County Manager

Ordinance No. 11-38

Subject: Ordinance Authorizing Issuance of \$400,000,000 Building Better Communities  
Commercial Paper Notes

**Recommendation**

It is recommended that the Board of County Commissioners (Board) enact the accompanying ordinance which authorizes the issuance of not to exceed, at any one time, \$400,000,000 of Building Better Communities Commercial Paper Notes (Notes) in anticipation of the issuance of Miami-Dade County, Florida General Obligation Bonds (Building Better Communities Program) (BBC Bonds). It also authorizes the County Mayor or the County Mayor's designee to obtain proposals for commercial paper dealer(s), issuing and paying agent(s), and letter of credit provider(s), all to be approved by a subsequent resolution of the Board.

**Scope**

The implementation of a commercial paper program by issuing the Notes (CP Program) for the Building Better Communities General Obligation Bond Program (BBC Program) will provide a means of financing needed to meet the BBC Program's undertaking of eligible community projects in anticipation of the issuance of additional BBC Bonds. The impact of the CP Program is countywide.

**Fiscal Impact/Funding Source**

The ordinance authorizes the issuance of the Notes to be paid from the proceeds of future BBC bond proceeds. Future issuances will be brought to the Board for approval. The program enables the County to have immediate access to capital funds at short-term interest rates. Properly monitored, this program will expedite BBC Program projects, which may lead to savings by taking advantage of favorable construction prices.

**Track Record/Monitoring**

Issuance of the Notes will be overseen by Finance Director Carter Hammer. The BBC Program is overseen by the Office of Capital Improvements (Director George Navarrete) and the Office of Strategic Business Management (Special Assistant/Director Jennifer Glazer-Moon).

**Background**

On July 20, 2004, the Board approved resolutions R-912-04, R-913-04, R-914-04, R-915-04, R-916-04, R-917-04, R-918-04, R-919-04 (collectively, Authorizing Resolutions), and the citizens by special election approved authorization to issue general obligation bonds of the County in an amount not to exceed \$2,925,750,000 to construct and improve the BBC Projects described in Appendix "A" to each of the Authorizing Resolutions (collectively, Community Projects). This ordinance seeks authorization to issue, at one time or from time to time in one or more series, Notes for the purpose of (i) paying a portion of the costs of the Community Projects identified in a subsequent resolution or resolutions authorizing the issuance of the Notes; and/or (ii) paying Notes previously issued pursuant to this ordinance. Prior to the issuance of any series of Notes authorized by this ordinance, the Board will be

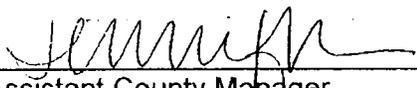

presented with a resolution or resolutions for adoption and approval identifying the Community Projects to be funded as well as the details of the Notes.

Creating a CP Program for the BBC Program will permit the County to more quickly respond to the pace of construction and changing financial market conditions, ultimately allowing more construction to take place while prices are favorable and minimizing the cost of financing. The Finance Department, coordinating closely with the Office of Capital Improvements (OCI) and the Office of Strategic Business Management, will only issue Notes as cash flow is necessary to maintain construction activity that balances aggressive timelines with properly conservative projections and deliberate project oversight.

When the County needs to issue additional commercial paper, the Finance Department will request the issuance of new commercial paper from the commercial paper dealer. The commercial paper dealers will issue new Notes, allowing the market to determine the term of the Notes and the rates. Upon the sale of the Notes, the proceeds will be deposited in the County's account. Monthly, the paying agent will supply the County with a statement of each commercial paper dealers' outstanding Notes by maturity date issued and the rate of each maturity. Using this statement, the County will monitor the rate charged on the Notes by commercial paper dealer and could replace the commercial paper dealers, or request shorter or longer periods of maturity, improving the rates received on the Notes.

The CP Program requires a commercial bank with high credit ratings to issue a letter or letters of credit to support the Notes. The letter(s) of credit are necessary to issue the Notes in the event the Notes cannot be remarketed (reissued) in a timely manner when required, or if the County is unable to issue BBC Bonds when required to repay the principal of and interest on the Notes. The CP Program is also dependent on competent commercial paper dealers to market the Notes in order to receive the lowest interest costs, and issuing and paying agents to transact the numerous payments necessary to keep the CP Program functional.

Pursuant to the ordinance, the County Mayor or the County Mayor's designee is authorized to obtain proposals through requests for proposals or any other competitive process deemed appropriate for the selection of commercial paper dealer(s), issuing and paying agent(s) and letter of credit provider(s) in connection with the Notes. Over the next few months, the County will solicit the market for letter of credit providers, commercial paper dealers and a paying agent. Upon identifying each participant, the County will negotiate a letter of credit and a reimbursement agreement with the selected letter of credit providers. The County will also negotiate remarketing agreements with the commercial paper dealers and a paying agent agreement with the paying agent. Additionally, a reoffering memorandum will be drafted. A month or two prior to the depletion of the proceeds from the Series 2011A Bonds, the results of these solicitations, the negotiated agreements and details of the Notes, including the reoffering memorandum, will be presented to the Board for approval and adoption by subsequent resolution. Based on current projections, OCI anticipates that the proceeds from the Series 2011A Bonds will be depleted within a 12 to 18 months period, after the issuance of the Series 2011A Bonds.
