**Background**

**BACKGROUND:**

The Miami River is a valuable natural resource situated in the heart of Miami. For the past two (2) decades, numerous master plans have been produced to determine optimal uses for the river corridor. An Action Plan Report prepared for the Miami River Commission by the Trust for Public Land in April 2001 provided specific recommendations to provide accessibility to residents and visitors to recreational amenities that will make the river a destination landscape and preserve the natural and cultural heritage of the river for future generations to enjoy.

The recommendations from the Action Plan Report will be incorporated in the master plan prepared for this project. After approval of the master plan, final construction documents will be prepared.

**Date:** October 10, 2006

**To:** Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

**From:** George M. Burgess  
County Manager 

**Subject:** Resolution Authorizing the County Manager to Accelerate Three Projects in the *Building Better Communities (BBC)* Bond Program and to Amend the Series 2005 Project List as Required to Maintain Progress of Program

Agenda Item No. 12(A)(3)

R-1208-06

**RECOMMENDATION**

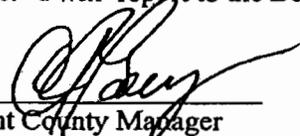

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution amending Resolution Number R-577-05 to add three projects to Exhibit "A" and to delegate to the County Manager the authority to amend Exhibit "A" in the future as required to maintain progress on the Building Better Communities (BBC) General Obligation Bond Program. This change will facilitate the timely delivery of BBC capital improvement projects.

**BACKGROUND**

On May 17, 2005 the Board approved 181 projects to be financed from the Building Better Communities Series 2005 Bonds detailed in Exhibit "A" to Resolution No. R-577-05. These projects differ greatly in complexity. While many are ready for implementation, others are still in the planning stage and not ready to receive bond funding. The Office of Capital Improvements has identified 21 projects totaling \$54 million that are ready to move to the next phase in their implementation (Attachment 1). For 18 of the 21 projects, a previous phase was included in Exhibit "A", however, three of the projects are not included on that list, although they are on the overall list of projects approved by the Board and voters in 2004 and are slated for funding by future bond sales. In addition to asking that the Board approve these three projects for funding from the first bond sale, I also seek the Board's concurrence in accelerating the other 18 projects to their next phase. Since some of the projects listed in Exhibit "A" are moving forward more quickly than others, the funding of these 21 projects can be accomplished without the need for a new bond sale at this time, but rather using existing funds from the initial bond sale.

The three new projects mentioned above are bikeways in County Commission District 10 (\$700,000), ~~the Miami River Greenway project in District 5 (\$765,000)~~, and Tamiami Park field improvements in District 11 (\$1,800,000). The 21 identified projects are representative of the various categories in the program, such as, parks, economic development, public safety, infrastructure, bikeways, and endangered lands. They are also sensitive to and represent each of our 13 County Commission districts. I want to assure the Board that this change will not remove funding from any Board approved BBC project. Furthermore, no project will be delayed by this action. Funds will be made available to keep up with each project's implementation schedule. As we plan for the sale of next series of bonds in late FY 06-07, funding will be provided for those projects that were initially approved for funding by Series 2005 bonds but are progressing slower.

I anticipate this scenario will re-occur as we continue to implement the Bond Program. Therefore, to facilitate delivery of projects to your constituents I am asking that the Board authorize me to amend the list of projects detailed in Exhibit "A" in the future as required to start projects that are ready to proceed and fund those that are progressing slower as part of subsequent bond series. If granted such authorization to amend the list of projects in Exhibit "A", I intend to instruct OCI to expedite the BBC affordable housing projects to help alleviate the current shortage. I will report to the Board no less than twice per year any such changes to Exhibit "A".

- (b) contracts for legal services;
- (c) contracts for financial advisory services;
- (d) auditing contracts;

Such payment shall be determined on the basis of the hours or the

percentage of the total work performed by the ENGINEER up to the time of termination. In the event partial payment has been made for professional services not performed, the ENGINEER shall return such sums to the COUNTY within ten (10) days after receipt of written notice that said sums are due. Upon termination, the COUNTY may, without penalty or other obligations to the ENGINEER, elect to employ others to perform the services.

Proposal and contract documents shall provide that, notwithstanding any other penalties for firms that have discriminated in violation of Article VII of Chapter 11A of the Code, the County may terminate the contract or require the termination or cancellation of the sub consultant contract. In addition, a violation by a respondent or sub consultant to the respondent, or failure to comply with the Administrative Order (A.O.) 3-39 may result in the imposition of one or more of the sanctions listed in the A.O.

**SECTION XX - DURATION OF AGREEMENT**

The Engineer shall pay all claims and losses in connection therewith and shall investigate and defend all claims, suits or actions of any kind or nature in the name of the County, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorney's fees which may issue thereon.

The ENGINEER expressly understands and agrees that any insurance protection required by this contract or otherwise provided by the ENGINEER shall in no way limit the responsibility to indemnify, keep, and save harmless the COUNTY or its officers, employees, agents, and instrumentalities as herein provided.

The ENGINEER agrees and recognizes that the COUNTY shall not be held liable or responsible for any claims which may result from any negligent reckless, or intentionally wrongful actions, errors or omissions of the ENGINEER in which the COUNTY participated either through review or concurrence of the ENGINEER's actions. In reviewing, approving or rejecting any submissions by the Contractor or other acts of the ENGINEER, the COUNTY in no way assumes or shares any responsibility or liability of the ENGINEER and other persons employed or utilized by the ENGINEER under this agreement.

The ENGINEER shall furnish certificates of insurance to the Risk Management Division, 111 N.W. First Street, Suite 2340, Miami, FL 33128-1987, prior to the commencement of operations, which certificates shall clearly indicate that the ENGINEER has obtained insurance in the type, amount, and classification as required for strict compliance with this Section and that no material change or cancellation of this insurance shall be effective without thirty (30) days prior written notice to the COUNTY.

Compliance with the foregoing requirements shall not relieve the ENGINEER of the liabilities and obligations under this Section or under any other portion of this Agreement, and the COUNTY shall have the right to inspect the original insurance policies in the event that submitted certificates of insurance are inadequate to ascertain compliance with required coverages.

#### **SECTION XXIII - CERTIFICATION OF WAGE RATES**

In accordance with Florida Statute 287.055,5(a) the ENGINEER hereby certifies and warrants that wage rates and other factual unit costs, as submitted in support of the compensation provided in Sections V and VI are accurate, complete and current as of the date of this Agreement. It is further agreed that said compensation shall be adjusted to exclude any significant costs

where the COUNTY shall determine that the price of services was increased due to inaccurate, incomplete or unclear wage rates or other factual unit costs. All such compensation adjustments shall be made within one (1) year from the date of final billing or acceptance of the work by the COUNTY, whichever is later.

#### **SECTION XXV - VALUE ANALYSIS**

County Administrative Order 3-26 (AO) establishes the threshold and guidelines for performing Value Analysis/Engineering

(VA/E) studies on Miami-Dade County construction contracts. The AO states that a formal VA/E study is not mandated for those projects whose construction cost estimate is below the Five Million Dollar (\$5,000,000.00) threshold. The AO further states that principles and objectives of a VA/E study may be utilized for such projects in an informal manner. Therefore, with respect to this requirement, VA/E review may be conducted on an informal basis by County staff or an independent consultant under contract to the County and supervised by the Project Manager. The ENGINEER shall participate in these reviews pursuant to this Agreement.

**SECTION XXVI - AFFIRMATIVE ACTION**

The ENGINEER's Affirmative Action Plan submitted pursuant to Ordinance 82-37, as approved by the Department of Business and Economic Development and any approved update thereof, are hereby incorporated as contractual obligations of the ENGINEER to Miami-Dade County thereunder. The Director may declare the ENGINEER in default of this agreement for failure of the ENGINEER to comply with the requirements of this paragraph.

The UR should indicate the amount of contract monies received and paid as a Prime consultant, including payments to subconsultant(s) (if applicable), from the County pursuant to the project. Authorized representatives of each listed subconsultant(s) shall sign the report, verifying their participation in the work contracted and receipt of the monies listed. The monthly reports are to be submitted to the Miami-Dade Department of Small Business Development, 111 N.W. 1<sup>st</sup> Avenue, 19<sup>th</sup> Floor, Miami, Florida, 33128, in the format attached hereto titled "Architecture & Engineering Utilization Report".

**SECTION XXVIII- PROMPT PAYMENT**

It is the policy of Miami-Dade County that payment for all purchases by County agencies and the Public Health Trust shall be made in a timely manner and that interest payments be made on late payments. In accordance with Florida Statutes, Section 218.74 and Section 2-8.1.4 of the Miami-Dade County Code, the time at which payment shall be due from the County or the Public Health Trust shall be forty-five (45) days from receipt of a proper invoice.

The time at which payment shall be due to small businesses and minority and women business enterprises shall be thirty (30) days from receipt of a proper invoice. All payments due from the County or the Public Health Trust, and not made within the time specified by this section, shall bear interest from thirty (30) days after the due date at the rate of one percent (1%) per month on the unpaid balance. Further, proceedings to resolve disputes for payment of obligations shall be concluded by final written decision of the County Manager, or his or her designee(s), not later than sixty (60) days after the date on which the proper invoice was received by the County or the Public Health Trust.
