

Date: May 5, 2009  
To: Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners  
From: George M. Burgess  
County Manager   
Subject: Ratification of Acceptance and Execution of Federal Aviation Administration (FAA)  
Grant in the amount of \$884,186.00 for the extension of Runway 9R/27L –  
Construction Phase 1 at Kendall-Tamiami Executive Airport under AIP No. 3-12-  
0050-008-2009

Agenda Item No. 8(A)(1)(E)

Resolution No. R-478-09

### **RECOMMENDATION**

It is recommended that the Board adopt the attached resolution ratifying the acceptance and execution by the Mayor's designee of Grant Agreement AIP Number 3-12-0050-008-2009 between Miami-Dade County and the Federal Aviation Administration (FAA) for a grant in the amount of \$884,186.00 for the Extension of Runway 9 Right/27 Left (9R/27L) – Construction Phase 1 at Kendall-Tamiami Executive Airport (TMB), pursuant to provisions of the Miami-Dade Aviation Department's (MDAD) Expedite Ordinance No. 95-64, codified as Section 2-285(6) of the Code of Miami-Dade County.

### **SCOPE**

Kendall-Tamiami Executive Airport and the project associated with this Airport Improvement Program (AIP) is located within District Eleven.

### **FISCAL IMPACT**

This FAA Airport Improvement Program (AIP) entitlement fund grant is for the Phase I, proposed 1,000-foot westward runway extension at TMB and provides an the initial allocation of \$884,186.00 in entitlement roll-over general aviation funds for the FAA approved and eligible construction portion of the project. The total construction cost for Phase 1 is estimated to be \$10,964,682.00.

This grant represents FAA's initial allocation of general aviation entitlement funding for Phase I of the project which must first be allocated in anticipation of the FAA programming and commitment for an additional \$6 million in discretionary funding towards the construction of the project with FDOT funding 50% of the non-federal share.. The Florida Department of Transportation (FDOT), under its Five-Year Work Program, has programmed \$474,600 for Fiscal Year 2010/2011, \$1,334,600 for Fiscal Year 2011/2012, and \$4,123,800 for Fiscal Year 2012/2013, to be applied to the entire three-phase extension of the project cost estimate of \$30 million. Phases II and III – a 798-foot extension to the west and a 550-foot extension to the east, respectively – are not supported by FAA and will only be undertaken if additional operational need and availability of funding permits. MDAD needs to retain the FDOT funding as programmed to maintain development flexibility for the subsequent phases should the Department determine that an operational need for additional extension is justified.

### **TRACK RECORD/PROJECT MONITOR**

The project will be managed by MDAD Chief of Civil Engineering Ernesto Beltre, P.E. The grant will be managed by MDAD Chief of Grants Norma Mata.

### **BACKGROUND**

On November 19, 2008, MDAD submitted its application for federal assistance for Phase 1 of the construction of Runway 9R/27L Extension at TMB. The FAA has programmed a total General Aviation Airports entitlement grant of \$884,186.00 for the construction of the 1,000-foot westward extension of

runway 9R/27L along with a 1,000-foot westward extension of the 50-foot-wide parallel taxiway ("TWY 'E").

On October 7, 2008, the Board approved in Resolution No. R-1000-08, an FAA Grant No. 3-12-0050-007-2008 in the amount of \$483,550 for the design of the extension of runway 9R-27L, including a new runway-to-taxiway entrance and exit connector for the westward extension of the parallel taxiway, along with the relocation of associated Instrument Landing System (ILS) Navigational Aids (NAVAIDS), the ILS Localizer Antenna, Precision Approach Path Indicator (PAPI), and Medium Intensity Approach Lighting System (MALS).

The extension of Runway 9R/27L from 5,002 feet to the maximum FAA funded length of 6,000 feet will provide the necessary takeoff length required to operate most types of business and corporate jet aircraft without imposing severe weight penalties or requiring such jets to make intermediate fuel stops when flying non-stop to medium or long-haul destinations. The runway extension project is part of the County's Capital Improvement Program (CIP) for the airport system.

It is therefore recommended that the Board ratify the actions of the Mayor's designee in accepting and executing the FAA Grant Agreement for Phase 1 of the Runway 9R-27L extension project.
