hialeah (City) for the construction of a 17.5 million gallons per day (mgd) Reverse Osmosis Water Treatment Plant to serve future water supply needs in the City's annexation area and the Miami-Dade Water and Sewer Department's (MDWASD) service area, including future needs of wholesale customers. The project is part of the alternative water supply plan submitted to the South Florida Water Management District (District) and has already been included in the Capital Improvements Element of the Comprehensive Development Master Plan (CDMP). The JPA specifies that the City and the County will be equal partners in funding the project, and that the City is responsible for the planning, design and construction of the Reverse Osmosis Water Treatment Plant. The County will participate in the selection of a design/build/operate contractor and will review and approve the contract for these services that will be entered into by the City and the contractor.

It is therefore recommended, as being in the best interest of the County that the BCC approve the subject road right-of-way closing which will result in substantial benefits for Miami-Dade County.
