

MEMORANDUM

DATE: November 20, 2008

TO: Honorable Chairman Bruno A. Barreiro
and Members, Board of County
Commissioners

FROM: 
George M. Burgess
County Manager

Agenda Item No. 8(R)(1)(C)

Resolution No. R-1224-08

SUBJECT: Contract Award Recommendation for John E. Preston Water Treatment Plant Drinking Water Quality Laboratory - Project No: N/A; Contract No: W-888R, to Miami Skyline Construction Corp in the amount of \$2,164,106.25

RECOMMENDATION

This recommendation for award for construction Contract Number W-888R between Miami Skyline Construction Corp. and Miami-Dade County in the amount of \$2,164,106.25 has been prepared by the Miami-Dade Water and Sewer Department (WASD) and is recommended for approval. Under this construction contract a new two level laboratory building will be constructed at the John E. Preston Water Treatment Plant. The new laboratory will meet the United States Environmental Protection Agency's (USEPA) "Linear Square Feet Space" requirement which recommends that each analyst in the laboratory have 15 square feet of usable bench laboratory space.

The new laboratory will also meet National Environment Laboratory Accreditation Conference (NELAC) standards for lime (used in the water treatment process) storage. As the lime is fed into the plant's water treatment process, excessive mechanical vibrations are produced which disrupt the operation of sensitive instruments being used by the analysts. And the new heating, ventilation and air-conditioning system in the building (including the laboratory) will meet Occupational Health and Safety Administration (OSHA) standards.

DELEGATION OF AUTHORITY: The authority of the County Mayor or County Mayor's designee to execute and implement this contract is consistent with those authorities granted under the Code of Miami-Dade County.

SBD HISTORY OF VIOLATIONS: Yes- Report attached. The company appears in the report with one closed violation.

EXPLANATION: This project was originally bid on July 23, 2007 with an estimate of \$2,800,000, under Contract No. W-888 as a Set-Aside for Community Small Business Enterprise (CSBE) companies. WASD received only one bid in the amount of \$2,842,805.41. The contractor was requested to extend the bid bond to proceed with the award, but the company withdrew their bid after the expiration of their bid

bond. WASD re-submitted the project to the Review Committee under Contract No. W-888R, removing the Set-Aside condition and assigning a goal. The time which lapsed between the two bid dates and rapidly escalating costs (particularly fuel) served to increase the new estimate to \$3,000,000.

WASD received 12 bids for this project. Ten of the bidders were under the engineer's estimate. The low bidder, Miami Skyline Construction Corp. was 34.17 percent under the revised engineer's estimate of \$3 million and 29.46 percent under the original engineer's estimate of \$2.8 million. WASD believes that an increasingly difficult economy and competitive environment is driving contractors' prices down. Therefore, WASD's recommendation is to award to the low, responsive and responsible bidder, Miami Skyline Construction Corp.

The Office of Capital Improvements CIIS database contains four evaluations for Miami Skyline Construction Corp. averaging 2.3 out of a possible 4 points.

The new laboratory will meet the United States Environmental Protection Agency's (USEPA) "Linear Square Feet Space" requirement which recommends that each analyst in the laboratory have 15 square feet of usable bench laboratory space.

The new laboratory will also meet National Environment Laboratory Accreditation Conference (NELAC) standards for lime (used in the water treatment process) storage. Reasons for Recommendation

An analysis of the factors contained in Section VI.C of Administrative Order 3-22 indicate that a CSBE subcontractor goal is appropriate in the trades of painting, electrical, plumbing and HVAC.

This project is a resubmittal from September 27, 2006. This project was let for bid as a CSBE Level 2 Set-Aside in July, 2007. One bid was received. When WASD requested an extension of the Bid Bond from the bidder, the bidder declined. The estimated cost of this project has increased from \$2,000,000 to \$3,390,000.

Gap Analysis

Hernandez, Patricia M. (WASD)

From: Hernandez, Patricia M. (WASD)
Sent: Friday, June 27, 2008 8:26 AM
To: Arrazcaeta, Aleida (OCI)
Cc: Austin, Mara G. (WASD)
Subject: W-888R Construction of Water Quality Laboratory - Preston Plant

Aleida,

Good morning.

I will be submitting to OCI a contract award recommendation for the construction of a water quality laboratory building at the Preston Plant for placement on the September GOE agenda. There is a significant gap between WASD's estimate and the low bid. The bid is 40.6% under WASD's estimate.

I attached the Engineer's explanation below, please let me know if the explanation provided will suffice or if more detail is required before the recommendation is sent to OCI.

Thanks!

Engineer's Statement

Summary of Reasoning:

WASD only received one (1) responsive bid when WASD previously opened bid for the project on 7/23/07. At that time, the Engineer's Opinion of Probable Cost (EOPC) was \$2.8M and the single bid amount was \$2,842,805.41. The bid was rejected per performance bond reason and the project was re-advertised.

The EOPC was adjusted upwards to \$3.0M to account for the "skyrocketing" construction prices being experienced at that time. New bids were opened on 5/20/08. This time, twelve (12) responsive bids (as shown below) were received. The low bid was \$2,133,000 and the bids ranged from a low of \$2.13M to a high of \$3.15M with an average of \$2.57M. The increased number of bidders and the lower bid prices are indicative of the volatile local construction market and the overall benefit of lower prices to the owners.
