County Manager 

Subject: FY 2008-09 Year-End Budget Amendments

Agenda Item No. 8(L)(1)(B)

Resolution No. R-113-10

This substitute item corrects scrivener's errors in Attachments 3 and 4. Line item transfers requiring Board approval for Emergency Management, General Services Administration, Metro-Miami-Action Plan, and the Office of Sustainability, which should have been included in Attachment 3, were inadvertently included in Attachment 4.

Recommendation

It is recommended that the Board of County Commissioners approve the attached resolution amending the FY 2008-09 Adopted Budget to allocate funds among various County agencies from appropriate sources.

Scope and Fiscal Impact/Funding Source

Detailed below.

Background

State law prohibits departmental spending in excess of Board approved appropriations. However, during the course of the year, extraordinary events can occur that would result in a department exceeding its budget without an additional appropriation of funds unless it was to reduce or suspend services. Historically, recommendations have been submitted to the Board to adjust budgets to account for such events. Technical adjustments also require a year-end General Fund budget amendment. Pursuant to Ordinance 07-45, also included in this item are the budget line item transfers that require the Board's review and approval. Attachment 3 requires Board approval; attachment 4 is for informational purposes. The adjustments included in this item equal \$20.357 million which is 1.09 percent of the total general fund budget.

Reserves

These budget amendments are funded by various reserves in the general fund. As has been past practice, certain operational reserves, such as those for anticipated energy, separation, and Florida Retirement System costs, potential tax equalization, and prior year encumbrances are budgeted separately from departmental allocations with the intent to distribute these revenues as necessary through the budget amendment process. When the budget is structured, efforts are made to estimate and match the size of the operational reserve to potential needs based on historical experiences. Unforeseen events such as the unbudgeted election held in December 2008, may require the use of capacity available from operational reserves. Each of these reserves has been fully re-appropriated in the FY 2009-10 Adopted Budget. Furthermore, even with the amendments included in this item, carryover into FY 2009-10 exceeds the budget by \$12.6 million due to our cost savings efforts.

Board of County Commissioners

The budgets for the Board of County Commissioners (BCC) and its divisions will be amended by \$4.245 million for the allocation of unexpended FY 2007-08 year-end office balances. Funding will be provided by prior year unallocated cash carryover. A related item on this agenda provides supplemental expenditure authority for the general fund to recognize this carryover. BCC carryover balances as of the end of FY 2008-09 total \$4.728 million.

Clerk of Courts

The Office of Clerk of Courts requires an amendment in the amount of \$4.195 million due to underperforming recording fee revenues resulting from the continued slowdown of the real estate market, which support County functions such as the Clerk of the Board, County Recorder's office, and the Value Adjustment Board.

Community Advocacy

The Office of Community Advocacy requires an amendment in the amount of \$13,000. Budgeted carryover revenue in the amount of \$108,000 was not realized in FY 2008-09. The department was able to absorb most of the revenue shortfall through miscellaneous savings in its operating budget.

Elections

The Elections Department requires an amendment in the amount of \$6.061 million to cover additional costs related to the unbudgeted run-off election for the Office of Property Appraiser, the unbudgeted mail ballot election for the municipal charter amendments related to mitigation and specialized police payments, and to cover additional costs related the Presidential election held in November 2008.

Human Services

The Department of Human Services requires a budget amendment of \$1.109 million to cover higher than anticipated personnel expenses associated with the pipeline placement process and delays in final separations for employees affected by budget reductions.

Neighborhood Compliance

The Office of Neighborhood Compliance requires a budget amendment of \$3.831 million to cover revenue shortfalls associated with lien collection resulting from the economic downturn in the housing market (\$934,000), higher than anticipated personnel expenses associated with the pipeline placement process and delays in final separations for employees affected by budget reductions (\$1.566 million), and additional lease expenditures for the West Dade Permitting and Inspection Center and Team Metro Office at Melrose (\$1.330 million).

Public Works

The Public Works Department requires a budget amendment in the amount of \$903,000 due to a Florida Power and Light (FP&L) rate increase of eight percent that took effect in August 2008 and to cover electrical charges incurred in prior years that were not paid in the appropriate accounting cycle. The lag in payments was identified as part of a routine departmental audit reconciliation which links County properties to the appropriate billable charges.

Budget Line Item Transaction Appropriations

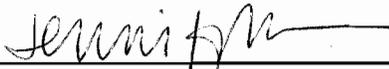

Miami-Dade County Ordinance 07-45 requires the disclosure of line item expenditures that exceeded budgeted allocation and the proper line item adjustments based on pre-established criteria. No transactions of this type had occurred at the time we reported this information to the BCC pursuant to the date established in the ordinance. In general, expenditure transactions beyond the stipulated line item budget are likely to occur in the last quarter of the year, when the majority of overdue transactions are posted in anticipation of the year-end closeout.

Attachment 3 lists all the transactions that require Board approval for the re-appropriation of budget as a result of exceeding the 10 percent threshold and/or the movement of personnel expenditures to other line item categories. In addition, Attachment 4 lists in detail the department line item appropriations that were administratively approved to reflect the proper expenditure categorization and did not exceed the 10 percent threshold. Both attachments detail the department name, the fund type where the over expenditure occurred, the spending category, the total budget for the department, the amount of the adjustment(s), the percent of the budget it represents, the spending category where the re-appropriation will occur, and a description of the adjustment. Through the approval of this item, the Board authorizes the Office of Strategic Business Management (OSBM) to process all budget transactions required to execute the year-end amendments.
