

Date: February 2, 2010

To: Honorable Chairman Dennis C. Moss and Members,
Board of County Commissioners

Agenda Item No. 8(D)(1)(C)

From: George M. Burgess
County Manager

Resolution No. R-101-10

Subject: Resolution Accepting Canal Right-of-Way Deed from the Village of Miami Shores

Recommendation

It is recommended that the Board of County Commissioners approve the attached resolution accepting a canal right-of-way deed from the Village of Miami Shores in the vicinity of 1701 NW 103 Street, Miami-Dade County.

Scope

The subject item is limited to a parcel of land owned by the Village of Miami Shores and located in Commission District No. 2 (Comm. Rolle).

Fiscal Impact/Funding Source

The subject item has no fiscal implications to Miami-Dade County. This item does not require the expenditure of any Miami-Dade County funds.

Background

The unincorporated area of Miami-Dade County lying west of NW 17 Avenue between NW 111 Street and NW 107 Street is subject to severe flood conditions due in part to the relatively low land elevation and lack of drainage facilities. To alleviate said conditions in this area, Miami-Dade County has implemented a project to integrate drainage improvements and stormwater discharge to an existing spur of the Little River Canal. The canal spur, which needs major improvements, runs through a property owned by the Village of Miami Shores (see Attachment A).

The acquisition of this canal right-of-way will allow the County to perform the improvements and to operate and maintain this canal. Therefore, the Department of Environmental Resources Management (DERM) contacted the Village of Miami Shores regarding the transfer of the canal right-of-way to Miami-Dade County. In response, the Village submitted, without cost to the County, a resolution by the Miami Shores Village Council that approves the conveyance of said canal right-of-way (Attachment B). The Village of Miami Shores also provided at no cost to the County a valid canal right-of-way deed conveying to the County that portion of the northwesterly 75 feet of their property located at 1701 NW 103 Street (Attachment C). The land to be conveyed has a total area of .89 acres.

In order to implement the proposed drainage improvements, DERM and the Public Works Department, which are contributors to the subject flood protection project, recommend that the Board accept the attached right-of-way deed.
