Background

BACKGROUND:

Rapid population growth in the northwest area of Miami-Dade County and the increased traffic demand associated with the residential and industrial land uses along the project area have had an impact on the limited capacity of the roadway network. The existing five-lane undivided segment east of NW 87 Avenue is currently serving a limited industrial area near the Palmetto Expressway (SR-826).

This approximate one (1) mile segment does not have the capacity to handle projected traffic volumes to the west of NW 87 Avenue via the recently constructed arterial roadway to Homestead Extension of the Florida Turnpike (HEFT).

FDOT performed a Project Development and Environmental Study for evaluation of the existing portions of NW 74 Street, from NW 114 Ave to SR-826/Palmetto Expressway. The analysis determined that a six-lane typical section was required to meet the expected future travel demand of the corridor. The improvements along the NW 74 Street corridor were divided into three (3) segments. The segment from NW 107 Avenue to NW 87 Avenue has been constructed. This Project is the second of the three (3) segments of NW 74 Street between NW 114 Ave and NW 107 Ave. The third segment will improve NW 74 Street between NW 87 Avenue and SR-826 and will commence in 2015. Once construction of all segments is complete, NW 74 Street will be transferred to FDOT and will become State Road/SR-934.

The Public Works and Waste Management Department (PWWM), Contracts and Specifications Section (Contracts) completed its review of the subject Project for compliance with the Disadvantaged Business Enterprise (DBE) Program. The contract measure applicable to this Project is a 8.60% DBE Goal. There were a total of nine bids received. The apparent lowest, responsive, responsible bidder is Construct Group Corp., (CGC).

CGC submitted the required Anticipated DBE Participation Statement committing to utilize Florida Sol Systems Inc. (Florida Sol), a certified DBE firm, to perform the following subcontracted scopes of work: Highway Lighting and Traffic Signal (8.50%). Since CGC is also a certified DBE firm, they will perform the remaining balance of the 8.60% DBE Goal. The aforementioned DBE firms are listed on the Construction Contractors Bid Opportunity List confirming participation on this Florida Department of Transportation (FDOT) assisted contract. Florida Sol and CGC fulfill the DBE participation goal and are in compliance with the applicable requirements of the project solicitation.

Background:

Rapid population growth in the northwest area of Miami-Dade County, and the increased traffic demand associated with the residential and industrial land uses along the project area, have had an impact on the limited capacity of the roadway network. The existing five-lane undivided segment east of NW 87 Avenue is currently serving a limited industrial area near the Palmetto Expressway (SR-826).

This approximate one (1) mile segment does not have the capacity to handle projected traffic volumes once connectivity to the west of NW 87 Avenue has been attained via the recently constructed arterial roadway to Homestead Extension of the Florida Turnpike (HEFT).

FDOT had performed a Project Development and Environmental Study for evaluation of the existing portions of NW 74 Street, from NW 114 Ave to SR-826/Palmetto Expressway. The analysis determined that a six-lane typical section was required to meet the expected future travel demand of the corridor. The NW 74 Street corridor was divided into three (3) segments. The segment from NW 107 Avenue to NW 87 Avenue has been constructed. This Project is the second of the three (3) segments of NW 74 Street between NW 114 Ave and NW 107 Ave. Once construction of all segments is complete, NW 74 Street will be transferred to FDOT, and will become State Road/SR-934.

Memorandum

Date: October 2, 2012
To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

Agenda Item No. 8(I)(5)

From: Carlos A. Gimenez
Mayor 

Resolution No. R-792-12

Subject: Local Agency Program Agreement Between Miami-Dade County and the Florida Department of Transportation to Provide the County with Funding up to \$6,720,517 for the Construction of Roadway Improvements Along NW 74 Street from NW 114 Avenue to NW 107 Avenue and Authorizing the Use of Charter County Transportation Surtax Funds

RECOMMENDATION

It is recommended that the Board of County Commissioners (BOC) approve the attached Resolution authorizing the execution of a Local Agency Program (LAP) Agreement between Miami-Dade County (County) and the Florida Department of Transportation (FDOT) to provide the County with funding up to \$6,720,517 for the construction of NW 74 Street from NW 114 Avenue to NW 107 Avenue (Project). This Agreement requires that a local funding source provide upfront funding for the Project, to be reimbursed. The Public Works and Waste Management Department (PWWM) is proposing to provide the upfront funds from proceeds collected through the Charter County Transportation Surtax (Surtax). As such, approval by the Citizens' Independent Transportation Trust (CITT) is required prior to the execution of this LAP Agreement.

SCOPE

The Project is located within the City of Doral, in Commission District 12.

FISCAL IMPACT/FUNDING SOURCE

The total estimated construction cost for the Project is \$6,720,517. The County will provide upfront funding for the Project, with the full amount to be reimbursed by FDOT. The County's upfront funding for the Project will be derived from Surtax funds. The Project is a component of the NW 74 Street project included in the Major Highway and Road Improvements portion of Exhibit 1 in the People's Transportation Plan (PTP) Ordinance. The funding index code for this Project is CPEPTR612748.

DELEGATION OF AUTHORITY

No additional authority is being requested within the body of this contract.

TRACK RECORD/MONITOR

The Project will be assigned to Mr. Bassam Moubayed, CFM, Chief, PWWM Construction Division, who will oversee inspections conducted by PWWM staff.

BACKGROUND

The construction of a new four (4) lane roadway along NW 74 Street, from the Homestead Extension of the Florida Turnpike (HEFT) to NW 82 Avenue, was originally included in the PTP Ordinance under Board Requested Projects within Commission District 12. On May 9, 2006, the BOC approved an amendment to the PTP to revise the scope of the NW 74 Street project under Resolution R-531-06. The NW 74 Street project now consists of six (6) lanes, from the HEFT to State Road (SR) 826. This decision was made in partnership with FDOT in order to provide a proper link from the Palmetto Expressway/SR 826 to the HEFT.

Honorable Chairman Joe A. Martínez
and Members, Board of County Commissioners
Page 2

The County agreed to build the six (6) lane roadway in three (3) segments. The first segment, from NW 107 Avenue to NW 87 Avenue, was completed in September 2010. This Agreement provides for the second segment and will entail the widening of the roadway from NW 114 Avenue to NW 107 Avenue. Construction of the third segment will widen NW 74 Street between NW 87 Avenue and SR 826.

The overall Project includes widening the existing roadway, sidewalks, curb and gutter, a storm drainage system, pavement markings and signing, traffic signalization, roadway lighting, a noise wall, landscaping, and irrigation. Design of the Project has been completed by PWWM and construction is anticipated to begin by January 2014.

THIS AGREEMENT, made and entered into this _____ day of _____, by and between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, an agency of the State of Florida, hereinafter called the Department, and MIAMI-DADE COUNTY PUBLIC WORKS AND WASTE MANAGEMENT DEPARTMENT, hereinafter called the Agency,

WITNESSETH

WHEREAS, the Agency has the authority to enter into this Agreement and to undertake the project hereinafter described, and the Department has been granted the authority to function adequately in all areas of appropriate jurisdiction including the implementation of an integrated and balanced transportation system and is authorized under Section 339.12, Florida Statutes, to enter into this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants, promises and representations herein, the parties agree as follows:

1.00 Purpose of Agreement: The purpose of this Agreement is to provide for the Department's participation in NW 74 Street from NW 114 Avenue to NW 107 Avenue and as further described in Exhibit "A" attached hereto and by this reference made a part hereof, hereinafter called the "project" and to provide Department financial assistance to the Agency and state the terms and conditions upon which such assistance will be provided and the understandings as to the manner in which the project will be undertaken and completed.

1.01 Attachments: Exhibit(s) "A" & "B" are attached and made a part hereof.

2.01 General Requirements: The Agency shall complete the project as described in Exhibit "A" with all practical dispatch, in a sound, economical, and efficient manner, and in accordance with the provisions herein, and all applicable laws. The project will be performed in accordance with all applicable Department procedures, guidelines, manuals, standards, and directives as described in the Department's Local Agency Program Manual, which by this reference is made a part hereof as if fully set forth herein. Time is of the essence as to each and every obligation under this Agreement.

A full-time employee of the Agency, qualified to ensure that the work being pursued is complete, accurate, and consistent with the terms, conditions, and specifications of this Agreement shall be in charge of each project.

Inactivity and Removal of Any Unbilled Funds

Once the Department issues a Notice to Proceed (NTP) for the Project, the Agency shall be obligated to submit an invoice or other request for reimbursement to the Department for all work completed for the Project no less frequently than on a quarterly basis, beginning from the day the NTP is issued. If the Agency fails to submit quarterly (or more frequently than quarterly) invoices to the Department as required herein and in the event said failure to timely submit invoices to the Department results in FHWA removing any unbilled funding or in the loss of State appropriation authority (which may include the loss of state and Federal funds, if there are state funds programmed to the Project), then the Agency will be solely responsible to provide all funds necessary to complete the Project and the Department will not be obligated to provide any additional funding for the Project. This Agency waives the right to contest such removal of funds by the Department if the removal is related to FHWA's withdrawal of funds or if the removal is related to the loss of State

appropriation authority. In addition to the loss of funding for the Project, the Department will also consider the de-certification of the Agency for future LAP projects.

Removal of All Funds

If all funds are removed from the project, including amounts previously billed to the Department and reimbursed to the Agency, and the project is off the state highway system, then the department will have to request repayment for the previously billed amounts from the Local Agency. No state funds can be used on off-system projects.

2.02 Expiration of Agreement: The Agency agrees to complete the project on or before June 30, 2018. If the Agency does not complete the project within this time period, this Agreement will expire on the last day of the scheduled completion as provided in this paragraph unless an extension of the time period is requested by the Agency and granted in writing by the Department prior to the expiration of this Agreement. Expiration of this Agreement will be considered termination of the project. The cost of any work performed after the expiration date of this Agreement will not be reimbursed by the Department.

2.03 Pursuant to Federal, State, and Local Laws: In the event that any election, referendum, approval, permit, notice or other proceeding or authorization is requisite under applicable law to enable the Agency to enter into this Agreement or to undertake the project hereunder or to observe, assume or carry out any of the provisions of the Agreement, the Agency will initiate and consummate, as provided by law, all actions necessary with respect to any such matters so requisite.

2.04 Agency Funds: The Agency shall initiate and prosecute to completion all proceedings necessary, including federal aid requirements, to enable the Agency to provide the necessary funds for completion of the project.

2.05 Submission of Proceedings, Contracts, and Other Documents: The Agency shall submit to the Department such data, reports, records, contracts, and other documents relating to the project as the Department and the Federal Highway Administration (FHWA) may require. The Agency shall use the Department's Local Agency Program Information Tool and applicable information systems as required.

3.00 Project Cost:

3.01 Total Cost: The total cost of the project is \$6,720,517. This amount is based upon the schedule of funding in Exhibit "B." The Agency agrees to bear all expenses in excess of the total cost of the project and any deficits involved. The schedule of funding may be modified by mutual agreement as provided for in paragraph 4.00.

3.02 Department Participation: The Department agrees to participate in the project cost to the extent provided in Exhibit "B." This amount includes federal aid funds which are limited to the actual amount of federal aid participation.

3.03 Limits on Department Funds: Project costs eligible for Department participation will be allowed only from the date of this Agreement. It is understood that Department participation in eligible project costs is subject to:

- a) Legislative approval of the Department's appropriation request in the work program year that the project is scheduled to be committed;
- b) Availability of funds as stated in paragraphs 3.04 and 3.05 of this Agreement;
- c) Approval of all plans, specifications, contracts, or other obligating documents and all other terms of this Agreement; and
- d) Department approval of the project scope and budget at the time appropriation authority becomes available.

3.04 Appropriation of Funds: The Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. If the Department's funding for this project is in multiple fiscal years, funds approval from the Department's Comptroller must be received each fiscal year prior to costs being incurred. See Exhibit "B" for funding levels by fiscal year. Project costs utilizing these fiscal year funds are not eligible for reimbursement if incurred prior to funds approval being received. The Department will notify the Agency, in writing, when funds are available.

3.05 Multi-Year Commitment: In the event this Agreement is in excess of \$25,000 and has a term for a period of more than one year, the provisions of Section 349.136(6)(a), Florida Statutes, are hereby incorporated.

"(a) The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years, and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of \$25,000 and which have a term for a period of more than 1 year."

3.06 Notice-to-Proceed: No cost may be incurred under this Agreement until the Agency has received a written Notice-to-Proceed (NTP) from the Department. The Agency agrees to advertise or put the project out to bid thirty (30) days from the date the Department issues the NTP to advertise the project. If the Agency is not able to meet the scheduled advertisement, the District LAP Administrator should be notified as soon as possible.

3.07 Limits on Federal Participation: Federal aid funds shall not participate in any cost which is not incurred in conformity with applicable Federal and State laws, the regulations in 26 Code of Federal Regulations (C.F.R.) and 49 C.F.R., and policies and procedures prescribed by the Division Administrator of FHWA. Federal funds shall not be paid on account of any cost incurred prior to authorization by the FHWA to the Department to proceed with the project or part thereof involving such cost (23 C.F.R. 1.9 (a)). If FHWA or the Department determines that any amount claimed is not eligible, Federal participation may be approved in the amount determined to be adequately supported and the Department shall notify the Agency in writing citing the reasons why items and amounts are not eligible for federal participation. Where correctable non-compliance with provisions of law or FHWA requirements exists, Federal funds may be withheld until compliance is obtained. Where non-compliance is not correctable, FHWA or the Department may deny participation in parcel or project costs in part or in total.

For any amounts determined to be ineligible for federal reimbursement for which the Department has advanced payment, the Agency shall promptly reimburse the Department for all such amounts within 90 days of written notice.

4.00 Project Estimate and Disbursement Schedule: Prior to the execution of this Agreement, a project schedule of funding shall be prepared by the Agency and approved by the Department. The Agency shall maintain said schedule of funding, carry out the project and shall incur obligations against and make disbursements of project funds only in conformity with the latest approved schedule of funding for the project. The schedule of funding may be revised by mutual written agreement between the Department and the Agency. If revised, a copy of the revision should be forwarded to the Department's Comptroller and to the Department's Federal Aid Program Office. No increase or decrease shall be effective unless it complies with fund participation requirements of this Agreement and is approved by the Department's Comptroller.

5.00 Records:

5.01 Establishment and Maintenance of Accounting Records: Records of costs incurred under the terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for 5 years after the final payment is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred include the Agency's general accounting records and the project records, together with supporting documents and records of the Agency and all subcontractors performing work on the project and all other records of the Agency and subcontractors considered necessary by the Department for a proper audit of costs. If any litigation, claim or audit is started before the expiration of the 5-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.

5.02 Costs Incurred for Project: The Agency shall charge to the project account all eligible costs of the project except costs agreed to be borne by the Agency or its contractors and subcontractors. Costs in excess of the programmed funding or attributable to actions which have not received the required approval of the Department shall not be considered eligible costs.

5.03 Documentation of Project Costs: All costs charged to the project, including any approved services contributed by the Agency or others, shall be supported by properly executed payrolls, time records, invoices, contracts or vouchers evidencing in proper detail the nature and propriety of the charges.

5.04 Audit Reports: Recipients of federal and state funds are to have audits done annually using the following criteria:

The administration of resources awarded by the Department to the Agency may be subject to audits and/or monitoring by the Department, as described in this section.

Monitoring: In addition to reviews of audits conducted in accordance with OMB Circular A-133 and Section 215.07, Florida Statutes, as revised (see "Audits" below), monitoring procedures may include, but not be limited to, on-site visits by Department staff, limited scope audits, as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. In the event the Department determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department staff to the Agency regarding such audit. 1. In the event that the recipient expends \$500,000 or more in federal awards in its fiscal year, the recipient must have a single or program specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department. The determination of amounts of federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the recipient conducted by the Auditor General in accordance with the provisions OMB Circular A-133, as revised, will meet the requirements of this part.

3. If the recipient expends less than \$500,000 in federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. However, if the recipient elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than federal entities).
4. Federal awards are to be identified using the Catalog of Federal Domestic Assistance (CFDA) title and number, award number and year, and name of the awarding federal agency.

Part II - State Funded: Recipients of state funds (i.e., a non-state entity as defined by Section 215.07(2) (f), Florida Statutes) are to have audits done annually using the following criteria:

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of \$500,000 in any fiscal year of such recipient, the recipient must have a state single or project specific audit for such fiscal year in accordance with Section 215.07, Florida Statutes, applicable rules of the Executive Office of the Governor and the CFO, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. Exhibit "1" to this Agreement indicates state financial assistance awarded through the Department by this Agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department, other state agencies, and other non-state entities. However, notwithstanding any other provision of this Agreement, the Department may elect by notice in writing not to make a payment if:

7.01 Misrepresentation: The Agency shall have made misrepresentation of a material nature in its application, or any supplement thereto or amendment thereof or in or with respect to any document of data furnished therewith or pursuant hereto;

(a) If the Department determines that the performance of the Agency is not satisfactory, the Department shall notify the Agency of the deficiency in writing with a requirement that the deficiency be corrected within thirty (30) days of such notice. Such notice shall provide reasonable specificity to the Agency of the deficiency that requires correction. If the deficiency is not corrected within such time period, the Department may either (1) immediately terminate the Agreement as set forth in paragraph 8.(b) below, or (2) take whatever action is deemed appropriate by the Department to correct the deficiency. In the event the Department chooses to take action and not terminate the Agreement, the Agency shall, upon demand, promptly reimburse the Department for any and all costs and expenses incurred by the Department in correcting the deficiency.

(b) If the Department terminates the Agreement, the Department shall notify the Agency of such termination in writing, with instructions to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.

(c) If the Agreement is terminated before the project is completed, the Agency shall be paid only for the percentage of the project satisfactorily performed for which costs can be substantiated. Such payment, however, shall not exceed the equivalent percentage of the contract price. All work in progress will become the property of the Department and will be turned over promptly by the Agency.

8.02 Action Subsequent to Notice of Termination or Suspension: Upon receipt of any final termination or suspension notice under this paragraph, the Agency shall proceed promptly to carry out the actions required therein which may include any or all of the following: (a) necessary action to terminate or suspend, as the case may be, project activities and contracts and such other action as may be required or desirable to keep to a minimum the costs upon the basis of which the financing is to be computed; (b) furnish a statement of the project activities and contracts and other undertakings the cost of which are otherwise includable as project costs. The termination or suspension shall be carried out in conformity with the latest schedule, plan, and cost as approved by the Department or upon the basis of terms and conditions imposed by the Department upon the failure of the Agency to furnish the schedule, plan, and estimate within a reasonable time. The closing out of federal financial participation in the project shall not constitute a waiver of any claim which the Department may otherwise have arising out of this Agreement.

9.00 Contracts of Agency:

9.01 Third Party Agreements: Except as otherwise authorized in writing by the Department, the Agency shall not execute any contract or obligate itself in any manner requiring the disbursement of Department funds, including consultant or construction contracts or amendments thereto, with any third party with respect to the project without the written approval of the Department. Failure to obtain such approval shall be sufficient cause for nonpayment by the Department. The Department specifically reserves unto itself the right to review the qualifications of any consultant or contractor and to approve or disapprove the employment of the same.

9.02 Compliance with Consultants' Competitive Negotiation Act: It is understood and agreed by the parties hereto that participation by the Department in a project with the Agency, where said project involves a consultant contract for engineering, architecture or surveying services, is contingent on the Agency's complying in full with provisions of Section 287.055, Florida Statutes, Consultants' Competitive Negotiation Act. At the discretion of the Department, the Agency will involve the Department in the consultant selection process for all projects. In all cases, the Agency's attorney shall certify to the Department that selection has been accomplished in compliance with the Consultants' Competitive Negotiation Act.

Furthermore, the Agency agrees that:

(a) Each financial assistance agreement signed with a US DOT operating administration (or a primary recipient) must include the following assurance:

"The recipient shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 C.F.R. Part 26. The recipient shall take all necessary and reasonable steps under 49 C.F.R. Part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 C.F.R. Part 26 and as approved by Department, is incorporated by reference in this Agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this Agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 C.F.R. Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.)."

The contractor shall carry out applicable requirements of 49 C.F.R. Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate."

11.00 Compliance with Conditions and Laws: The Agency shall comply and require its contractors and subcontractors to comply with all terms and conditions of this Agreement and all federal, state, and local laws and regulations applicable to this project. Execution of this Agreement constitutes a certification that the Agency is in compliance with, and will require its contractors and subcontractors to comply with, all requirements imposed by applicable federal, state, and local laws and regulations, including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," in 49 C.F.R. Part 29, when applicable.

12.00 Restrictions, Prohibitions, Controls, and Labor Provisions:

12.01 Equal Employment Opportunity: In connection with the carrying out of any project, the Agency shall not discriminate against any employee or applicant for employment because of race, age, religion, color, sex, national origin, disability or marital status. The Agency will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, age, religion, color, gender, national origin, disability or marital status. Such action shall include, but not be limited to, the following: employment upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Agency shall insert the foregoing provision modified only to show the particular contractual relationship in all its contracts in connection with the development or operation of the project, except contracts for the standard commercial supplies or raw materials; and shall require all such contractors to insert a similar provision in all subcontracts, except subcontracts for standard commercial supplies or raw materials. When the project involves installation, construction, demolition, removal, site improvement or similar work, the Agency shall post in conspicuous places available to employees and applicants for employment for project work, notices to be provided by the Department setting forth the provisions of the nondiscrimination clause.
