RESOLUTION URGING THE U.S. CONGRESS, THE FLORIDA LEGISLATURE AND THE FLORIDA DEPARTMENTS OF EDUCATION AND HEALTH TO PASS LEGISLATION OR ADOPT RULES PROVIDING GUIDELINES AND PROCEDURES FOR SCHOOLS IN MANAGING CHILDREN'S FOOD ALLERGIES

**WHEREAS**, in the U.S., more than 2.2 million school-aged children have food allergies, according to the Asthma and Allergy Foundation of America (AAFA); and

**WHEREAS**, the incidence of food allergy and food-induced anaphylaxis has been rising in recent years and the number of American children under five years of age with peanut allergy doubled between 1999 and 2004 according to the AAFA; and

**WHEREAS**, food allergy is the most common cause of anaphylaxis outside of the hospital and is responsible for approximately 30,000 anaphylactic episodes and 150 to 200 deaths each year in the U.S.; and

**WHEREAS**, food allergies disproportionately affect children due to the immaturity of their immune systems, with an estimated six to eight percent of children versus only less than four percent of adults have food allergies; and

**WHEREAS**, studies of fatalities due to anaphylaxis have shown that the majority of cases occurred outside the home, with a significant number occurring at schools; and

**WHEREAS**, the State of Florida has some policies in place related to schools dealing with children's food allergies, including policies:

1. Ensuring students' right to carry and self-administer prescribed anaphylaxis medication; and

2. Requiring schools to identify and maintain records for students with chronic conditions and requiring procedures for updating health records periodically; and
3. Requiring schools to maintain allergy incident reports for reactions, attacks, and medications that are administered; and

**WHEREAS**, legislation also has been filed at the federal level addressing food allergies at schools, including S. 456 by Senator Christopher Dodd (D – Connecticut) and H.R. 1378 by Representative Nita Lowey (D – New York), that directs the Secretary of Health and Human Services, in consultation with the Secretary of Education, to develop guidelines to be used on a voluntary basis to develop plans to manage the risk of food allergy and anaphylaxis in schools,
