This Contract Award Recommendation is placed for Committee review pursuant to Miami-Dade County Code Section 29-124(f). This Contract Award Recommendation may only be considered by the BCC if the Citizens' Independent Transportation Trust (CITT) has forwarded a recommendation to the BCC prior to the date scheduled for BCC consideration or forty-five (45) days have elapsed since the filing with the Clerk of the Board of this contract award recommendation. If the CITT has not forwarded a recommendation and forty-five (45) days have not elapsed since the filing of this award recommendation, I will request a withdrawal of this item.

A Local Agency Program (LAP) Agreement between Miami-Dade County and FDOT was approved under BCC Resolution No. R-218-12. The aforementioned Agreement provides the County, with up to \$74,637.00 in SRTS funds to reimburse the County, for the design and construction of safety related infrastructure improvements at two (2) schools located in Miami-Dade County. The LAP Agreement was extended an additional eight (8) months to allow construction to be completed by May 31, 2014.

Delegation of Authority

No additional authority is being requested within the body of this Contract.

Track Record/Monitor

AGC Electric, Inc. is currently performing work for PWWM at a satisfactory level. PWWM has reviewed the Capital Improvements Information System (CIIS) database and found 20 awarded construction contracts as follows:

- one (1) from the Internal Services Department, and
- 19 from PWWM.

The referenced database also lists a total of 19 contractor performance evaluations with an overall performance rating of 3.2 (satisfactory performance), out of a possible 4.0 (superior performance) rating. The Small Business Development Division (SBD) History of Violation's report lists no violations for this contractor.

According to the Florida Department of State, Division of Corporations, AGC Electric, Inc., Company Principals are Tomas V. Curbelo, Enrique Guzman and Pierrette De La Sierra and the Company's address is listed as 2660 West 79 Street, Hialeah, Florida 33016.

Following PWWM's standard operating procedures, after award of this Contract a pre-construction meeting will be scheduled. The person responsible for all PTP projects in PWWM is PTP Coordinator, Mr. Alejandro Martinez-Esteve, RA, LEED AP. Following completion of the award process, the project will be assigned to Mr. Oscar Rubio, Project Manager, for day-to-day responsibilities.

Background

As part of the PTP Neighborhood Improvements initiative, PWWM continues to take advantage of various contracting mechanisms such as the Miscellaneous Construction Contracting process available under the MCC 7360 Program. Through this process, PWWM forwards a Request for Price Quotation (RPQ), by way of facsimile transmission, to a pool of firms that have registered with the Internal Services Department for the respective trade. Additionally, PWWM advertises the project in the *Daily Business Review* and all solicitations are available on-line through the Miami-Dade County portal under the "Procurement Solicitations" link. The project's award evaluation is based upon the bid submitted by the lowest responsive, responsible bidder for the project.

PWWM submitted to SBD its contract measure recommendation for Disadvantage Business Enterprise (DBE) participation for this RPQ. SBD completed its Project Review and Analysis, and established a 33.00 percent DBE participation goal. A Community Workforce Program Goal was deemed not applicable to this RPQ.

On August 22, 2013, PWWM forwarded RPQ No. 20130001, utilizing the MCC 7360 Plan - CICC 7360-0/08 Contract, to a list of 130 pre-qualified firms. A total of three (3) firms purchased contract documents and four (4) firms proffered a bid.

On September 25, 2013, AGC Electric, Inc. proffered the lowest responsive and responsible base bid of \$47,989.00, 25 percent above the County's cost estimate. The second lowest bidder, Under Power Corp., proffered a base bid of \$59,937.00, 57 percent above the County's cost estimate. The third lowest bidder, R & D Electric, Inc., proffered a base bid of \$73,994.00, 93 percent over the County's cost estimate. Based on the results of the solicitation, PWWM issued a recommendation for award on November 7, 2013 for RPQ No. 20130001 to AGC Electric, Inc., with the stipulation that approval for this project must be obtained from the CITT and the BCC. PWWM, in concurrence with FDOT, is recommending this award with a submitted price which is 25 percent above the Engineer's estimate (\$9,722.00 difference). The unit prices submitted were increased by the bidder in a consistent manner to account for overhead costs typical on smaller contracts which still need to comply with all provisions on federally funded contracts. PWWM has found that the award of this contract will not result in a disadvantage to the County.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, equipment, and tools to perform all operations necessary to add/upgrade pedestrian indication heads and push buttons at signalized intersections, install school speed zone signs and flashing beacons, school crosswalk signs, pavement markings, sidewalks, and pedestrian ramps.

The purpose of this Project is to enable and encourage students in grades K through 8 to walk and/or bicycle to and from school; to make walking and bicycling to school safer and more appealing; and to facilitate the planning, development, and implementation of projects that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools. The County's Metropolitan Planning Organization works with the School Board Community Traffic Safety Team (CTST) to identify schools for Safe Routes to School funding. The selection process is supported by a system-wide prioritization of Elementary and K-8 schools that is based on five (5) factors: the number of students that currently walk to school, the number of students that live within a half-mile of the school, the number of traffic crashes involving a bicyclist or pedestrian near the school, the number of traffic crashes involving a juvenile pedestrian near the school, the traffic volume of the major street nearest the school, and the percent of households without a car near that school. The CTST uses that ranking to select schools for further study and funding.

To date, 54 schools have been approved as part of the Safe Routes to School Program, with improvements completed at 32 schools. Construction operations are scheduled to commence this year on an additional nine (9) schools, with the balance of schools in varying stages of the design process.
