EXPLANATION: On June 9, 2014, WASD received two (2) bids for this project: Youngquist Brothers, Inc. in the amount of \$19,887,887.00, and Layne Christensen Company in the amount of \$21,621,639.22.

The solicitation required submittal of licenses and experience qualifications in a sealed envelope, and the bidder's proposal in another. Both bids were forwarded to MWH Americas, Inc., the design consultant, for evaluation.

On June 13, 2014, WASD received a letter from the Layne Christensen Company alleging deficiencies in Youngquist Brothers, Inc.'s submittal. On June 19, 2014, MWH Americas, Inc. provided an evaluation and a recommendation regarding the submittals entered by Youngquist Brothers, Inc. and Layne Christensen Company. Following consultation with MWH Americas, Inc. and the County Attorney's Office, the Department concluded that both submittals met the qualifications. As such, it is recommended that the project be awarded to the lowest responsible, responsive bidder, Youngquist Brothers, Inc., whose base bid is 1.9% below the base estimate.

The Internal Services Department's Capital Improvements Information System database contains one (1) evaluation for Youngquist Brothers, Inc. with an average overall rating of 3.8 points out of a possible 4 points, which is indicative of an above satisfactory performance.

Due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine responsibility, including verifying corporate status, and performance and compliance data. The lists reviewed include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to the contractors responsibility. This information is being provided pursuant to Resolution R-187-12.

BACKGROUND

BACKGROUND: As stated previously, this project is one in a series of projects related to the State of Florida's Ocean Outfall Legislation, Section 403.086(9) of the Florida Statutes, which regulates wastewater disposal/ocean outfalls. WASD owns and operates the Central District Wastewater Treatment Plant that disposes treated wastewater effluent through an ocean outfall pipeline.

The Ocean Outfall Legislation requires that discharges of domestic wastewater through ocean outfalls meet advanced wastewater treatment requirements no later than December 31, 2018. The requirement for advanced wastewater treatment can be met at the Central District Wastewater Treatment Plant by diverting the volume of total nitrogen and total phosphorus in the wastewater effluent from the ocean outfall by injecting it into the proposed deep injection wells. In addition, the industrial waste stream at the Central District Wastewater Treatment Plant resulting from groundwater remediation at the adjacent south property (the former Virginia Key Landfill) will also be disposed of in the deep injection wells to be constructed by this project.

The deep injection wells will be designed and constructed in accordance with Florida Administrative Code Rule 62-528, and will be permitted by the Florida Department of Environmental Protection. WASD currently has a permit for construction of the wells proposed by this project.
