From: Carlos A. Gimenez
Mayor 

Subject: Resolution Authorizing the Execution of an Interlocal Agreement for Stormwater Management between the Town of Cutler Bay and the Miami-Dade County Stormwater Utility

Agenda Item No. 8(M)(5)

Resolution No. R-922-12

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the execution of an interlocal agreement for stormwater management between the Town of Cutler Bay ("the Town") and the Miami-Dade County Stormwater Utility. The term of this five (5) year agreement is from October 1, 2012 to September 30, 2017.

Scope

The Town of Cutler Bay is in Commissioner Bell's District 8.

Fiscal Impact/Funding Source

Under the proposed agreement, the Town of Cutler Bay shall reimburse the County up to \$124,789 annually for canal maintenance costs. For the five (5) year term of the agreement, the Town of Cutler Bay's total will not exceed \$623,945. Without this agreement, the County would be responsible for all costs.

Track Record/Monitor

The Stormwater Utility Section Manager within the Department of Regulatory and Economic Resources, Curt Williams, will be responsible for monitoring the proposed agreement.

Background

On June 18, 1991, the Board adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility and establishing a uniform approach to stormwater management. Stormwater utility fees collected in Miami-Dade County provide the funding for stormwater management, which includes the construction, operation and maintenance of stormwater conveyance systems.

On December 19, 2007, the Town of Cutler Bay Council adopted Ordinance No. 07-29, creating stormwater management regulations within their municipal code and establishing their own stormwater utility as its funding source.

County-owned canals that provide drainage service to the Town of Cutler Bay and its residents remain the property and responsibility of the County. The costs to maintain the County's canals that provide a drainage benefit to the Town can be shared between the County and the Town through an interlocal agreement, which can establish the responsibilities for the operation, maintenance and cost-sharing of stormwater systems.

On April 2, 2008, the Town of Cutler Bay signed a five (5) year interlocal agreement with the Miami-Dade County Stormwater Utility that expires September 30, 2012.

On August 15, 2012, the Town of Cutler Bay Council approved the proposed five (5) year interlocal agreement (Exhibit A) under Resolution No. 12-39 (Exhibit B). The term of the proposed interlocal agreement is October 1, 2012 to September 30, 2017 and will replace the agreement expiring September 30, 2012. The October 1, 2012 start date was agreed for ease of budgeting, tracking, invoicing, and other tasks related to the fiscal year period.

Under the proposed interlocal agreement, the Town of Cutler Bay will reimburse Miami-Dade County for the Town's share of any canal maintenance costs incurred by the County from October 1, 2012 to September 30, 2017.

Similar interlocal agreements are currently in effect between the County and at least ten (10) other municipalities.

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the TOWN, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the TOWN and the UTILITY; and

WHEREAS, the UTILITY and the TOWN recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the TOWN want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the TOWN enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;

- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the TOWN to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

The TOWN may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the TOWN shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained.
