Twenty-eight bids were received. A total of 12 vendors are being recommended for award, and 16 vendors are not being recommended for award, because they did not comply with the minimum requirements.

Page 5

The original award recommendation was posted with the Clerk of the Board on February 20, 2009. Subsequent to the original award recommendation and after the bid protest period, the Department of Procurement Management discovered that one of the recommended vendors did not meet all of the requirements of the solicitation. Specifically, B&G Auto Parts Warehouse, Inc. confirmed it does not comply with Section 3.2(c) which requires bidders to have and maintain \$1 million in inventory at all times. This recommendation rescinds the February 20, 2009 recommendation and reflects the deletion of this firm from the recommendation to award.

BACKGROUND

On December 16, 2002, a contract was awarded to MIA Consulting Group (MIA) to manage the Helen Sawyer Adult Living Facility on behalf of MDHA. The contract was subsequently terminated in March of 2003 due to the dissolution of the firm. The Department of Human Services (DHS) assumed management responsibility for the facility. In an attempt to reduce the cost of providing these services, proposals were solicited to manage the facility, and to potentially develop resident services to generate additional revenue sources.

Four proposals were received in response to the Request for Proposals (RFP) for the successor contract. Elder Managed Care & Consulting, inc. (EMC) was the highest ranked proposer. Negotiations were not successful as EMC was unable to obtain the performance bond required in the RFP. Upon formal termination of negotiations with the top ranked proposer, negotiations were initiated with MIA Consulting Group, the second highest ranked proposer (the previous contractor). MIA was not able to secure the performance bond. MDHA staff reviewed the benefits of using an outside contractor as compared to continuing management services through DHS. The department has asked that proposals be rejected. DHS will continue to manage this facility until April 1, 2009, after which time MDHA will take over the management.

REASON FOR CHANGE

Authorization for additional spending authority in the amount of \$340,000 is required by the Miami-Dade Water and Sewer Department (WASD) to continue to purchase pipe, fittings, meters, washers and saddles for water service lines.

Unanticipated additional expenditures have taken place due to an increase in the number of leaks detected and repaired in the water service system and the ongoing conversion to "Automated Meter Reading" which requires the replacement of meters and the associated pipe and connection fittings. In addition, on September 3, 2008, the Water and Sewer System in the City of Miami Springs was transferred to the County. This transfer of ownership created approximately 4,000 additional WASD retail water accounts whose meters must be replaced and upgraded to meet WASD standards.

WASD has spent approximately \$125,200 per month for the first seven months of this one-year contract. The additional \$340,000 will provide adequate funding through the remainder of the contract term.

REASON FOR CHANGE

Requesting authorization for additional time and spending authority necessary to continue providing lawn and landscaping services for the Miami-Dade Housing Agency (MDHA). The original successor solicitation was cancelled by the MDHA due to an internal reorganization. A replacement solicitation was advertised. Thirty-nine proposals were received on January 28, 2009. Twenty-seven proposals were forwarded to the County Attorney's Office for responsiveness determinations. After responsiveness determinations are made, site visits of all responsive bidders will be conducted to determine competency of responsive, responsible bidders.

Award of the replacement contract is expected to be presented to the Board in July 2009. This modification for additional time and spending authority will allow continuation of landscaping and lawn maintenance services for MDHA sites while the replacement contract is evaluated and awarded.

REASON FOR CHANGE

This contract is utilized by the Miami-Dade Fire Rescue (MDFR) and Miami-Dade Police (MDPD) departments to purchase Panasonic Toughbook laptop computers and related accessories. This contract was established through an open competitive process by the City of Tucson, Arizona through the National Intergovernmental Purchasing Alliance (N-IPA).

Authorization is requested for additional spending authority to purchase Panasonic laptops for MDFR. The laptop computers will be used by field personnel when implementation is completed for the Electronic Patient Care Reporting and Information Management System for the MDFR. This System will collect, reference, and communicate patient information in real-time throughout the course of an Emergency Medical Services call. This System will also provide MDFR with the ability to communicate and exchange information with first responders, dispatchers, operations staff, billing, hospital staff, and other local and state agencies.

In addition, a future modification for MDPD will be used for the purchase of additional and replacement laptops. MDPD installs Mobile Computing Units (MCUs) in patrol cars for support of police dispatch functions, along with the on-sight capability of performing other criminal information system database searches. MCUs are also used by specialized investigative units throughout MDPD.

The County's access to the City of Tucson contract was originally approved for a term of nine and half months to run concurrent with the City of Tucson contract. The City of Tucson has now extended its contract for an additional one-year period. Because the delegated authority has been exhausted, this modification is presented to the Board of County Commissioners for consideration.
