RE: Amendment to 2011-14 Collective Bargaining Agreement with SEIU Local 1991 - Professionals: Gain Sharing Plan

Recommendation

It is recommended that the Public Health Trust Board of Trustees (PHT) approve this resolution recommending that the Miami-Dade Board of County Commissioners (BCC) amend the 2011-2014 Collective Bargaining Agreement among Miami-Dade County, The Public Health Trust and the Service Employees International Union, Local 1991 - Professionals (SEIU). This amendment will provide for an employee gain-sharing plan that would allow eligible employees to receive payroll payments based upon financial performance indicator results. Based on audited financial statements of the Public Health Trust for FY 2012-13, eligible bargaining-unit employees would receive a cash payout on the first full pay period after approval and ratification of this agreement in the amount of 2 percent of his or her total base pay for the 12-month period ended September 30, 2013. The calculation would exclude any premium pay, differentials, overtime, or other pay supplements.

Scope

The impact of this agenda item affects all full-time and part-time employees and eligible per diem employees of the Jackson Health System that are members of the SEIU Local 1991 - Professionals bargaining unit.

Fiscal Impact/Funding Source

The fiscal impact of this concession for Service Employees International Union (SEIU) Local 1991 – Professionals, would be \$936,446 for FY 2012-13. It would be funded from operating revenues as documented in the PHT financial statements. In no event would capital revenues – including proceeds from any general-obligation bond – be used to fund this program.

Track Record/Monitor

Monitoring of labor contracts and implementation of the gain-sharing program are overseen by Maria Huot-Barrientos, Senior Vice President and Chief Human Resources Officer.

Background

Last year, as a result of the remarkable professional commitment and financial sacrifices by Jackson Health System employees, the system earned a surplus of nearly \$45 million and dramatically beat its ambitious budget goal for FY 2012-13. It is a standard and well-accepted practice in successful companies to use employee gain-sharing programs to motivate staff, generate excitement, and create buy-in for individuals to act on their personal responsibility toward the institution's shared strategic goals. The proposed gain-sharing plan will also help Jackson continue to recruit and retain industry-leading healthcare professionals. Moreover, it is a fiscally responsible proposal that – unlike salary increases – does not impact Jackson's future salary or pension obligations.

Terms of Agreement

Article XXX –Empowerment Programs

On the first pay period after ratification of this proposal, members of the SEIU bargaining unit will receive a onetime, non-pensionable cash payout in the amount of two percent (2%) of their total base pay (excluding overtime, premium pay, differentials, etc.) for the 12 month period ending September 30, 2013. All regular full-time and part-time Bargaining Unit members hired prior to April 1, 2013, will be eligible for this onetime cash payout.
