Agenda Item No. 3(B)(2)

Resolution No. R-719-14

Subject: Resolution Authorizing the Execution and Filing of Three Grant Applications with the United States Department of Transportation, Federal Transit Administration for \$77,098,927.00 in Fiscal Year 2014 Section 5307 Urbanized Formula; Section 5337 State of Good Repair Formula; and Section 5339 Bus and Bus Facilities Formula Program Funding

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) authorize the execution and filing of three grant applications on behalf of Miami-Dade County (County) with the United States Department of Transportation (USDOT), Federal Transit Administration (FTA) for \$77,098,927.00 in Fiscal Year (FY) 2014 Section 5307 Urbanized Formula program, Section 5337 State of Good Repair Formula program, and Section 5339 Bus and Bus Facilities Formula program funding. The total amount requested includes \$49,336,636.00 in Section 5307 Formula, \$22,788,376.00 in Section 5337 State of Good Repair and \$4,973,915.00 in Section 5339 Bus and Bus Facilities formula program funding.

It is further recommended that the Board authorize these grant applications pursuant to the agreements, as well as the receipt and expenditure of funds as specified in the agreements.

A public hearing is required in accordance with Federal regulations.

SCOPE

These funds will provide support for multiple bus and rail projects, Paratransit services and planning activities. Therefore, the impact of these grants is countywide.

FISCAL IMPACT/FUNDING SOURCE

This item represents a positive fiscal impact to the County because it provides funding to Miami-Dade Transit (MDT) and the required local match of \$19,274,732.00, will be provided in full by the Florida Department of Transportation (FDOT) through the use of State Transportation Development Credits (formerly referred to as toll revenue credits) as a "soft match" for these grants.

Under Section 1512 of the Moving Ahead for Progress in the 21st Century (MAP-21) bill signed into law, authorization is continued for State Transportation departments to make available to public transit agencies the use of transportation development credits on selected federally assisted public transit capital projects. By using the credits to substitute for the required non-federal share on a new Federal-aid project, the Federal share can effectively be increased to 100 percent.

TRACK RECORD/MONITOR

MDT has entered into numerous funding agreements with FTA over the course of 27 years. The Project Manager for this grant is Ed Carson, Grants Resource Manager, MDT Financial Services.

BACKGROUND

On July 6, 2012, the Moving Ahead for Progress in the 21st Century (MAP-21) bill was signed into law. Under MAP-21, the current formula programs include the Section 5307 Urbanized Area, 5337 State of Good Repair and Section 5339 Bus and Bus Facilities. The FTA annually publishes the apportioning funds appropriated by law for these formula grant programs. The Miami Urbanized Metropolitan Area received \$152,926,242.00 in Federal FY 2014 formula funds to be divided among the Urbanized Metropolitan Area (Miami-Dade, Broward, Palm Beach and the South Florida Regional Transportation Authority, SFRTA). The

amount of funding each agency receives is based upon the apportioned funds, information from the National Transit Database (NTD) and the appropriate formula established by the FTA. The agency Directors within the Urbanized Metropolitan Area mutually agree on the final apportionment to each agency. MDT received a combined total of \$77,098,927.00 for FY 2014 and as an eligible direct recipient of federal funding, will submit separate grant applications to the FTA for each formula program.

The Section 5307 Formula program, makes Federal funding available to urbanized areas for public transportation capital, planning, job access and reverse commute projects and use of certain expenditures by vanpool operators and operating assistance in areas with populations greater than 200,000 operating a maximum of 100 buses in fixed-route service during peak hours (rail fixed guideway excluded). For urbanized areas with populations of 200,000 and more, the formula is based on a combination of bus revenue vehicle miles, bus passenger miles, fixed guideway revenue miles, and fixed guideway route miles, as well as population, population density and number of low-income individuals. The proposed projects expected to be funded by the FY 2014 Section 5307 totals \$49,336,636.00, which includes:

- Capitalization of preventative maintenance
- Associated Transportation Improvements project (use of 1% program allocation required by FTA)
 - Purchase & installation of closed circuit televisions for Metrorail
- Public Transportation Security project (use of 1% program allocation required by FTA)
 - Purchase and installation of lighting at Metrorail stations
- Capital Planning
 - General development
 - Comprehensive
 - Short-range transportation
- Metrorail and Metromover cable and equipment replacement
- Paratransit (Special Transportation Services) capital cost for contracting
- Load Ratings and Structural Assessment of MDT Guideways – Phase 1
- South Florida Vanpool Services

Projects funded under the Section 5337 State of Good Repair Formula program are limited to replacement and rehabilitation of existing fixed guideway systems or capital projects required to maintain public transportation systems in a state of good repair. Funds are apportioned to urbanized areas with fixed guideway systems in operation for at least seven years and a new modified formula. The proposed projects expected to be funded by the FY 2014 Section 5337 totals \$22,788,376.00, which includes:

- Capitalization of preventative maintenance

The Section 5339 Bus and Bus Facilities Formula program provides funding to replace, rehabilitate and purchase buses and related equipment and construct bus-related facilities and use of certain expenditures by vanpool operators. The formula is based upon population, vehicle revenue miles and passenger miles. The proposed projects expected to be funded by the FY 2014 Section 5339 totals \$4,973,915.00, which includes:

- Metrobus Position Bike Racks
- Retrofit approximately 85 forty-foot buses with new electric engine cooling systems
- Bus Facilities Rehabilitation
- South Florida Vanpool Services

The total combined allocation of funding in the amount of \$77,098,927.00 reflects the maximum amount that the County will receive from the FY 2014 FTA Formula grants program appropriation.
