# Memorandum

Date: October 2, 2013

To: Honorable Chairwoman Rebeca Sosa  
And Members, Board of County Commissioners

From: Carlos A. Gimenez  
Mayor 

Subject: Ordinance Acting upon the October 2012 Cycle Evaluation and Appraisal Report-based Applications to Amend the Comprehensive Development Master Plan

---

At the October 2, 2013 final hearing, the Board of County Commissioners separated Substitute Special Item No. 2 into amended Substitute Special Item No. 2 addressing Application Nos. 1 through 11 (except Parcel Nos. 292 through 296 of Application No. 1, Part C) and amended Substitute Special Item Nos. 2a through 2e addressing Parcel Nos. 292 through 296 of Application No. 1, Part C, respectively.

This amended substitute ordinance differs from the original in that it revises the preamble of the original ordinance to reflect the actions taken by the Board of County Commissioners (Board) at and subsequent to its "transmittal" public hearing held on May 22, 2013, and acknowledges correspondence received from the State Land Planning Agency and other reviewing agencies issued between July 10, 2013, and August 23, 2013. This amended substitute ordinance addresses the disposition of pending Parcel 295 of Application No. 1, Part C.

## Recommendation

It is recommended that the Board of County Commissioners (Board) take action on the attached ordinance (Substitute Special Item No. 2), which provides for the Board to adopt, adopt with change or deny the pending October 2012 Cycle EAR-based Applications to Amend the CDMP.

It is recommended that final action be taken on this substitute ordinance for the referenced CDMP EAR-based Applications at the conclusion of the public hearing scheduled for October 2013. This ordinance follows the same format used in previous CDMP amendment cycles. That is, it contains blank spaces to record Board actions on the requests contained in the referenced CDMP EAR-based Applications.

## Scope

The CDMP is a broad-based countywide policy-planning document created to guide future growth and development, to ensure the adequate provision of public facilities and services for existing and future populations in Miami-Dade County, and to maintain or improve the quality of the natural and man-made environment in the County. While the adopted text of the CDMP generally applies countywide, individual, site-specific Land Use Plan map amendments may have localized impact on one or more Commission Districts such as the Land Use Plan map amendments proposed for Parcel Nos. 292 through 296 in Part C of Application No. 1. Parcel Nos. 1 through 291 are located within various municipalities; Parcel Nos. 292 and 293 are located within Commissioner Moss's District 9 and in Commissioner Bell's District 8; Parcel No. 294 is located within Commissioner Zapata's District 11; and Parcel Nos. 295 and 296 are located within Commissioner Diaz's District 12. Application No. 1, Parts A and B, and Application Nos. 2 through 11 are CDMP text amendments that apply countywide.

The changes proposed for Parcel Nos. 292, 293, 294 and 295 are to remove these parcels from within the applicable Urban Expansion Areas depicted on the CDMP Adopted 2015-2025 Land Use Plan map and do not involve any change to the land use designations of these parcels.

**Fiscal Impact**

Fiscal impact means the cost to the County of implementing the activities or actions that would be incurred after approval of the ordinance. Ordinance No. 94-238 requires a statement of fiscal impact on all activities and actions resulting from approval of an ordinance. In addition, Ordinance No. 01-163 requires the review procedures for amendments to the CDMP to include, for any proposed land use change, a written evaluation of the estimated incremental and cumulative impact to Miami-Dade County for bringing such public infrastructure to the area, as well as, annual operating costs. Also, in accordance with Resolution No. 530-10, County departments are required to include detailed financial costs and budgetary impact analysis for items that have a fiscal impact to the County. Information on the fiscal impacts from the referenced EAR-based CDMP amendment applications is contained in Appendix D of the document titled, "Initial Recommendations October 2012 EAR-Based Applications To Amend The Comprehensive Development Master Plan," dated April 2013.

Fiscal impacts from approved CDMP Land Use Plan map amendments vary depending on the type of request and location. For example, proposals involving non-residential developments have less impact on public infrastructure and services than proposals involving residential developments. Application No. 1 of the EAR-based amendments addresses the CDMP Land Use Element and proposes a single land use change to property in unincorporated Miami-Dade County (identified as Parcel No. 296 in Part C of Application No. 1). The land use change for Parcel 296, which proposes to include a ±521-acre site within the Urban Development Boundary and redesignate the site to "Restricted Industrial and Office," is the only proposed Land Use Plan map amendment that would generate a fiscal impact to the County. According to Miami-Dade Water and Sewer Department, if the proposed land use change for Parcel 296 were approved and the entire site developed with 11,347,380 square feet of warehouse uses (this development scenario includes filling all ±231 acres of lakes within the site), the annual operating and maintenance costs for water and sewer service are estimated at \$134,728. However, it is unlikely that the entire lake acreage would be filled as the lakes provide required drainage for approved development in the area. Accordingly, if the site were developed with 6,708,240 square feet of warehouse uses (this development scenario includes filling ±35 acres of lakes as previously approved for filling), the annual operating and maintenance costs for water and sewer service are estimated at \$76,922.

EAR-based Application No. 1, Part C, proposes numerous changes (totaling 284 land use changes) to the CDMP Adopted 2015-2025 Land Use Plan map, of which only one proposed land use change affects property within unincorporated Miami-Dade County and would generate a fiscal impact to the County. This proposed land use change is identified as Parcel 296 in Part C of the Application. The remaining 283 proposed land use changes are to properties within municipalities and thereby would not generate a fiscal impact to the County. The land use changes for properties within municipalities are proposed only to reflect the most current adopted municipal comprehensive plan designations of the properties on the County's Land Use Plan map. Therefore, with the exception of the land use change proposed for Parcel 296 in Part C of Application No. 1, as discussed above, the EAR-based Application Nos. 1 through 11 are generally text amendment requests and do not impose a fiscal impact to the County.

**Housing Impact**

The EAR-based applications would not impact the supply of housing in unincorporated Miami-Dade County. Since the EAR-based applications generally propose amendments to update the text and map series within eleven of the twelve adopted CDMP elements (except for Part C of Application No. 1 discussed above), none would impact the supply of housing in unincorporated Miami-Dade County. Furthermore, the single land use change proposed in Part C of Application No. 1 for property within unincorporated Miami-Dade County is to redesignate a ±521-acre site (Parcel 296 addressed above) from "Open Land" to "Restricted Industrial and Office". This proposed land use change would not impact the supply of housing in unincorporated Miami-Dade County.

**Track Record/Monitor**

Amendments to the CDMP do not involve contracts so a Track Record/Monitor is not applicable.

**Background**

The attached ordinance (Substitute Special Item No. 2) provides for final action on the pending October 2012 Cycle EAR-based Application Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11. The County transmitted the referenced CDMP EAR-based applications to the State Land Planning Agency and other state and regional agencies (reviewing agencies) for review and comment by letter dated June 19, 2013. The Board's previous actions at the May 22, 2013, public hearing were for Application Nos. 1, 2, 3, 5, 6, 7, 8, 9, 10 and 11 to "Transmit as Recommended by Staff" and for Application No. 4 to "Transmit with Change and Adopt" (change includes retaining the word "premature" in existing Policy CON-6D and delete new Policy CON-6E).

**Final Recommendations**

The final recommendations of the Department of Regulatory and Economic Resources on the pending October 2012 Cycle EAR-based Application Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11 are contained in the attached "Executive Summary" of the referenced EAR-based applications to amend the CDMP.
