**From:** Carlos A. Gimenez

**Subject:** Resolution Approving the Florida Department of Transportation's Conveyance of the Rental Car Facility at Miami International Airport to Miami-Dade County through a Quit Claim Deed and an Aerial Easement, and Waiving Competitive Bidding to Allow the Car Rental Companies to Perform Operation and Maintenance Services on the MIA Mover Train Station at the Rental Car Center

---

## **RECOMMENDATION**

It is recommended that the Board:

(a) Approve the attached Agreement for Conveyance between the Florida Department of Transportation (FDOT) and Miami-Dade County, under which FDOT will convey to the County (i) by Quit Claim Deed, a fee-simple interest in the Rental Car Center (RCC) located at Miami International Airport (MIA) and (ii) by Aerial Easement, an easement interest to the County for a portion of the MIA/Mover Train Station that is not located within the premises covered by the Quit Claim Deed; and

(b) Waive competitive bidding under Section 5.03D of the Home Rule Charter and approve the amendment to the existing Maintenance, Operational Services, Fuel System, and Consolidated Busing Operations (MOFB) Agreement between the County and the car rental companies operating within the RCC that will permit the car rental companies to enter into an agreement with a maintenance company (by way of an original agreement or by amendment to their existing agreement between the car rental companies and their MOFB provider) so as to provide Operations and Maintenance (O&M) services for the MIA/Mover train station located within the RCC and any other portion of the MIA Mover requiring O&M services to be performed by the County.

## **SCOPE**

The project associated with this agreement is located within Commissioner Rebeca Sosa's District Six; however, the impact of this project is Countywide in nature as the Rental Car Center (formerly known as the Rental Car Facility) and MIA are regional assets.

## **FISCAL IMPACT**

There is no fiscal impact resulting from this conveyance; however, there is a fiscal impact from the Miami-Dade Aviation Department's (MDAD) obligation to fund at least 50 percent of the ongoing Operating and Maintenance (O&M) expenses of the MIA Mover train system. Funds for the County's portion of the Train Station O&M costs, estimated to be \$200,000.00 annually, have been budgeted for the 2011-2012 Fiscal Year.

## **PROJECT MONITOR**

The RCC will be monitored by Miguel Southwell, MDAD's Deputy Aviation Director for Retention and Business Development.

## **BACKGROUND**

By Resolution No. R-1268-99, approved on December 7, 1999, the Board approved a Memorandum of Understanding (MOU) between the County and FDOT regarding FDOT's construction of the Miami Intermodal Center (MIC) at MIA. The MOU reflected FDOT's receipt of a federal loan of \$433 million from the U.S. Department of Transportation (USDOT) under Transportation Infrastructure Finance and Innovation Act (TIFIA) for completion of the MIC project in its entirety, of which \$269 million was designated as the "FDOT Portion" and \$164,000,000 was designated as the "MDAD Portion." The MIC

project includes the RCC itself, a MIC Core Building (MIC), and an automated people mover train system (MIA Mover or sometimes the MIC/MIA train) connecting MIA's Terminal Building with the RCC and the MIC. Per the MOU, the MDAD portion was to be used for construction of the RCC and to pay for the related land acquisition costs.

By Resolution No. R-683-00, the Board approved the form of a Memorandum of Understanding between the County and all car rental companies desiring to operate in the RCC. Section 4 of the MOU obligates each car rental company to collect Customer Facility Charges (CFCs) from its customers to pay certain expenses, including the O&M expenses associated with the MIA Mover. However, under this MOU and under the Security Agreement of 2007, the CFCs cannot pay for more than 50 percent of the MIA Mover's total expenses in the first five years and cannot pay for more than a stated percentage to be determined based on utilization in subsequent years. Accordingly, the County through its Aviation Department is obligated to use its funds to pay the remainder of the O&M expenses for the MIA/Mover train system.

Rather than have the County provide O&M services to some portions of the RCC and the car rental companies provide those services to the other portions, as was required by the Loan Documents, the car rental companies requested they be allowed to provide the County's portion of the O&M services for the RCC. By Resolution No. R-97-10, adopted by the Board on February 2, 2010, the Board approved the MOFB Agreement, under which the car rental companies assumed the right and obligation to provide O&M services in designated portions of the RCC. Thereafter, the companies engaged in a competitive selection process to obtain the O&M services of a CB Richard Ellis (CBRE) to provide all such O&M services.

The MOFB agreement provides that the County may assign additional O&M services to the companies. The companies have agreed that they will undertake the O&M services for the MIA Mover train station, and intend to allow CBRE to provide such services through an amendment to their existing contract with CBRE. A waiver of competitive bid, however, is necessary to authorize the County to assign the O&M services to the car rental companies initially without competitive bid. If the car rental companies are unable to have the O&M services provided by CBRE, then the companies will be authorized to select a separate provider through a competitive selection process as currently provided under Section 1.1(E) of the MOFB.

On July 24, 2007, the Board adopted Resolution No. R-910-07 approving the First Amendment to the car rental companies' concession agreement. The Resolution approved the increased cost of the RCC to a total of \$370 million, the County's participation in the TIFIA loan from \$164 million to \$270 million, and confirmed that the total costs of the RCC, including land acquisition costs, up to \$270 million, would be paid for by the County exclusively from CFCs and contingent rents (if any contingent rents from the car rental companies became necessary to make up for any shortfall in CFC collections).

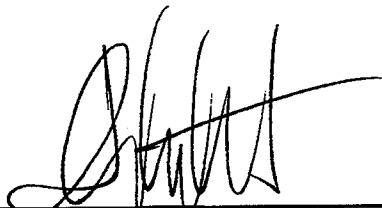

The TIFIA loan proceeds were used by FDOT to purchase the RCC land and construct the RCC. The RCC formally opened on July 13, 2010, and FDOT has now requested that County enter into the attached Agreement for Conveyance of the land underlying the RCC. The attached Agreement provides for the following major provisions:

- a. FDOT will convey to the County, a fee-simple interest via a Quit Claim Deed, all of FDOT's right, title, and interest in the land underlying the RCC, the RCC facility itself, and all the equipment and improvements contained within the RCC.
- b. Payment from CFCs to FDOT of the land acquisition costs shall be \$95 million.
- c. The County's obligation for payment is limited to the extent of CFC revenues and contingent rent.

- d. The RCC is located on what are designated Tract A and Tract B. The MIA Mover train station is located between the RCC and the MIC, with one half in the eastern portion of Tract B and the remaining half in Tract C. The Quit Claim Deed conveys Tracts A and B to the County and an Aerial Easement conveys that portion of FDOT's Tract C that contains the remainder of the elevated MIA Mover station.
- e. Tract A consists of a water-retention pond and, although the County is receiving a fee-simple interest in Tract A, FDOT is reserving an access easement to the retention pond to assure continuity of its use.
- f. To the extent the County needs any further easements from FDOT for any FDOT property involved with the MIA Mover system, FDOT will convey an appropriate easement to the County.
- g. Upon the conveyance to FDOT by the South Florida Regional Transportation Authority (SFRTA) of the property upon which FDOT and the County have constructed improvements, FDOT, in turn, will convey that property to the County without cost.
- h. When the RCC opened in July 2010, FDOT granted MDAD a Temporary License to use the RCC until it could be formally conveyed under a Quit Claim Deed. The Agreement for Conveyance reflects that, upon the effective date of the Quit Claim Deed and because the Temporary License will no longer be needed, the Temporary License will be terminated.

Section 2-10.4.2 of the Code of Miami-Dade County requires two appraisals whenever the County purchases real estate and the value of the real estate exceeds \$5 million. FDOT has certified that it spent \$97,012,812.45 for the purchase of the land. FDOT, however, acknowledges that the County is liable only for an amount up to \$95 million and therefore has agreed to accept \$95 million from the County in compliance with the County's obligations under the RCC loan documents. Section 2-10.4.2 provides that upon written recommendation of the County Manager, the Board may waive the provisions of this section if it finds it to be in the best interest of the County to do so. Given the nature of this RCC project, and the various commitments that the County has made to purchase the underlying land upon FDOT's completion of the RCC, and given that the conveyance price is limited to the proceeds of the CFCs collected by the car rental companies, it is recommended that the Board waive the provisions of Section 2-10.4.2.

Approval of the attached Resolution will therefore (1) approve the Agreement for Conveyance of the RCC land and facility to the County through Quit Claim Deed and Aerial Easement, (2) approve the form of the Quit Claim Deed and authorize its recording, (3) waive competitive bidding requirements under Article 5.03D of the Home Rule Charter so as to allow the car rental companies to select a contractor to provide O&M services for the MIA/Mover station, (4) waive the requirement of Section 2-10.4.2 for appraisals to be obtained for the conveyance, and (5) authorize the Mayor or designee to take all necessary or reasonable steps to execute the terms of the Resolution and the County's obligations under the TIFIA and RCC Loan Documents.

12. Expenditure by FDOT:

FDOT, during any fiscal year, shall not expend money, incur liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year.
