Subject: Resolution Rescinding Administrative Order No. 3-44 and Approving Implementing Order 3-44
Regarding the Infill Housing Initiative

Agenda Item No. 8(F)(1)(D)

Resolution No. R-347-10

At the request of Housing and Community Development Committee this Implementing Order was revised to include a sunset provision for the temporary rental exception, and to modify the definition of an eligible person or eligible household to include those persons or families participating in any other municipalities' affordable rental program.

Recommendation

It is recommended that the Board of County Commissioners approve the attached resolution rescinding Administrative Order 3-44 (Infill Housing Initiative) and approve Implementing Order 3-44 carrying forward provisions of Administrative Order 3-44; and updating departmental names and their roles and responsibilities, incorporating minor procedural modifications, adding a provision for the temporary rental of housing units, and adding a schedule of program fees.

Scope

The proposed revisions include the following:

- Update department names and their roles and responsibilities
- Make minor procedural changes that are more reflective of current processes
- Eliminate the reimbursement of Water and Sewer Connection fees
- Limit the reimbursement of impact fees to homes sold to low income families
- Allow for the temporary rental of Infill Homes
- Add modest program fees to help cover operational costs of the Program.

Background

Administrative Order No. 3-44 (AO 3-44) was approved on January 25, 2007 establishing the procedures for the Infill Housing Initiative. The Infill Housing Initiative is a County program that encourages developers to build affordable single family housing in inner city neighborhoods. Since AO 3-44 was approved, the names of several departments have changed as well as their functions as they relate to the Infill Housing Initiative (the Program). The recommended changes are necessary to more accurately reflect current processes. In addition, the reimbursement of water and sewer connection charges is being eliminated due to lack of funding and the reimbursement of impact fees is being limited to homes sold to low income families (80% or below of median income), which is consistent with the requirements of the Department of Planning and Zoning. Modest Program fees are being added to help cover operational costs of the Program.

The most significant change is the addition of a provision that allows the developers to temporarily rent the housing units. Due to the downturn in the real estate market and the overall state of the economy, developers are having a very hard time finding buyers for many of the homes that have been built.

Currently, there are approximately 41 completed homes and another 50 homes under construction that have not been sold. Rather than have the developer's risk losing the homes to foreclosure or being vandalized, a proposed code amendment on today's agenda will allow the developers to rent the homes, provided they can demonstrate to the County's satisfaction that they have made a good faith effort to sell the eligible home. The term "good faith effort" shall include, but is not limited to, marketing of the eligible home by listing the home on the multiple listing services for a minimum of three months, placing a "For Sale" sign on the property, and reducing the original asking price by at least 5%. The developers will only be allowed to rent the homes to families who are eligible participants in one of the County's or other local municipality's rental housing assistance programs, including but not limited to, the Section 8 Housing Choice Voucher (HCV) Program administered by the Miami-Dade Public Housing Agency or the Household Exiting Emergency Shelter, Transitional Housing and Domestic Violence programs administered by the Homeless Trust. This rental exception will sunset after two years.

Fiscal Impact

The proposed Implementing Order incorporates modest fees to the developers which will help cover administrative costs of the Program. Currently, GSA does not charge any fees to the developers. However, staff spends a considerable amount of time monitoring the developer's progress, preparing paper work to release liens, processing requests for extensions, and preparing closing documents.

Comments

An ordinance amending Sections 17-121 through 17-128 of the County Code, which regulate the Infill Housing Initiative, is also on today's agenda for your consideration. The amendment is needed to allow for the temporary rental of the housing units.

This Implementing Order supersedes Administrative Order 3-44 ordered January 25, 2007 and effective February 8, 2007.

SCOPE:

This Administrative Implementing Order establishes the process for implementation and management of the Infill Housing Initiative for Miami-Dade County. The procedures established to carry out the goals of the Infill Housing Initiative shall be referred to as the Infill Housing Program.

THE INFILL HOUSING PROGRAM PROCESS:

Identifying Lots

GSA is responsible for reviewing the inventory of County property to identify lots that may be suitable for infill housing. Property that is located in the infill target areas and is appropriately sized, residentially zoned, designated for residential use in the County's Land Use Map, or located adjacent to residential uses is presented to the Affordable Housing Review Committee (AHRC) for action. Market conditions of the surrounding area are also taken into consideration when determining whether the property should be presented to the AHRC.

Affordable Housing Review Committee (AHRC)

The AHRC reviews County property identified by GSA as having the potential of being developed with affordable housing. The AHRC is chaired by GSA's Assistant County Manager, or his/her designee, and is comprised of representatives from various County agencies, including General Services Administration, Planning and Zoning, Public Works, Environmental Resources Management, Water and Sewer, Building and Neighborhood Compliance, Finance, Miami-Dade Public Housing Agency, ~~Community and Economic Development~~ Department of Housing and Community Development, ~~Team Metro~~ and any other department deemed necessary by the County Manager to review lots being considered for affordable housing.

The AHRC reviews property to determine whether it meets the minimum requirements for development and makes one of the following determinations:

- 1) **Appropriate for Infill Housing Development**
A property or parcel located in the infill target areas which can be developed with four dwelling units or less. These properties are bid out amongst the pool of Infill Housing Developers via a work order proposal process.
- 2) **Appropriate for Affordable Housing Development**
A property, or parcel, that can be developed with more than four dwelling units, regardless of its location. These properties are made available for development via a competitive process.
- 3) **Not Appropriate for Infill nor Affordable Housing development**
Properties determined by AHRC as unsuitable for housing development. Such parcels are addressed through the surplus process as dictated by Administrative Order 8-4.

Properties that are deemed appropriate for infill development, but may require corrective action are forwarded to the appropriate agency for said correction. If it is recommended by AHRC that a variance from zoning requirements be sought or that the zoning of the property be changed, then a request is made to the Department of Planning and Zoning to file a Director's application

on said property. GSA initiates such requests for corrective action and reports back to AHRC on their progress.

Clearing Title

All liens of record, citations, violations and special assessments are released or satisfied prior to awarding the lot. GSA identifies any such lien(s) and facilitates the release or satisfaction of said liens, citation, violation, etc. by contacting the County or municipal agency in charge of releasing the lien, etc. Additionally, GSA ensures that the title has been quieted, if necessary, prior to the conveyance of the lot.

Selecting Qualified Developers:

Infill housing developers are selected through a Request for Qualifications (RFQ) process. The RFQ states the minimum requirements a developer must have to participate in the Infill Housing Program including, but not be limited to the following:

- 1) Experience building housing.
- 2) Past performance on similar housing projects
- 3) Financial capacity to build the homes.

Selection of the pool of qualified developers is made by the Affordable Housing Selection Committee (AHSC). The AHSC members ~~is~~ are appointed by the County Manager and is comprised of representatives from GSA, MDHA, ~~OCED-HCD~~, and any other department deemed necessary. The County Attorney's Office shall serve as legal advisor to the AHSC.

Availability of County Property:

County property that has been deemed to be suitable for infill housing by AHRC is submitted to the Board of County Commissioners for their approval. Once approved for infill housing, the property is offered to the pool of qualified developers through a competitive Work Order Proposal process that encourage a mix of housing prices that are affordable to both low and moderate income households. Consideration for award also takes into account status of lots previously awarded to the developer and the developer's past performance in the Program. The Proposals are evaluated and selected by the Affordable Housing Selection Committee (AHSC). Properties are conveyed, leased or made available to the selected developer through a developer agreement which clearly states the obligations of both the County and developer.

Said instrument contains the following restrictions:

- 1) the property shall be developed with an affordable home(s);
- 2) the home(s) shall be sold to an eligible homebuyer;
- 3) the home shall be built within a specified period of time;
- 4) the home shall meet the Minimum Infill Architectural and Space Requirements;
- 5) the sales price of the home shall not exceed the maximum sales price set by the County for affordable housing;
- 6) the developer shall require that the qualified household purchasing the eligible home execute and record simultaneously with the deed of conveyance the County's Affordable Housing Restrictive Covenant;

- 7) that the developer shall forfeit all rights to the property if the restrictions are not complied with.

If the developer is unable to complete the home within the prescribed timeline he/she may submit a "Request for Extension" application to GSA. GSA reviews the request and makes a determination as to whether the request meets criteria established to grant extensions. If the request is denied, the developer shall forfeit all rights to the property, including any construction of any infrastructure or any improvements in, on, to, or under the land, without recourse to recover any costs of said construction. If the property has been conveyed, the developer shall be required to convey the property back to the County. Failure to convey the property back will result in legal action against the developer. Denials of extension requests may be appealed to the County Manager.

Monitoring Construction:

GSA is responsible for closely monitoring the progress of the home by setting milestones for the various phases of development, conducting regular inspections of the site and assisting developers with resolving problems they encounter with the various regulatory agencies.
