**Date:** October 7, 2008

**To:** Honorable Chairman Bruno A. Barreiro and Members,  
Board of County Commissioners

**From:** George M. Burgess  
County Manager

A handwritten signature in black ink, appearing to read "G. Burgess", written over the printed name of the sender.

Agenda Item No. 5(N)

**OFFICIAL FILE COPY  
CLERK OF THE BOARD  
OF COUNTY COMMISSIONERS  
MIAMI-DADE COUNTY, FLORIDA**

**Subject:** Class IV Permit Application by Doranda, LLC, to Impact 16.94 Acres of Wetlands to Construct a Mixed Use Development

---

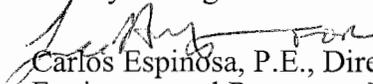

Attached, please find for your consideration an application by Doranda, LLC, for a Class IV Permit. Also attached is the recommendation of the Director of the Department of Environmental Resources Management and a Resolution seeking the Board's approval of the aforesaid Class IV Permit.

A handwritten signature in black ink, appearing to read "A. Kelly", written above a horizontal line.

Assistant County Manager

**Date:** October 7, 2008

**To:** George M. Burgess  
County Manager

**From:**   
Carlos Espinosa, P.E., Director  
Environmental Resources Management

**Subject:** Class IV Permit Application by Doranda, LLC, to Impact 16.94 Acres of Wetlands to Construct a Mixed Use Development

---

## **Recommendation**

I have reviewed the application for a Class IV Permit by Doranda, LLC. Based upon the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County, I recommend that the Board of County Commissioners approve the issuance of a Class IV Permit for the reasons set forth below.

## **Scope**

The subject property is located along the north side of NW 58 Street and along the west side of NW 104 Avenue, in County Commission District 12 (Commissioner Diaz).

## **Fiscal Impact/Funding Source**

Not applicable.

## **Track Record/Monitor**

Not applicable.

## **Background**

The subject Class IV Permit application involves the proposed dredging and filling of 16.94 acres of wetlands not supporting halophytic (coastal wetlands) vegetation to construct a mixed-use development along the north side of NW 58 Street and along the west side of NW 104 Avenue in Miami-Dade County. Chapter 24-48 of the Code of Miami-Dade County, which regulates the permitting of environmental resources, requires Board approval for the issuance of Class IV Permits to dredge and fill more than 15 acres of wetlands. The issuance of this approval does not relieve the applicants from obtaining all applicable federal, state and local permits.

The project site is adjacent to residential and mixed-use developments and within the Urban Development Boundary. Wetlands that will be impacted within the project site are characterized as wetland prairie with low to moderate densities of *Melaleuca*, an invasive exotic plant species. Compensatory mitigation for the ecological impacts related to the removal of wetland plant communities will be accomplished by providing mitigation funds in the amount of \$1,039,250 to Everglades National Park for the purpose of restoring 22.6 acres of wetlands within the Hole-in-the-Donut Regional Off-Site Mitigation Area owned and managed by the Department of the Interior through Everglades National Park. The Hole-in-the-Donut project enhances property in Everglades National Park by removing exotic vegetation, restoring filled areas to natural wetland grade, and allowing the area to revegetate with native wetland plant species.

The proposed project has been designed in accordance with all relevant Miami-Dade County Class IV Permit criteria and is consistent with all other Miami-Dade County wetland protection provisions. Please find attached a Project Report from the Department of Environmental Resources Management (DERM) Wetland Resources Section, which sets forth in more detail the reasons this project is recommended for approval by DERM pursuant to the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County, Florida. The conditions, limitations, and restrictions set forth in the Project Report attached hereto are incorporated herein by reference hereto.

NOTICE OF PUBLIC HEARING ON AN APPLICATION BY  
DORANDA, LLC, FOR A CLASS IV PERMIT TO IMPACT  
16.94 ACRES OF WETLANDS TO CONSTRUCT A MIXED  
USE DEVELOPMENT ALONG THE NORTH SIDE OF NW  
58 STREET AND ALONG THE WEST SIDE OF NW 104  
AVENUE IN SECTION 17, TOWNSHIP 53 SOUTH, RANGE  
40 EAST, MIAMI-DADE COUNTY, FLORIDA

BOARD OF COUNTY COMMISSIONERS  
MIAMI-DADE COUNTY, FLORIDA

**NOTICE IS HEREBY GIVEN** pursuant to Article IV, Division 1 of Chapter 24 of the Code of Miami-Dade County that the Board of County Commissioners of Miami-Dade County will hold and conduct a Public Hearing on a request by Doranda, LLC, for a Class IV Permit to impact 16.94 acres of wetlands to construct a mixed use development. Such Public Hearing will be held on the 7<sup>th</sup> day of October 2008 at 9:30 AM at the County Commission Chambers on the 2nd Floor of the Stephen P. Clark Center at 111 NW 1 Street in Miami, Florida.

Plans and details concerning the work requested in the application may be reviewed by interested persons at the office of the Miami-Dade County Department of Environmental Resources Management, 701 NW 1<sup>st</sup> Court, Suite 400, Miami, Florida, 33136-3912.

Oral statements will be heard and appropriate records made. For accuracy of records, all important facts and arguments should be prepared in writing in triplicate, with two copies being submitted to the Deputy Clerk of the County Commission at the hearing

or mailed to her beforehand (Kay Sullivan, Deputy Clerk), 111 NW 1st Street, Stephen P. Clark Center, Suite 17-202, Miami, Florida 33128; and with one copy being submitted beforehand to the Miami-Dade County Department of Environmental Resources Management, 701 NW 1<sup>st</sup> Court, Suite 400, Miami, Florida 33136.

A person who decides to appeal any decision made by any Board, Agency, or Commission with respect to any matter considered at its meeting or hearing, will need a record of proceedings. Such person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based.

BOARD OF COUNTY COMMISSIONERS  
MIAMI-DADE COUNTY, FLORIDA

HARVEY RUVIN, CLERK

# MEMORANDUM

(Revised)

---

**TO:** Honorable Bruno A. Barreiro  
and Members, Board of County Commissioners

**DATE:** October 7, 2008

**FROM:**   
R. A. Cuevas, Jr.  
County Attorney

**SUBJECT:** Agenda Item No. 5(N)

---

Please note any items checked.

- "4-Day Rule" ("3-Day Rule" for committees) applicable if raised
- 6 weeks required between first reading and public hearing
- 4 weeks notification to municipal officials required prior to public hearing
- Decreases revenues or increases expenditures without balancing budget
- Budget required
- Statement of fiscal impact required
- Bid waiver requiring County Manager's written recommendation
- Ordinance creating a new board requires detailed County Manager's report for public hearing
- Housekeeping item (no policy decision required)
- No committee review

Approved \_\_\_\_\_ Mayor  
Veto \_\_\_\_\_  
Override \_\_\_\_\_

Agenda Item No. 5 (N)  
10-7-08

RESOLUTION NO. R-999-08

RESOLUTION RELATING TO AN APPLICATION BY DORANDA, LLC, FOR A CLASS IV PERMIT TO IMPACT 16.94 ACRES OF WETLANDS TO CONSTRUCT A MIXED USE DEVELOPMENT ALONG THE NORTH SIDE OF NW 58 STREET AND ALONG THE WEST SIDE OF NW 104 AVENUE IN SECTION 17, TOWNSHIP 53 SOUTH, RANGE 40 EAST, MIAMI-DADE COUNTY, FLORIDA

**WHEREAS**, this Board desires to accomplish the purposes outlined in the accompanying memorandum, a copy of which is incorporated herein by reference,

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA**, that this Board having considered all the applicable factors contained within Section 24-48.3 of the Code of Miami-Dade County hereby approves the application by Doranda, LLC, for a Class IV Permit to impact 16.94 acres of wetlands to construct a mixed use development, subject to the conditions set forth in the memorandum from the Director of the Miami-Dade County Department of Environmental Resources Management, a copy of which is attached hereto and made a part hereof. The issuance of this approval does not relieve the applicants from obtaining all applicable Federal, State, and local permits.

7

The foregoing resolution was offered by Commissioner **Jose "Pepe" Diaz**, who moved its adoption. The motion was seconded by Commissioner **Rebeca Sosa** and upon being put to a vote, the vote was as follows:

	Bruno A. Barreiro, Chairman	<b>aye</b>	
	Barbara J. Jordan, Vice-Chairwoman	<b>aye</b>	
Jose "Pepe" Diaz	<b>aye</b>	Audrey M. Edmonson	<b>aye</b>
Carlos A. Gimenez	<b>aye</b>	Sally A. Heyman	<b>aye</b>
Joe A. Martinez	<b>aye</b>	Dennis C. Moss	<b>aye</b>
Dorrin D. Rolle	<b>aye</b>	Natacha Seijas	<b>aye</b>
Katy Sorenson	<b>aye</b>	Rebeca Sosa	<b>aye</b>
Sen. Javier D. Souto	<b>aye</b>		

The Chairperson thereupon declared the resolution duly passed and adopted this 7<sup>th</sup> day of October, 2008. This resolution shall become effective ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, shall become effective only upon an override by this Board.

MIAMI-DADE COUNTY, FLORIDA  
BY ITS BOARD OF  
COUNTY COMMISSIONERS

HARVEY RUVIN, CLERK

By: **Kay Sullivan**  
Deputy Clerk

Approved by County Attorney as  
to form and legal sufficiency.

## Permit Applicant/ Authorized Agent Statement

September 26, 2008

Miami-Dade County DERM  
Wetland Resources Section  
701 N.W. 1<sup>st</sup> Court  
Miami, Florida 33136

**RE: Class IV Standard Form Permit Application Number FW 07-053, Doranda, LLC, for the dredging and filling of 16.94 acres of wetlands for the construction of a mixed use development in Section 17, Township 53S, Range 40E.**

By the attached Class IV Standard Form permit application with supporting documents, I, Mr. Rainer W. Schael, am the permit applicant (applicant's authorized agent) and hereby request permission to perform the following: Class IV Standard Form Permit Application Number FW 07-053, Doranda, LLC, for the dredging and filling of 16.94 acres of wetlands for the construction of a mixed use development in Section 17, Township 53S, Range 40E. I understand that a Miami-Dade County Class IV Standard Form Permit is required to perform this work.

If approval is granted for the proposed work by the Board of County Commissioners, complete and detailed plans and calculations of the proposed work shall be prepared by an engineer registered/licensed in the State of Florida in accordance with the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida. Said plans and calculations shall be subject to the review and approval of the Department of Environmental Resource Management. The permit applicant will secure the services of an engineer registered in the State of Florida to conduct inspections throughout the construction period, and said engineer shall prepare all required drawings of record.

Respectfully submitted,

Mr. Rainer W. Schael, President, RS Environmental Consulting, Inc.  
Authorized Agent

# FORD ENGINEERS, INC.

## ENGINEER LETTER OF CERTIFICATION

January 2, 2008

Miami-Dade County DERM  
Wetland Resources Section  
701 NW 1<sup>st</sup> Court  
6<sup>th</sup> Floor  
Miami, Florida 33136

RECEIVED  
JAN 11 2008

DERM  
Environmental Resources Regulation Division

**RE: Class IV Standard Form Permit Application Number FW 07-053, Doranda, LLC, for the dredging and filling of 16.94 acres of wetlands for the construction of a mixed use development in Section 17, Township 53S, Range 40E.**

Ladies and Gentlemen:

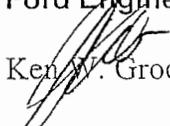

This letter will certify that I am an engineer registered/licensed in the State of Florida, qualified by education and experience in the area of construction, and that to the best of my knowledge and belief, the proposed work does not violate any laws of the State of Florida or any provision of the Code of Miami Dade County which may be applicable, that diligence and recognized standard practices of the engineering profession have been exercised in the engineer's design process for the proposed work, and in my opinion based upon my knowledge and belief, the following will not occur:

- a. Harmful obstruction or undesirable alteration of the natural flow of the water within the area of the proposed work.
- b. Harmful or increased erosion, shoaling of channels or stagnant areas of water. (Not applicable to class IV permits)
- c. Material injury to adjacent property.
- d. Adverse environmental impacts from changes in water quality or quantity. (Applicable to class IV permits only)

Further, I have been retained by the applicant to provide inspections throughout the construction period and prepare a set of reproducible record prints of drawings showing changes made during the construction process based upon the marked-up prints, drawings, and other data furnished by the contractor to me.

Sincerely,

Ford Engineers, Inc.

  
Ken W. Groce P.E. FL #35944

Planning and Zoning  
Department

Mr. Ernesto Peralta  
1441 Brickell Avenue, Suite 1400  
Miami, FL 33131

**RE:** Class IV Standard Form Permit Application Number FW 07-053,  
Doranda, LLC, for the dredging and filling of 16.94 acres of wetlands  
for the construction of a mixed use development in Section 17,  
Township 53S, Range 40E.

Dear Mr. Peralta:

The proposed usage of the property upon which the proposed work would  
occur does not violate any zoning law applicable to the area of the proposed  
work.

Should you have any questions, please call our office.

Sincerely,

Nathan Kogon, AICP  
Planning and Zoning Director

RECEIVED

DERM  
Environmental Resources Regulation Division

# Memorandum

Date: August 7, 2008

To: Lazaro J. Quintino, ERPS  
Wetlands Resources Section

From: Rogelio Mata, Engineer II  
Water Control Section *RM*

Subject: Doranda at Doral (Folio Nos. 30-3017-001-0430, 0431)  
Tracts 41, 42, 43 & 44 of Florida Fruit Land Company  
Section 17-53-40

---

The Water Control Section has reviewed the paving and drainage plans for the above referenced permit application and offers the following comments:

- 1) The proposed work will not result in adverse environmental impacts to water quality or water quantity.
- 2) An Individual Environmental Resource Permit issued by the South Florida Water Management District, and a Class II permit issued by the Department of Environmental Resources Management must be obtained before construction of the proposed surface water management system, or final plat approval.
- 3) A Cut and Fill Permit No. CF-428 for the subject property is in effect.

If you should have any questions, please advise.

United States Department of the Interior  
NATIONAL PARK SERVICE

Everglades and Dry Tortugas National Parks  
40001 State Road 9336  
Homestead, Florida 33034

IN REPLY REFER TO:  
HID 2008-003

Mr. Armando Perez-Aleman  
Doranda, LLC  
1441 Brickell Avenue, Suite 1400  
Miami, FL, 33131

Dear Mr. Perez-Aleman:

As the manager of the Hole-in-the-Donut Wetland Restoration and Mitigation Banking Program at Everglades National Park, it is my intent to provide 22.6 acres of freshwater herbaceous wetland restoration for mitigation for the Doranda at Doral project, with permit application numbers and property information as follows:

Permit/Application Numbers

DERM: 2007-CLIV-PER-00053 SFWMD: 0700404-2 Corps:

Property Information

Folio	S	T	R	Location
35-3017-001-0431	17	53	40	West of NW 104th Avenue and North of NW 58th Street
35-3017-001-0430	0	0	0	

The cost for each restored acre will be \$45,984.52, for a total of \$1,039,250.15, payable to the National Park Foundation, 1201 I Street NW #550B, Washington, DC 20005. The Foundation currently adds a \$100.00 transaction fee to the cost listed above. If the aforementioned restoration credits are not purchased within one year of the date of this reservation, the offer to sell is withdrawn and the reserved credits will be released for sale to other buyers.

The Hole-in-the-Donut Wetland Resources Mitigation Bank operates according to permits issued by the Florida Department of Environmental Protection (permit #132416479) and the U.S. Army Corps of Engineers (permit #1993-01691), both of which expire on February 15, 2015. Thank you for supporting the Hole-in-the-Donut wetland restoration project. If the Hole-in-the-Donut Wetland Resources Mitigation Bank can be of assistance to you as a source of wetland mitigation credits in the future, please contact me.

Sincerely,

Craig S. Smith  
Restoration Project Manager

# HOLE-IN-THE-DONUT MITIGATION CREDIT PAYMENT FORM

Project Report

PROJECT REPORT

CLASS IV PERMIT APPLICATION NO. FW 07-053

Doranda, LLC

June 27, 2008

Staff's recommendation of approval for the above-referenced project is based upon the applicable evaluation factors set forth in Section 24-48.3, Code of Miami-Dade County. The following is a summary evaluation of the proposed project with respect to each applicable evaluation factor:

1. Potential Adverse Environmental Impact – The proposed project will result in an adverse environmental impact to 16.94 acres of wetlands. However, the mitigation, as set forth in Number 14 below, will compensate for the loss of wetland values associated with the proposed project.
2. Potential Cumulative Adverse Environmental Impact – The proposed project will result in minimal cumulative adverse environmental impacts. However, the mitigation, as set forth in Number 14 below, will compensate for the loss of wetland values associated with the proposed project within the subject property.
3. Hydrology - The proposed project, as designed, is not reasonably expected to adversely affect surface water drainage or retention of storm water.
4. Water Quality – The proposed project, as designed, is not reasonably expected to adversely affect applicable DERM water quality standards.
5. Well Fields – The proposed project is not within a well field protection area.
6. Water Supply – The proposed project is not reasonably expected to adversely affect the water supply.
7. Aquifer Recharge – The proposed project is not reasonably expected to adversely affect aquifer recharge.
8. Aesthetics - The proposed project is designed to be aesthetically compatible with the surrounding area.
9. Navigation – Not applicable.
10. Public Health - The proposed project is not reasonably expected to adversely affect the public health.
11. Historic Values – The proposed project is not reasonably expected to adversely affect historic values.
12. Archaeological Values – There is no known archaeological site located within the boundaries of this application.
13. Air Quality – The proposed project is not reasonably expected to adversely affect air quality.

14. Marine and Wildlife Habitats - The proposed project will result in the dredging and filling of 16.94 acres of wetlands. The wetlands that will be impacted within the project site are characterized as wetland prairie with low to moderate densities of *Melaleuca*, an invasive exotic plant species. Compensatory mitigation for the ecological impacts related to the removal of wetland plant communities will be accomplished by providing mitigation funds in the amount of \$1,039,250.15 to Everglades National Park for the purpose of restoring 22.6 acres of wetlands within the Hole-in-the-Donut Regional Off-Site Mitigation Area owned and managed by the Department of the Interior through Everglades National Park. The Hole-in-the-Donut project has restored approximately 3,000 acres of invasive exotic plant species dominated wetlands by removing exotic vegetation, restoring filled areas to natural wetland grade, and allowing the area to revegetate with native wetland plant species.
15. Wetland Soils Suitable for Habitat - The proposed project will result in the permanent removal of wetland soils. However, the mitigation, as set forth in Number 14, will result in the enhancement of existing wetland habitat and soils by restoring appropriate wetland elevations and removing exotics, thereby promoting re-vegetation with native wetland plant species and soil-vegetative interactions.
16. Floral Values - The proposed project will impact wetlands. However, the mitigation, as set forth in Number 14 above, will provide for the off-site restoration of wetlands and the establishment of native wetland plant communities.
17. Faunal Values - The proposed project will disturb native wildlife habitat. However, the mitigation, as set forth in Number 14 above, will provide for high quality habitat for native fauna.
18. Rare, Threatened and/or Endangered Species - The proposed project is not reasonably expected to result in adverse impacts to rare, threatened or endangered species.
19. Natural Flood Damage Protection - The water management features of the project have been reviewed by DERM's Water Control Section and are in compliance with DERM's cut and fill criteria for development in this area. (see attachment D).
20. Wetland Values - The proposed project will result in the dredging and filling of 16.94 acres of jurisdictional wetlands. However, the mitigation, as set forth in Number 14 above, will compensate for the loss of wetland values associated with the proposed project.
21. Land Use Classification - The City of Doral Planning and Zoning Department has determined the proposed work does not violate any zoning law applicable to the area of the proposed work. (See Attachment D)

22. Recreation – There are no recreation aspects that will be affected by the proposed project.
23. Other Environmental Values Affecting the Public Interest – There are no other known environmental factors that will affect the public interest.
24. Standard Construction Procedures and Practices and Design and Performance Standards - The proposed project complies with the standard construction procedures and practices and design and performance standards of the applicable portions of the following:
  - a. Miami-Dade County Public Works Manual
  - b. Biscayne Bay Management Plan (Section 33D-1 through 33-D-4)
  - c. Chapter 33B of the Code of Miami-Dade County
25. Comprehensive Environmental Impact Statement (CEIS) - In the opinion of the Director, the proposed mitigation plan will compensate for the loss of wetland values associated with the proposed project. As such, a CEIS was not required by DERM to evaluate the proposed project.
26. Conformance with All Applicable Federal and State Laws and Regulations – The proposed project is in conformance with the following applicable State, Federal and local laws and regulations:
  - a) United States Clean Water Act (US Army Corps of Engineers and US Environmental Protection Agency)
  - b) Federal Endangered Species Act (US Fish & Wildlife Service)
  - c) Florida Department of Environmental Protection Regulations
  - c) Chapter 24 of the Code of Miami-Dade County
  - d) Rules of the South Florida Water Management District
  - e) Basis of Review for Surface Water Management Permit Applications Within the South Florida Water Management District
27. Conformance with the Miami-Dade County Comprehensive Development Master Plan (CDMP) – In the opinion of DERM, the proposed land use is consistent with the CDMP. Specifically, the proposed project complies with the following CDMP Elements and Policies:

LAND USE ELEMENT:

Objective 1 – Growth management - The proposed project is generally consistent with the goals, objectives and policies contained in the Conservation, Aquifer Recharge and Drainage Element.

Objective 3/Policies 3B, 3C - Protection of natural resources and systems. - The proposed project is consistent with all applicable environmental regulations, as well as all other elements of the CDMP. The proposed project is compatible with surrounding land uses and does not involve development in the Big Cypress Area of Critical State Concern or the East Everglades.

CONSERVATION, AQUIFER RECHARGE AND DRAINAGE ELEMENT:

Objective 2/Policy 2A – Protection of ground and surface water resources – The proposed project adheres to all relevant storm water management criteria.

Objective 3/Policies 3A, 3B, 3D - Well field protection area protection. - The project is not within a well field protection area.

Objective 3/Policy 3E - Limestone mining within the area bounded by the Florida Turnpike, the Miami-Dade/Broward Levee, N.W. 12 Street and Okeechobee Road. - The proposed project is not located within the above area.

Objective 4/Policies 4A, 4B, 4C - Water storage, aquifer recharge potential and maintenance of natural surface water drainage. - The proposed project is not reasonably expected to adversely affect water storage, aquifer recharge potential, or natural surface water drainage.

Objective 5/Policies 5A, 5B, 5F - Flood protection and cut and fill criteria - The water management features of the proposed project have been reviewed by DERM's Water Control Section and are in compliance with DERM's cut and fill criteria for development in this area.

Objective 6/Policy 6A - Areas of highest suitability for mineral extraction. - The proposed project is not located in an area proposed or suitable for mineral extraction.

Objective 6/Policy 6B - Guidelines for rock quarries for the re-establishment of native flora and fauna. – Not applicable.

Objective 6/Policy 6D - Suitable fill material for the support of development. – The proposed project will not cause premature urban encroachment. The proposed project must use suitable fill material in order to meet the requirements of Chapter 24 of the Code of Miami-Dade County.

Objective 7/Policy 7A - No net loss of high quality, relatively unstressed wetlands. – The wetlands associated with this project are surrounded by development and no longer hydrologically connected to other wetlands as well as having a light to moderate infestation of *Melaleuca*, an invasive exotic plant species. The loss of wetland values associated with the proposed project will be mitigated as set forth in Number 14 above.

Objective 9/Policies 9A, 9B, 9C - Protection of habitat critical to Federal or State-designated threatened or endangered species. - The proposed project is not expected to affect any rare, threatened, or endangered species.

28. Conformance with Chapter 33B, Code of Miami-Dade County (East Everglades Zoning Overlay Ordinance) – The proposed project is not within the East Everglades Zoning overlay area.
29. Conformance with Miami-Dade County Ordinance 81-19 (Biscayne Bay Management Plan) – The proposed project is not within the area of the Biscayne Bay Management Plan.
30. Conformance with Manatee Protection Plan – Not applicable.
31. Consistency with Miami-Dade County Criteria for Lake Excavation – Not applicable.
32. Municipality Recommendation - The City of Doral Planning and Zoning Department has determined the proposed work does not violate any zoning law applicable to the area of the proposed work. (See Attachment D)
33. Coastal Resources Management Line – Not Applicable.
34. Maximum Protection of a Wetland’s Hydrological and Biological Functions Through Adherence to the Following Fill Limitations: -
  - i) Placement of the minimum fill necessary to provide for the land usage alternative which results in the least adverse environmental impact and the least cumulative adverse environmental impact – The proposed project uses the minimum amount of fill necessary to provide for the proposed land usage alternative.
  - ii) Placement of temporary fill pads and fill roads for the purpose of conducting rock mining. - Not applicable.

The proposed project was also evaluated for compliance with the minimum required standards contained in Section 24-48.3 (2), (3), and (4) of the Code of Miami-Dade County. The following is a summary of the proposed project’s compliance with said standards:

24-48.3 (2) Dredging and/or Filling for Class I Permit – Not applicable.

24-48.3 (3) Docks and Piers for Mooring Purposes - Not applicable.

24-48.3 (4) Clean Fill in Wetlands - The proposed project involves the placement of clean fill material only.

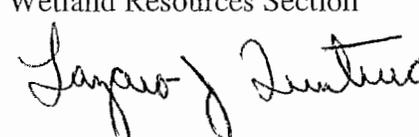

24-48.3 (6) Basin B Fill Criteria - The proposed project complies with criteria for the total volume of fill material placed on a project. Specifically, the applicants have provided calculations showing engineering alternatives to the standard formula that provide for the full on-site retention of storm water without exceeding established stages for the 100-year, three-day storm. Additionally the side slopes of the storm water management areas comply with the 4:1 slope criteria.

SUMMARY

BASED ON THE FOREGOING, IT IS RECOMMENDED THAT A CLASS IV PERMIT BE APPROVED.
