Agenda Item No. 8(L)(3)

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Resolution No. R-49-14

Subject: Resolution Authorizing the Execution of a Joint Participation Agreement between Miami-Dade County and Florida's Turnpike Enterprise, Co-Permittees Named in the National Pollutant Discharge Elimination System Permit No. FLS000003-003, for which Miami-Dade County will Perform Stormwater Related Services and be Reimbursed up to \$100,092.00 by Florida's Turnpike Enterprise

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the execution of a Joint Participation Agreement between Miami-Dade County (County) and Florida's Turnpike Enterprise. This agreement provides for the performance of professional services conducted by the County on behalf of Florida's Turnpike Enterprise, which is one of the co-permittees named in the National Pollutant Discharge Elimination System Permit No. FLS000003-003, establishes responsibilities for pollutants detected in storm sewer systems that are shared by co-permittees, and allows annual changes to the number of activities performed by the County for the co-permittees. This agreement is related to an existing National Pollutant Discharge Elimination System Interlocal Agreement, approved by Board Resolution No. R-1032-12.

Scope

This agreement involves Commissioner Barbara Jordan's District 1, Commissioner Lynda Bell's District 8, Commissioner Dennis C. Moss' District 9, Commissioner Javier D. Souto's District 10, Commissioner Juan C. Zapata's District 11, and Commissioner Jose 'Pepe' Diaz's District 12.

Fiscal Impact/Funding Source

Under the proposed agreement, Florida's Turnpike Enterprise will reimburse the County up to \$100,092.00 for the term of the agreement. Without the proposed agreement, the County would be responsible for all costs of work contemplated by this agreement. The County work is funded by Stormwater Utility Fees.

Track Record/Monitor

The Stormwater Utility Planning Division's Director, Marina Blanco-Pape, P.E., of the Public Works and Waste Management Department, will monitor this agreement.

Background

The Florida Department of Environmental Protection is delegated by the U.S. Environmental Protection Agency to implement the storm water element of the National Pollutant Discharge Elimination System as mandated by the Federal Clean Water Act. On June 21, 2011, the Florida Department of Environmental Protection issued Permit No. FLS000003-003 to 33 co-permittees in Miami-Dade County for the discharge of storm water to state waters from municipal stormsewer systems. The 33 co-permittees consist of 29 municipalities, the Florida

Department of Transportation District Six, Florida's Turnpike Enterprise, Miami-Dade County Expressway Authority, and the County.

Having thirty-five percent (35%) of the County's stormwater outfalls, the County is the lead co-permittee under the Permit. The five (5) year permit term expires June 20, 2016.

Both the prior and current National Pollutant Discharge Elimination System permits require a Stormwater Management Plan from each co-permittee, that may be implemented through cooperative participation with other permit holders. Pursuant to this provision, on November 3, 2005, the Board adopted Resolution No. R-1237-05, approving an Interlocal Agreement between Miami-Dade County and the co-permittees (including Florida's Turnpike Enterprise) to implement the Stormwater Management Plan. The previous agreement expired on November 17, 2012. On December 4, 2012, the Board adopted Resolution No. R-1032-12, approving a new agreement between the municipal co-permittees and the County to replace the one that expired on November 12, 2012. Due to State of Florida requirements, the Florida's Turnpike Enterprise's proposed agreement is in the format of a Joint Participation Agreement and requires separate approval. However, it is similar in intent to the National Pollutant Discharge Elimination System Interlocal Agreement that was approved under R-1032-12.

Under the proposed joint participation agreement, the County would perform professional services on behalf of Florida's Turnpike Enterprise, to comply with conditions of the National Pollutant Discharge Elimination System Permit No. FLS000003-003. Professional services include water sampling, monitoring, analysis of storm sewer systems and related tasks. The proposed joint participation agreement, along with the National Pollutant Discharge Elimination System Interlocal Agreement approved through Board Resolution R-1032-12, establish responsibilities for control, reduction, and identification of non-stormwater pollutant discharges from municipal systems to state waters. The proposed joint participation agreement also sets forth annual not-to-exceed shared costs.

The term of the proposed Florida's Turnpike Enterprise Joint Participation Agreement will be from the date of execution to December 20, 2016. The resolution authorizing its execution is hereby presented to the Board and recommended for approval.
