# Memorandum

**Date:** March 2, 2010

**To:** Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners

**From:** George M. Burgess  
County Manager

A handwritten signature in black ink, appearing to read "George M. Burgess", written over a light grey circular stamp or watermark.

**Subject:** Proposed Zoning Ordinance Amending Sections 33-1 and 33-279 of the Code to Expand the Section Providing for Wineries in the AU (Agricultural) Zoning District

---

## **Recommendation**

It is recommended that the Board of County Commissioners adopt the attached ordinance amending Sections 33-1 and 33-279 of the Code in order to permit farm-related breweries and distilleries in the AU (Agricultural) zoning district, and to modify certain requirements for wineries, breweries and distilleries and their ancillary uses. The ordinance amends Sec. 33-1 of the Code in order to provide definitions for farm related breweries and distilleries.

## **Scope**

The proposed ordinance applies to the unincorporated areas of Miami-Dade County.

## **Fiscal Impact/Funding Source**

The proposed ordinance creates no fiscal impact on Miami-Dade County.

## **Track Record/Monitor**

The Department of Planning and Zoning will administer the implementation of this ordinance.

## **Background**

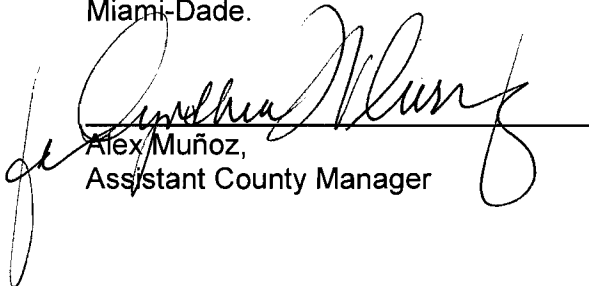

To assist the agricultural industry to be economically viable in the face of changing characteristics and increased pressure to convert agricultural lands to urban use, the Board of County Commissioners (BCC) adopted on April 24, 2007 Resolution No. R-436-07. This resolution directed County staff to conduct a fact finding mission, to develop a set of strategies to promote agri-tourism, and to find possible ways to diversify agriculture. On December 12, 2007, County Staff presented a report to the BCC outlining the findings of the fact finding mission and laying out a plan of action to address some of the challenges being faced by the County's agricultural community.

It is estimated that an average of two million visitors pass through the south Miami-Dade area every year on their way to destinations such as the Florida Keys, Everglades and Biscayne National Parks. The attached ordinance and the two other accompanying ordinances are designed to provide the local farmers with the tools necessary to attract a segment of those visitors passing through the area. These ordinances are designed to

remove impediments from the zoning code to allow for additional agricultural-related uses and to encourage agri-tourism.

The zoning code currently provides for wineries to operate in the County's agricultural area under certain conditions. However, the code imposes a number of restrictions on uses that are considered complementary to making a winery operation viable and attractive. This deficiency in our code was highlighted during the fact finding mission to upstate New York where thriving wineries created a tourist destination of an area that was once economically depressed. The proposed changes expand the winery section to provide for breweries and distilleries and to allow additional flexibility for their operators to utilize the facilities to promote tourism and expose people to the potential of the agricultural industry in south Miami-Dade.

Assistant County Manager
