The LAP Agreement was extended an additional 14 months to allow construction to be completed by November 30, 2014.

Track Record/Monitor
AGC Electric, Inc. is currently performing work for PWWM at a satisfactory level. PWWM has reviewed the Capital Improvements Information System (CIIS) database and found 20 awarded construction contracts as follows:

- one (1) from the Internal Services Department, and
- 19 from PWWM.

The referenced database also lists a total of 19 contractor performance evaluations with an overall performance rating of 3.2 (satisfactory performance), out of a possible 4.0 (superior performance) rating. The Small Business Development Division (SBD) History of Violation's report lists no violations for this contractor.

According to the Florida Department of State, Division of Corporations, AGC Electric, Inc., Company Principals are Tomas V. Curbelo, Enrique Guzman and Pierrette De La Sierra and the Company's address is listed as 2660 West 79 Street, Hialeah, Florida 33016.

Following PWWM's standard operating procedures, after award of this Contract a pre-construction meeting will be scheduled. The person responsible for all PTP projects in PWWM is PTP Coordinator, Mr. Alejandro Martinez-Esteve, RA, LEED AP. Following completion of the award process, the project will be assigned to Mr. Oscar Rubio, Project Manager, for day-to-day responsibilities.

Background
As part of the PTP Neighborhood Improvements initiative, PWWM continues to take advantage of various contracting mechanisms such as the Miscellaneous Construction Contracting process available under the MCC 7360 Program. Through this process, PWWM forwards a Request for Price Quotation (RPQ), by way of facsimile transmission, to a pool of firms that have registered with the Internal Services Department for the respective trade. Additionally, PWWM advertises the project in the *Daily Business Review* and all solicitations are available on-line through the Miami-Dade County portal under the "Procurement Solicitations" link. The project's award evaluation is based upon the bid submitted by the lowest responsive, responsible bidder for the project.

PWWM submitted to SBD its contract measure recommendation for Disadvantage Business Enterprise (DBE) participation for this RPQ. SBD completed its Project Review and Analysis, and established a 28.00 percent DBE participation goal. A Community Workforce Program Goal was deemed not applicable to this RPQ.

On August 22, 2013, PWWM forwarded RPQ No. 20120156, utilizing the MCC 7360 Plan - CICC 7360-0/08 Contract, to a list of 130 pre-qualified firms. A total of two (2) firms purchased contract documents and five (5) firms proffered a bid.

On September 25, 2013, AGC Electric, Inc. proffered the lowest responsive and responsible base bid of $865,332.30, 12 percent above the County's cost estimate. The second lowest bidder, R & D Electric, Inc., proffered a base bid of $1,085,963.00, 40 percent above the County's cost estimate. The third lowest bidder, Statewide Electrical Services, Inc., proffered a base bid of $1,190,787.00, 54 percent over the County's cost estimate. Based on the results of the solicitation, PWWM issued a recommendation for award on November 7, 2013 for RPQ No. 20120156 to AGC Electric, Inc., with the stipulation that approval for this project must be obtained from the CITT and the BCC.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, equipment, and tools to perform all operations necessary to add/upgrade pedestrian indication heads and push buttons at signalized intersections, install school speed zone signs and flashing beacons, school crosswalk signs, pavement markings, sidewalks, and pedestrian ramps.

The purpose of this Project is to enable and encourage students in grades K through 8 to walk and/or bicycle to and from school; to make walking and bicycling to school safer and more appealing; and to facilitate the planning, development, and implementation of projects that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.
