From: Carlos A. Gimenez
Mayor 

Subject: Resolution Authorizing Modification to Existing Contract

Agenda Item No. 8(F)(3)

Resolution No. R-515-13

Recommendation

It is recommended that the Board of County Commissioners (Board) waive competitive bidding procedures for the purchase of goods and services pursuant to Section 2-8.1 of the County Code and Section 5.03(D) of the Home Rule Charter and approve the attached contract modification. The item is described briefly below and in more detail in the accompanying attachment.

Item 1 – Test and Assess Pre-Stressed Concrete Cylinder Pipes: Modifies a bid waiver contract for additional spending authority in the amount of \$4,848,000 to allow Water and Sewer to continue testing and assessing the condition of Pre-stressed Concrete Cylinder Pipe (PCCP) throughout the County. The contract provides detailed assessment reports on the internal condition of PCCP, using non-destructive patented technology. The reports quantify broken wires within segments of PCCP, and rank the segments according to likelihood of failure. This allows WASH to schedule and prioritize the maintenance, repair, and replacement of PCCP, therefore mitigating risk of rupture.

Scope

The scope of the action in this item is countywide in nature.

Fiscal Impact/Funding Source

The allocation and funding source for the department is listed in detail in the attached item.

The contract amount and departmental allocation represents the maximum spending authority based on past utilization. This action does not guarantee that the total contract amount/value will be expended by the department. Funding will be expended only if the department's budget can support the expenditures approved in its annual budget adopted by the Board.

Track Record/Monitor

There are no known performance/compliance issues with the awarded vendor in the attached item. The department's contract manager is reflected in the item.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to extend the contract for purchase of goods and services in accordance with the terms and conditions of the contract listed in the attached item.

Due Diligence

Due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine Contractor responsibility, including verifying corporate status and review of performance or compliance issues. The lists that were referenced include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There

Item 1 – Contract Modification

Contract No.: BW9537-0/16	Title: Test and Assess Pre-Stressed Concrete Cylinder Pipe
Type of Change:	
<input type="checkbox"/> Additional Time	<input type="checkbox"/> Authorization to use Charter County Transportation Surtax Funds as a Component of MDT Operating Funds
<input checked="" type="checkbox"/> Additional Spending Authority	

Contract Description and Reason for Change:

Authorization is requested to modify this contract for additional spending authority so Water and Sewer can continue to test and assess the condition of Pre-stressed Concrete Cylinder Pipes (PCCPs) throughout the County. The contract provides detailed assessment reports on the internal condition of PCCPs, using non-destructive patented technology. The reports quantify broken wires within segments of PCCPs, and rank the segments according to likelihood of failure. This allows WASD to schedule and prioritize the maintenance, repair, and replacement of PCCPs, therefore mitigating risk of rupture.

The original contract allocation was established to assess the viability of the new technology while evaluating the condition of priority PCCP transmission mains. The successful completion of the priority mains has exhausted the contract's funding. This increase in funds will allow WASD to complete a succession list of projects, in accordance with the department's budget and the on-going infrastructure rehabilitation plan.

Pure Technologies U.S. Inc. has the worldwide patent rights to this advanced technology and operates under the "PipeDiver" and "SmartBall" trademarks. This technology allows inspection of the inside of PCCPs without having to disrupt services to residents. There are other methods to inspect these pipes; however, no other company uses technology that allows internal inspections without interrupting delivery of water and removal of wastewater.
