RESOLUTION DECLARING THE MONTH OF APRIL 2009 AS  
WATER CONSERVATION MONTH IN MIAMI-DADE  
COUNTY

**WHEREAS**, clean and sustainable water resources are vital to Florida's environment, economy and quality of life; and

**WHEREAS**, more than 90 percent of Florida's drinking water is supplied by underlying aquifers, and our quality of life and the economy depend upon a clean and healthy environment; and

**WHEREAS**, Floridians consume more than 7.9 billion gallons per day of fresh water, and the future of Florida depends greatly upon the availability of water; and

**WHEREAS**, the State of Florida together with local partners including Miami-Dade County are investing billions of dollars to restore the Everglades, develop alternative water supplies, reduce storm water pollution, upgrade drinking water facilities and improve wastewater treatment; and

**WHEREAS**, water conservation can cost as little as 6¢ to 72¢ per 1,000 gallons of water saved, while the cost of constructing alternative water supply facilities can range from \$5 to \$7 per 1,000 gallons of water created; and

**WHEREAS**, all water users in Miami-Dade County, including commercial, industrial, agricultural, institutional, hospitality, private citizens and others can make a positive contribution to reduce water use and protect Florida's water resources; and

**WHEREAS**, the South Florida Water Management District is implementing a Comprehensive Water Conservation Program to instill a lasting culture of conservation in our communities; and

**WHEREAS**, the Miami-Dade County Water and Sewer Department (“WASD”) develops and administers the Miami-Dade Water Use Efficiency Program which is an operational and policy-based program and includes quantifiable best management practices and projects aimed at reducing water consumption; and

**WHEREAS**, this program has received recognition from the U.S. Environmental Protection Agency, the Florida Department of Environmental Protection and the American Water Works Association; and
