County Manager

Subject: Application for FY 09 Federal Section 5307 Formula Grant and Section 5309 Fixed
Guideway Modernization Grant

Agenda Item No. 8(J)(1)(A)

Resolution No. R-493-09

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) authorize the execution and filing of two grant applications on behalf of Miami-Dade County with the United States Department of Transportation (USDOT), Federal Transit Administration (FTA) for up to \$80 million in Fiscal Year (FY) 2009 Section 5307 Formula and Section 5309 Fixed Guideway Modernization (FGM) grant funds. The total amount requested includes up to approximately \$60 million in FY 2009 Formula funds and up to approximately \$20 million in FY 2009 FGM funds. It is further recommended that the Board authorize this grant agreement pursuant to the application, as well as the receipt and expenditure of funds as specified in the agreement.

A public hearing is required in accordance with FTA regulations.

SCOPE

As these funds provide support for multiple bus and rail projects, the impact of this grant will be countywide.

FISCAL IMPACT

There will be no negative fiscal impact to the County since the required local match in the amount of \$20,000,000 will be provided by the Florida Department of Transportation (FDOT) through the use of State Toll Revenue Credits (TRC), a "soft match."

TRACK RECORD/MONITOR

MDT has entered into numerous funding agreements with USDOT over the course of more than twenty-five (25) years. The project manager for these grant applications is Doug Greist, Manager, MDT Budget and Management Services.

DELEGATED AUTHORITY

In accordance with Section 2-8.3 of the Miami-Dade County Code related to identifying delegation of Board authority, there are no authorities beyond that specified in the resolution which include authority for the Mayor or designee to execute the grant agreements and receive and expend these and any additional funds should they become available.

BACKGROUND

On August 10, 2005, President Bush signed the Safe, Accountable, Flexible, and Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU). SAFETEA-LU addresses the many challenges facing our transportation system today - challenges such as improving safety, reducing traffic congestion, improving efficiency in freight movement, increasing intermodal connectivity, and protecting the environment as well as laying the groundwork for addressing future challenges. SAFETEAU-LU promotes more efficient and effective Federal surface transportation programs by

focusing on transportation issues of national significance, while giving State and local transportation decision makers more flexibility for solving transportation problems in their communities.

The Section 5307 Formula grant program makes Federal funding available to urbanized areas for a wide variety of transit capital programs including planning, engineering, bus acquisition and bus-related projects, security equipment, construction of maintenance and passenger facilities, preventive maintenance, overhaul and rebuilding of bus and rail vehicles, improvement of existing fixed guideway systems, and communication and computer equipment. The 5307 funding is allocated on the basis of legislative formulas, and for urbanized areas over 200,000 in population, the formula is based on population, density, bus and rail service provided, and bus and rail service consumed for public transit agencies in each Urbanized Metropolitan Area.

The Section 5309 FGM grant program makes Federal funding available to public agencies that provide fixed guideway service (exclusive or controlled rights-of-way or rail service) for modernization or improvements to those systems. Within the Section 5309 FGM grant program, funds are allocated by a statutory formula for urban areas with fixed guideway systems in operation for at least seven years.

Section 1111 of the Transportation Equity Act for the 21st Century (TEA-21) made permanent earlier statutory provisions which permit a state to count as a credit for a project's local share certain expenditures that a state makes with toll revenues. Where applicable, Miami-Dade Transit (MDT) requests toll revenue credits from FDOT. Once an amount is approved, the toll revenue credit is incorporated with the Federal grant application to serve as the local match.

Prior to FY 2002, Miami-Dade, Broward, and Palm Beach counties were individual Urbanized Metropolitan Areas and were awarded FTA funding accordingly. However, in 2002, the Bureau of Census combined Miami-Dade, Broward, and Palm Beach counties into one Urbanized Metropolitan Area. This change required FTA to allocate Section 5307 Formula and Section 5309 FGM grant funds to the redefined Miami Urbanized Metropolitan Area. The amount requested (\$80 million) reflects an estimated maximum amount that Miami-Dade County will receive from the FY 2009 appropriation. The final grant funding amount for the 5307 program will depend on the mutual agreement of all parties (Miami-Dade, Broward, Palm Beach and the South Florida Regional Transportation Authority) within the Miami Urbanized Metropolitan Area on a formula distributing the total of funds designated for the Miami Urbanized Metropolitan Area. The final grant amount for the Section 5309 program will depend on the mutual agreement of funds distribution between Miami-Dade County and the SFRTA since these are the only public transit agencies within the Miami Urbanized Area with fixed guideway systems.

Projects funded with FY 2009 Section 5307 Formula grant funds are expected to include:

- Capitalization of preventive maintenance
- Passenger amenities including bus facilities and equipment
- Planning activities in support of the Unified Planning Work Program
- Transit Enhancement Projects (required by FTA) including disability-related projects
- Transit Safety and Security Projects (required by FTA)

The FY 2009 FGM grant includes:

- routine maintenance of the Metrorail and Metromover
- replacement of tools and equipment
- capitalization of preventive maintenance
