From: Carlos A. Gimenez

Subject: First Amendment to the Joint Participation Agreement (JPA) Between Miami-Dade County and The City of Hialeah, Providing for Reimbursement to the County for Project Costs Provided to the City for the Construction of Roadway Improvements Along NW 138 Street, from NW 107 Avenue to Florida Department of Transportation Right-of-Way at I-75 and Termination of the JPA

Amended  
Agenda Item No. 8(M)(9)

Resolution No. R-1067-11

This item was amended at the December 6, 2011 Board of County Commissioners meeting to include page 3 of the Amendment, which was inadvertently left out when the item was printed, and which read: "by exception, the City's obligations to indemnify, defend, and hold the County harmless (contained in Section 7 of the Joint Participation Agreement) shall survive the termination and shall remain in full force and effect between the parties, notwithstanding the termination effected in this amendment."

#### RECOMMENDATION

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing execution of a First Amendment to the Joint Participation Agreement (JPA) between Miami-Dade County (County) and the City of Hialeah (City), to reimburse the County for funds provided to the City for the construction of roadway improvements along NW 138 Street, from NW 107 Avenue to Florida Department of Transportation's (FDOT) right-of-way at Interstate 75 (I-75) (Project). The Amendment also provides that the remainder of the JPA be terminated after the City provides reimbursement.

#### SCOPE

The majority of the Project is located along the common municipal boundary of the Cities of Hialeah and Hialeah Gardens, with the remaining portion located completely within the City of Hialeah. The entire length of the Project is within Commission District 12.

#### FISCAL IMPACT/FUNDING SOURCE

The County agreed to provide funds up to a maximum contribution of \$14,400,000, including contingencies. The project's construction plans were provided by the City at its sole expense. The County's funding was derived from Road Impact Fees (RIF) District 3 (\$3,850,000), Local Option Gas Tax (LOGT) (\$400,000), and Secondary Gas Tax (SGT) (\$10,150,000) funds.

The City was eligible to receive \$6,860,000 through FY 2010-2011. The amount of project reimbursements subsequently paid to the City, and that will be remitted to the County after execution of this Amendment totals \$6,860,000.

#### DELEGATION OF AUTHORITY

No additional authority is being requested within the body of this contract.

#### TRACK RECORD/MONITOR

The County has utilized the resources of the City to contract and construct the project on a reimbursable basis. Disbursement of County funds to the City was based upon City invoices with

certified copies of paid contractor invoices. The construction of this Project is ongoing and will be completed by the City.

**BACKGROUND**

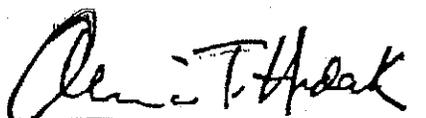

On June 30, 2009, the BCC approved a JPA between Miami-Dade County and the City, to provide County funding for the construction of the Project under Resolution No. R-838-09.

The Miami-Dade Expressway Authority (MDX) is currently pursuing the extension of SR 924 (Gratigny Expressway) west to the Homestead Extension of the Florida Turnpike (HEFT) and has contacted the City of Hialeah as MDX proposes to utilize NW 138 Street to provide this connection (Attachment 1). The City is in support of this proposed arrangement in order to facilitate access and mobility in this area of the County (Attachment 2). MDX has held the public meetings for the project and has determined that the preferred alternative for the project is the NW 138 Street alignment.

In order for MDX to utilize its capital bond funding for the Project, MDX must have a property interest in the proposed facility. Therefore, MDX has requested that NW 138 Street be transferred from the County to MDX jurisdiction through a Road Jurisdiction Transfer Agreement. The resolutions approving a Road Jurisdiction Transfer Agreement between the County and MDX to transfer NW 138 Street from Okeechobee Road/SR 25 to west of I-75, from County to MDX jurisdiction, and the Official Right-of-Way Transfer Map for this roadway are concurrently being presented for approval by the BCC under separate resolutions.

This Amendment to the JPA requires that all funds paid by the County to the City for the Project will be reimbursed by the City within 60 business days of (a) this Amendment to the JPA being approved, (b) the execution of the Road Jurisdiction Transfer Agreement between the County and MDX for NW 138 Street from Okeechobee Road/SR 25 to FDOT's right-of-way at I-75, and (c) the recordation of the Official Right-of-Way Transfer Map in the Public Record of Miami-Dade County, Florida. Thereafter, the remainder of the JPA shall be terminated and MDX will assume the responsibility to fund the City's Project. A new JPA between the County and the City will be submitted for other programmed projects within the City that will utilize the reimbursed funds.

On August 9, 2011, the City Commission adopted Resolution No. 11-79, approving this Amendment.

Re: N.W. 138<sup>th</sup> Street Roadway Jurisdictional Transfer in support of MDX Project #92404, SR 924 Extension West to the Homestead Extension of the Florida Turnpike (HEFT)

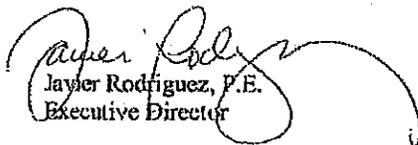

Dear Ms. Calas: *Esther*

I am writing to respectfully request that N.W. 138<sup>th</sup> Street be transferred from Miami-Dade County to MDX jurisdiction. MDX is pursuing the extension of SR 924 to the HEFT as part of the MDX Master Plan and MPO's Long-Range Transportation Plan utilizing the N.W. 138<sup>th</sup> Street corridor. The project includes a six-lane divided at-grade typical section along N.W. 138<sup>th</sup> Street, similar to the plans currently under construction by the City of Hialeah.

The expressway extension is proposed to be tolled at its eastern- and western-most connections with SR 924 and HEFT, respectively with the roadway section in between remaining as a controlled access, non-tolled facility. In order for MDX to utilize its capital bond funding for the project, MDX must have a property interest in the proposed facility and is, therefore, requesting the roadway transfer from the County. Once the transfer has occurred, MDX will reimburse the City for costs incurred to widen the roadway, which will then allow the City to reimburse the County for its contributions toward the N.W. 138<sup>th</sup> Street widening. MDX will also assume perpetual maintenance responsibility for the transferred roadway facility as part of its System.

Please begin preparation of right-of-way maps for this section of N.W. 138<sup>th</sup> Street as required for the jurisdictional transfer to MDX. Thank you for your assistance in this regard. If any additional information is needed, please contact MDX Director of Engineering Mr. Alfred Lurigados at (305) 637-3277 extension 2114 or [alurigados@mdxway.com](mailto:alurigados@mdxway.com).

Sincerely,

  
Javier Rodriguez, P.E.

Re: NW 138<sup>th</sup> Street Roadway Transfer and Agreement Modification

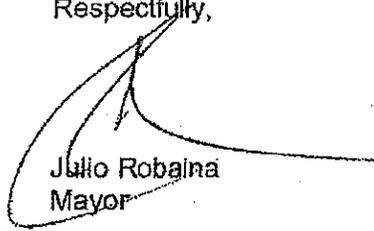

Dear Mrs. Calas:

An agreement between Miami-Dade County and the City of Hialeah currently exists for the construction of the NW 138<sup>th</sup> Street corridor, which links I-75 to 107<sup>th</sup> Avenue.

MDX is proposing to eventually extend the western portion of this corridor to the HEFT and utilize this newly constructed surface corridor as a direct link between the two expressway systems as an eventual direct continuation of the Gratigny Expressway.

The City of Hialeah is in support of this proposed arrangement in order to facilitate access and mobility in this newly annexed and developing area of the County.

Respectfully,

  
Julio Robaina  
Mayor
