Resolution No. R-249-13

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution pursuant to Section 2-8.1(b) of the Code of Miami Dade County awarding construction Contract No. S-863: South District Wastewater Treatment Plant Screening System Improvements to Poole & Kent Company of Florida in the amount of $5,720,050. This contract award recommendation was prepared by the Water and Sewer Department (WASD).

The project will make improvements to the grit chamber by adding new and tighter screens designed to remove rags and other inert solids more effectively at the South District Wastewater Treatment Plant located at 23300 S.W. 88 Avenue in Commission District 8.

Scope

This project is related to a series of projects constructed under the High Level Disinfection Program to comply with Consent Order 03-1376 (issued by the Florida Department of Environmental Protection) and to adhere to regulatory requirements resulting from a rule change implemented by the United States Environmental Protection Agency to meet effluent quality standards for deep well disposal. Upon completion of the entire project, the South District Wastewater Treatment Plant will be rated a 285 million gallons per day wastewater treatment plant.

This project consists of furnishing all materials, labor and equipment necessary to construct improvements to the grit chambers at the South District Wastewater Treatment Plant. The scope of work includes the installation of four (4) WASD furnished perforated plate fine screens; four (4) washer/compactors; construction of a new electrical building complete with a motor control center, electrical feeders, power, lighting and control panels; heating, ventilation and air-conditioning modifications to an existing electrical room including the control system modifications; site civil and stormwater modifications; fire alarm installation; interior rehabilitation and coating of the grit chambers and bypass channel; and furnishing and installing all required piping, valves, fittings, sluice gates and all other all other electrical, mechanical and miscellaneous work for a complete, functional and satisfactory installation.

Fiscal Impact/Funding Source

This contract has a fiscal impact in the amount of $5,720,050 which will be funded by a combination of the High Level Disinfection Special Construction Fund and existing bond funds. The project is included in the Department's FY 2012-2013 Adopted Capital Budget under OMB Project No. 96510240.

Track Record/Monitor

WASD's Deputy Director for Regulatory Compliance and Capital Improvements, Douglas L. Yoder, will oversee this project.

Due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine responsibility, including verifying corporate status, and performance and compliance data. The lists reviewed include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to the contractors responsibility. This information is being provided pursuant to Resolution R-187-12.

Background

Construction Contract No. S-863: South District Wastewater Treatment Plant Screening System Improvements was advertised on November 29, 2012 for full and open competition, including invitations to over three hundred prequalified general contractors under the County's Miscellaneous Construction Contract 7360 Plan. A mandatory Pre-Bid and Site Visit Meeting was held on December 12, 2012 with approximately 20 perspective bidders. On January 15, 2013, WASD received two (2) responsive bids, WASD's recommendation is to award the contract to the lowest responsive and responsible bidder, Poole & Kent Company of Florida.

Under Section 2-8.1(b) of the Code of Miami Dade County, the Board specified a $5 million threshold under which authority to award a miscellaneous construction contract was delegated to the Mayor or Mayor's designee. Since the low bid exceeds $5 million, approval of this contract award recommendation is presented to the Board.

The Internal Services Department CIIS database contains twenty (20) interim and final evaluations for Poole & Kent Company of Florida with an average overall 3.6 rating out of a possible 4 points which is indicative of overall satisfactory performance.

According to the Firm History Report, Poole & Kent Company of Florida has been awarded five (5) contracts with the County with a total value of $201,010,018.31, and change orders approved by the Board with a total value of $61,670.00.

There is a 5.51% Community Small Business Enterprise Goal established as a part of the construction contract as well as an 11.80% Community Workforce Program Goal.
