Ordinance No. 10-07

Subject: Ordinance Amending Section 2-103.15 of the Miami-Dade County Code to Allow for the Placement of the Homeless Trust's Donation Meters to be Placed on County Maintained Rights-of-Way

**Recommendation**

It is recommended that the Board of County Commissioners (BCC) amend Section 2-103.15 of the Miami-Dade County Code in order to allow for the placement and installation of the Homeless Trust's (Trust) donation meters on County-maintained rights-of-way. At its July 21, 2009 meeting, the BCC adopted Resolution No. 1023-09, which supports the Miami-Dade County's Homeless Trust's Public Awareness Campaign that includes the design, installation, and maintenance of donation meters to be placed, as permitted by law, throughout the County to enable individuals to contribute to the Trust's Homeless programs.

**Scope**

This Ordinance will affect all public roadways within the unincorporated area and County-maintained roadways within municipalities.

**Track/Record/Monitor**

The Trust will be the administering department responsible for the implementation and oversight of the County's donation meters' project. The Public Works Department (PWD) will provide written authorization for the number, location and placement of the Trust's donation meters on County maintained rights-of-way.

**Background**

Resolution No. 1023-09 supports the County Public Awareness Campaign to be carried out by the Trust that includes the design, installation, and maintenance of donation meters to be placed, as permitted by law, throughout the County to enable individuals to contribute to the Trust's Homeless programs. This Resolution further authorizes the Mayor or the Mayor's Designee, in consultation with the County Attorney's Office, to identify all necessary steps and actions to expeditiously implement the design and installation of the donation meters, including but not limited to all necessary County legislative changes and/or agreements. Furthermore, on September 15, 2009 the BCC adopted a Resolution creating an Adopt-a-Meter Program that will permit those that desire to sponsor a collection device to make a donation to the County.

Section 2-103.15 of the Miami-Dade County Code requires an amendment as it currently does not specifically provide for this particular type of usage on public rights-of-way. This proposed amendment to the Code will in effect add an exception to the sign ordinance that will enable the Miami-Dade County Homeless Trust to place donation meters throughout the County once the Director of the Public Works Department (PWD) provides prior written authorization to the Trust regarding the number, location and placement of the County-owned and operated donation meters. All monies collected from said devices will be used to support the Trust's homeless programs.

Resolution No. R-1023-09

**Subject:** Resolution Supporting a Public Awareness Campaign to Promote Miami-Dade County Homeless Trust's Programs and Services

**Recommendation**

It is recommended that the Board of County Commissioners (BCC) adopt the accompanying Resolution supporting a County Public Awareness Campaign carried out by the Miami-Dade County Homeless Trust (Trust), which would include the design, installation and maintenance of collection devices to be placed, as permitted by law, throughout the County to enable individuals to contribute to the County's Homeless Programs and Services.

By adopting this Resolution, which supports this program, the BCC further authorizes the Mayor or the Mayor's Designee, in consultation with the County Attorney's Office, to continue identifying all necessary steps and actions required to expeditiously implement the design and installation of said collection devices, including but not limited to the preparation of legislative changes and agreements. It is anticipated that the cooperation of multiple County departments will be required to determine the steps necessary to implement this program. All required legislative changes and/or agreements will be brought back to the BCC for approval as appropriate.

**Scope**

The program will be implemented Countywide.

**Fiscal Impact/Funding Source**

The County has had preliminary discussions with the City of Miami Parking Authority, which has indicated that it will provide the first 100 collection devices and all services associated with the collection and maintenance of these meters at no cost. Additional funds for the particular project are anticipated to come from sponsors who desire to assist the County in achieving the goal of this County program. The Trust is also actively researching the availability of additional in-kind meters from other municipalities.

Currently, there is \$118,000 budgeted from Food and Beverage Tax revenues for the overall public awareness campaign. In the event that funds are needed to support the cost of additional collection devices, maintenance and collection of said devices, staff may access available Food and Beverage Tax revenues. If additional funds are needed, the BCC will be informed and approval will be requested as appropriate.

**Track/Record/Monitor**

The Trust will be the administering department responsible for the implementation and oversight of this public awareness program and the collection devices project.

**Background**

The Trust, on behalf of the County, continues to promote awareness of homeless issues throughout our community. In March 2009, through a competitive process, the County engaged The M Network, Inc. to promote community awareness of the services available through the Homeless Trust and assist in researching alternative strategies to panhandling, including the placement of collection devices throughout

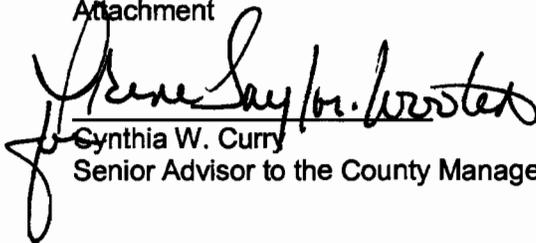

Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners

the County. Other communities such as Denver, Baltimore, and London have successfully utilized refurbished parking meters to support homeless programs and services.

All monies collected are utilized for homeless services such as emergency shelter and feeding programs. Members of the Homeless Trust and City of Miami staff traveled to Denver to study their program and believe that such a program would be beneficial to Miami-Dade County. Through the adoption of this Resolution, the BCC desires the installation of these collection devices throughout the County in order to enable people to contribute to the County's homeless programs and services.

Staff will provide the BCC periodic updates and will advise of all agreements, including interlocal agreements, that the County would need to enter into, in addition to legislative changes, to implement this program.

**To:** Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners

**From:** George M. Burgess  
County Manager 

**Subject:** Resolution establishing an Adopt-A-Homeless Donation Meter Program to provide entities and individuals an opportunity to contribute to Miami-Dade County's Homeless Programs

Agenda Item No. 10(A)(1)

## **Recommendation**

It is recommended that the Board of County Commissioners (BCC) adopt the accompanying Resolution establishing the Adopt-A-Homeless Donation Meter Program (Program) and approve an agreement (Attachment A) to be executed between Miami-Dade County and entities/individuals desiring to: 1) sponsor a Homeless Donation Meter and/or 2) host a Collection Device through this Program. The Resolution also authorizes the County Mayor or the County Mayor's designee to take any and all action necessary to implement the Program on behalf of the County.

## **Scope**

The program will be implemented countywide.

## **Fiscal Impact/Funding Source**

It is anticipated that the City of Miami Parking Authority will provide the first 100 meters in-kind and will provide all services associated with collecting and maintaining these meters at no additional cost to the County. The Homeless Trust is also actively pursuing obtaining additional in-kind meters from other municipalities.

Currently, Food and Beverage Tax revenue has not been budgeted to support the cost of additional collection devices, maintenance and collection of said devices. In the event that additional funds are needed, it is anticipated that staff may access Food and Beverage Tax revenues. If additional funds are needed, the BCC will be informed and approval will be requested as appropriate.

## **Track/Record/Monitor**

The Homeless Trust will be the administering department responsible for the implementation and oversight of this Program.

## **Background**

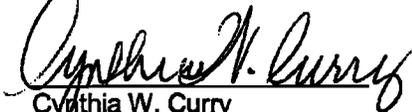

The BCC adopted Resolution R-1023-09, supporting a Homeless Public Awareness Campaign in Miami-Dade County that includes the design, installation, and maintenance of collection devices to be placed, as permitted by law, throughout the County to enable individuals to contribute to the County's Homeless programs and services. Additionally, the Resolution expressed support for the idea of allowing entities/individuals to make donations in the form of sponsoring these collection devices. The participation of these sponsors and the importance of locating these collection devices in key spots throughout the County with a large amount of pedestrian traffic will help meet the County's goal of promoting awareness of homeless issues throughout our community. This Program will help increase awareness throughout the community of what services are available through the County's Homeless Trust. All monies collected will be utilized for the County's homeless services such as emergency shelter and feeding programs.

This agreement will set the terms and obligations that will govern participation in the Program and authorize the Mayor or Mayor's designee to execute on behalf of the County.

Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners  
Page 2

In summary, businesses and individuals desiring to sponsor a Donation Meter may make a donation of \$1,000 per meter and/or allow for the placement of a meter or large collection device in their business (e.g. placement in a mall or other private venue). Sponsoring the meters will provide a source of revenue for the Program, which will fund the refurbishing/construction, painting and artistic wrapping, by Romero Britto, of these devices.
