# Memorandum

**Date:** June 5, 2012

**To:** Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor

**Subject:** Ordinance Amending Sections 28-4.1 and 28-11 of the Code of Miami-Dade County, Florida, Relating to Waiver of Plat and Permitting Requirements for Plats Pending Approval

---

## **Recommendation**

It is recommended that the Board of County Commissioners (BCC) approve the attached Ordinance amending Sections 28-4.1 and 28-11 of the Code of Miami-Dade County, Florida (Code), relating to waiver of plat and permitting requirements for plats pending approval.

## **Scope**

The proposed Ordinance involves platting regulation throughout Miami-Dade County. The proposed modifications will provide additional safeguards to Miami-Dade County (County) by requiring that an interest holder (mortgagee), when presenting property as a waiver of plat, consent to the platting action prior to the approval by the BCC. The Ordinance modification also requires full payment of the property taxes for the property in question to ensure that future owner(s) of the newly subdivided property are protected. In addition, the Ordinance modification allows the applicant to apply for additional permitting pending waiver of plat approval.

## **Fiscal Impact /Funding Source**

This modification to the Ordinance will not require additional funding from the Public Works and Waste Management Department (PWWM).

## **Track Record/Monitor**

PWWM, Land Development/Right-of-Way Division administers the processing of plats and the person responsible for the function is Raul A. Pino, PLS, Land Development/Right-of-Way Division Chief.

## **Background**

In 1957, Ordinance 57-30 established subdivision (platting) regulations applicable throughout the County which included provisions whereby "waiving of the requirement for platting would not conflict with the purpose and intent" of the Ordinance, in essence, the precursor of the waiver of plat. In 1979, Ordinance 79-18 was enacted by the County providing an official procedure for waiver of plats. Successive evaluation of the existing waiver of plat procedures by PWWM and the County Attorney's Office (CAO) determined that certain changes are recommended to provide additional safeguards to the County and general public. These proposed changes make up a portion of this Ordinance and will address those existing deficiencies.

On April 22, 2003, the BCC approved Ordinance 03-94 to permit limited building construction on certain parcels of land pending the recordation of their final plat. Following the approval of this Ordinance and an amendment to the subdivision Code, it became apparent that further

revisions were required to the Code in order to provide for a more comprehensive permit release methodology.

In early 2006, the Mayor's Office, through the Chairperson of the Governmental Operations and Environment Committee, worked together with the County Manager's Office in agreeing to the assemblage of a Blue Ribbon Customer Review Group (BRCRG). This group, consisting of a wide range of professionals within the development community and representatives from a number of County Departments, gathered throughout 2006 and early 2007, to address viable alternatives towards reforming the County's land use permitting and inspection process. The group meetings of the BRCRG resulted in draft recommendations, which were finalized for implementation starting in August 2008. Between this date and mid 2010, the applicable recommendations dealing with the platting process were put into practice by PWWM's Land Development Division (LDD) through policy and process procedural changes. Between September 2010 and August of 2011, the LDD then sponsored meetings with representatives of the development community, led by the Builders Association of South Florida (BASF), to discuss any concerns the development industry had with the changes proposed in the Ordinance. In August 2011, a draft version of the proposed Ordinance was prepared and forwarded to the CAO for their review, with the final version being inclusive of their recommendations. The outcome of this undertaking has resulted in improvements to the County's development approval process.
