Subject: Ratification of a Memorandum of Agreement Between Miami-Dade County and the
Downtown Development Authority (DDA) For The DDA To Provide Funding Not To
Exceed \$145,000 For a Neighborhood Enhancement Action Team (NEAT)

Agenda Item No. 3(B)(3)

Resolution No. R-608-13

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution ratifying a Memorandum of Agreement (MOA) with the Downtown Development Authority (DDA) that funds a Neighborhood Enhancement Action Team (NEAT) through the Community Image Advisory Board (CIAB) to enhance landscaping and maintenance activity cycles throughout the DDA district in an amount not to exceed \$145,000 annually.

Scope

This agreement impacts the DDA District which is located within Commission District 3, Commissioner Audrey M. Edmonson, and Commission District 5, Commissioner Bruno A. Barreiro.

Fiscal Impact/Funding Source

Funding for the provision of enhanced services will come from the DDA in this or any future fiscal year where an agreement would be in effect and be deposited in the Parks, Recreation and Open Spaces Department's (PROS) Right-of-Way Aesthetic and Assets Management (RAAM) Division index code PRRRAM277809-R34720.

Track Record/Monitor

The Miami-Dade PROS RAAM Division Chief David Cardenas will monitor the Agreement and manage the project.

Background

As part of the work of the CIAB, and per Miami-Dade County's Aesthetic Master Plan approved in 2010, the County and the DDA have identified the transportation corridors in Downtown Miami and interstate entrances into the Downtown area as Priority Gateways into the core of significant tourist attractions. The DDA and the County, through the CIAB, share the common goal of improving the physical appearance of Downtown as a vital component of the community's overall economic well-being. Currently, the City of Miami, the County and the State provide basic maintenance cycles that do not include enhanced levels of service required to attain the standard of landscaping and aesthetic improvements desired within the DDA district. In addition, the DDA is currently implementing portions of its recently approved Master Plan

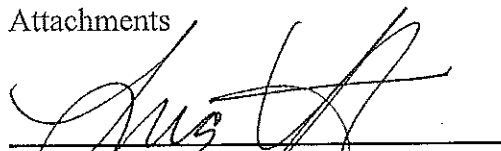

that include significant aesthetic enhancements and landscaped corridors, green spaces, plazas, and planter areas.

In 2007, the County, through the CIAB, landscaped four of the major ramp entrances and exits from I-95 into the Downtown area in partnership with the DDA. Again in 2010, the DDA through the CIAB entered into an agreement with the County to provide landscaping maintenance services through the CIAB NEAT team under Resolution R-1092-10 (Attachment A). Since that time, the CIAB and the DDA have partnered on several aesthetic improvement projects throughout the District such as the Downtown pocket parks and the design and installation of enhanced landscaping along Brickell Avenue.

In order to implement many of the proposed improvements to Downtown, and to maintain the areas that have been improved thus far, the MOA outlines a scope of work that would be performed by the CIAB NEAT team who has significant experience, a well-documented track record, and a history of work in the DDA district in providing this type of service. Beautification projects will focus on the medians, swales, and public green spaces throughout the district, planters, landscape inspection, installation, and maintenance. In many cases, landscape and streetscape plans have been prepared in conjunction with the CIAB to ensure continuity of design along Downtown gateways.

On October 1, 2012, the DDA approved the proposed MOA (Attachment B). This MOA may be renewed in writing for 3 consecutive one year terms by the County Mayor or designee, subject to the approval of the County Attorney.
