Agenda Item No. 8(N)(1)

To: Honorable Chairwoman Rebeca Sosa
And Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: License Agreement Between Miami-Dade County and Florida Power and Light Company for the Long-term Use of Property Located on Kendall Drive and SW 127 Avenue for Use as a Transit Park and Ride Lot
Resolution No. R-430-14

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution approving and authorizing the execution of a License Agreement (Agreement) between Miami-Dade County (County) and Florida Power and Light Company (FPL) for the long-term use of property located on Kendall Drive at SW 127 Avenue for use as a park and ride lot.

This Agreement is placed for Committee review pursuant to Miami-Dade County Code, Section 25-124(f). The recommendation to approve and authorize the execution of this Agreement may only be considered by the Board if the Citizens' Independent Transportation Trust (CITT) has forwarded a recommendation to the Board prior to the date scheduled for Board consideration or forty-five (45) days have elapsed since the filing with the Clerk of the Board of the recommendation to approve and authorize the execution of this Agreement. If the CITT has not forwarded a recommendation and forty-five (45) days have elapsed since the filing of the recommendation to approve and authorize execution of the Agreement, I will request a withdrawal of this item.

Property

Property containing approximately 124,563 square feet located at the southeast quadrant of Kendall Drive (SW 88 Street) and SW 127 Avenue.

Commission District

Commission District 7 (Suarez)

Commission Districts Impacted

The property is located in District 7 but the impact is Countywide.

Owner

Florida Power and Light Company, a subsidiary of NextEra Energy, Inc., an investor owned utility company

Owner's Track Record

MDT has had a License Agreement with FPL since 2008 and the County has many agreements with FPL. The County has no record of performance issues with FPL.

Use

The property will be used as a park and ride lot with approximately 180 parking spaces for patrons using the Route 288, Kendall Enhanced Bus (Kendall Cruiser) and Route 88 which provides local bus service.

Justification

The property has been identified as a well situated location for a park and ride lot serving Routes 288 and 88.

License Term

The term of the Agreement is 30 years with two 30-year renewal options to be exercised upon mutual consent of the parties.

License Fee

The annual rent, which commences upon opening the park and ride lot to the public or October 1, 2015, whichever occurs first, is approximately \$140,750.00 per year. Rent payments will be adjusted subject to the Consumer Price Index (CPI). However, the Agreement provides that the adjustment cannot exceed 3% in any year. Additionally, the County will pay approximately \$14,700.00 per year to cover taxes and insurance, as required by the Agreement.

License Agreement Conditions

MDT will be responsible for constructing the park and ride lot, maintenance and security.

Financial Impact

The estimated operating and maintenance cost for the first year of the Agreement is as follows:

Rent	\$140,750.00
Taxes	\$11,000.00
Insurance	\$3,700.00
Maintenance	\$43,000.00
Security	<u>\$10,000.00</u>
Total Operating and Maintenance Costs	\$208,450.00

Design and construction costs of the park and ride lot are estimated at \$1.46 million.

Effective Dates

Agreement commences on July 1, 2014 and continues for 30 years, with two 30-year options to renew.

If the Agreement is terminated by FPL within the first thirty years, FPL will be required to reimburse the County for the undepreciated construction costs.

Funding Source

It is anticipated that the Florida Department of Transportation (FDOT) will participate up to 50% in the design and construction costs of the project. FDOT is, however, requiring the County to secure a fully executed License Agreement with FPL prior to providing such funding. The County expects to receive funding from FDOT for the design and construction of the parking lot in 2015. Local Option Gas Tax (LOGT) and/or Charter County Transit System Surtax funds will be used for the County's portion of the project costs. The cost of the Agreement will be budgeted in MDT's operating budget for FY 2014-15. The Index code is MT480100 and the Sub-object is 25511.

Monitoring

Background

As part of the People's Transportation Plan (PTP), several transit corridors have been identified where enhanced transit service would be implemented. These corridors have also been incorporated into the Comprehensive Development Master Plan (CDMP) for Miami-Dade County. Kendall Drive is one of those corridors.

A study of the Kendall corridor performed to identify cost-effective and efficient means to use capital investments and service improvements to strengthen transit connections between the west Kendall area and key regional activity centers during weekday peak rush hours determined that acquisition of land for a park and ride lot between SW 167 Avenue and Dadeland North Station to be a key component of the plan. MDT identified the property owned by FPL and located on Kendall Drive at SW 127 Avenue to be ideally situated for this purpose. This property, which is encumbered by electric transmission lines, is surrounded by commercial properties and is near several large retail and entertainment destinations. However, it is also situated near large, densely populated residential areas and should draw significant numbers of transit patrons from those areas.

In June 2010 MDT implemented the Kendall Cruiser (Route 288), a limited stop enhanced bus service with branded articulated hybrid buses, free Wi-Fi service, improved transit stops and increased frequency of service. MDT has also begun implementation of intelligent transportation system technology which provides traffic signal priority to buses. Through the use of this technology, the buses receive fewer red light signals thereby minimizing the effect of traffic congestion on the bus travel time. The positive effects of this technology will continue to increase as the implementation of the system progresses. This enhanced bus service is the first step in the process to eventually provide full Bus Rapid Transit (BRT) on the Kendall Drive transit corridor.

On November 20, 2008, by Resolution R1184-08 the Board declared the acquisition of this land to be a public necessity and authorized the County to take appropriate action to acquire the property.

MDT initially approached FPL to inquire into the possibility of entering into a long-term lease or the outright purchase of the property with permanent easement granted to FPL to allow the transmission lines to remain on the property. FPL responded that they would not consider selling the property under any conditions but would consider a license agreement which would allow the County use of the property for a park and ride lot. The attached Agreement was negotiated with FPL. Because of the presence of the transmission lines, which severely limit any additional use of the property, appraisals discounted the value of the property by approximately 75% percent. As a consequence, MDT has negotiated an advantageous lease price for the property in an area where the cost of acquiring property would otherwise likely be prohibitive.

Though the property is currently zoned EU-1, single-family one acre estate district, MDT was granted a use variance to permit a park and ride lot on this property by the Miami-Dade Community Zoning Appeals Board 11 through Resolution No. CZAB11-12-12 on July 25, 2012.

**CONSUMER PRICE MOVEMENTS
JANUARY 2013**

The Consumer Price Index for All Urban Consumers (CPI-U) was unchanged in January on a seasonally adjusted basis, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 1.6 percent before seasonal adjustment.

The index for all items less food and energy increased 0.3 percent in January. This increase offset another decline in the gasoline index and resulted in the seasonally adjusted all items index being unchanged, as it was last month. Increases in the indexes for shelter and apparel accounted for much of the increase in the index for all items less food and energy, with advances in the indexes for recreation, medical care, and airline fares also contributing.

The energy index fell 1.7 percent in January. Along with the gasoline index, the natural gas and fuel oil indexes also declined, while the electricity index increased. The index for food was unchanged in January after increasing in each of the previous ten months. The food at home index was unchanged with major grocery store food group indexes mixed.

The all items index increased 1.6 percent over the last 12 months; the 12-month change has been slowing since its recent peak of 2.2 percent in October. The index for all items less food and energy rose 1.9 percent over the last 12 months, the same figure as the last two months. The food index has risen 1.6 percent over the last 12 months while the energy index has declined 1.0 percent.

Please note the conditions under which said approval was granted, inasmuch as strict compliance therewith will be required. Each notice issued may require payment of a daily monetary fine.

If stipulated in the resolution that building permits and/or use, occupancy or completion certificates will be required, please note that permits must be obtained and final inspection approvals received for construction work done or required prior to issuance of the applicable certificate(s) pursuant to Section 33-8 of the Zoning Code. Payment of certificates may be subject to annual renewal by this Department. Application for required permits and/or certificates related to use, occupancy or completion should be made with this Department as appropriate. At time of permit application you must provide a copy of this resolution.

If there are anticipated changes from any plan submitted for the hearing, a plot use plan is to be submitted to this Department in triplicate before any detailed plans are prepared, in as much as building permits will not be issued prior to the approval of said plan.

The transmittal date is July 25, 2012. In the event an appeal is filed, any building permit sought shall be at the risk of the party seeking said permit.
