Memorandum

Date: October 2, 2012

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

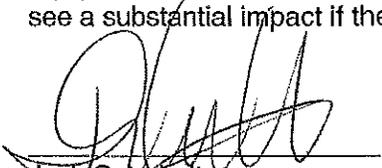

From: Carlos A. Gimenez
Mayor 

Subject: Ordinance Requiring the Installation of Guardrails and other Traffic Barriers for
Parking Lots Adjacent To or Abutting Bodies of Water

The proposed ordinance requires the installation of guardrails or similar traffic barriers for parking lots abutting bodies of water in the unincorporated areas of Miami-Dade County.

For new construction, the implementation of the proposed ordinance requires the installation of guardrails for parking lots adjacent to or abutting bodies of water. Based on current Code requirements, the installation of traffic barriers where the proposed design does not provide the necessary safe distance to the edge of a body of water is required. The proposed ordinance should have no impact to the construction industry, general public, and the County.

For existing parking lots, the proposed ordinance establishes an eighteen month time frame for compliance. This ordinance would be enforced through the existing 40 Year Old Building Recertification process at minimal cost to the department. However, if the Department is required to proactively enforce this ordinance, the fiscal impact will be negative if additional resources such as personnel and equipment are needed. Furthermore, the construction industry, general public, and the County could see a substantial impact if there are significant facilities that are not in compliance.
