JUSTIFICATION

Miami-Dade County is mandated by the National Fire Alarm and Signaling Code 72 to have an emergency communications system installed within Miami International Airport (MIA). This contract will provide the Miami-Dade Aviation Department (MDAD) with required maintenance and support services for the Announce Control System (ACS) used at MIA. ACS was implemented in 2004 and is an integral part of MIA's operations for mass notification. It provides MDAD the capability to broadcast announcements throughout MIA in the event of emergency situations. The ACS will announce the threat and instructions on how to respond to the threat.

IED Support Services LLC is the sole provider of software maintenance, annual on-site inspection, and annual training for ACS. Market research confirmed that there are no other vendors capable of providing these services. Due to the proprietary nature of ACS it is recommended that the County establish a sole source contract for purchase the required software maintenance and support services needed to maintain the ACS. Approval of the sole source contract will ensure continuity of services while ensuring compliance with the National Fire Alarm and Signaling Code 72.
