EXPLANATION: This project was advertised on April 10, 2014, and on May 14, 2014, six (6) engineering contractor firms proffered bids for the referenced project, and the three (3) lowest responsive and responsible bids were as follows: the lowest bidder, JVA Engineering Contractors, Inc., proffered a base bid of $6,449,154.22, 19 percent above the County's cost estimate; the second lowest bidder, Metro Express, Inc., proffered a base bid of $6,820,756.33,

25 percent above the County's cost estimate; and the third lowest bidder, Maytin Engineering Corp., proffered a base bid of $7,293,268.90, 34 percent above the County's cost estimate.

The difference between the Engineer's estimate and the lowest bid was a result of the time period between when the estimate was provided to FDOT as part of the LAP Agreement approval and the eventual receipt of bids.

JVA Engineering Contractors, Inc. is currently performing work for PWWM at a satisfactory level. PWWM has reviewed the Capital Improvements Information System (CIIS) database and found 35 awarded construction contracts from each of the following departments:

- one (1) from Parks, Recreation and Open Spaces,
- nine (9) from Seaport,
- 20 from Water and Sewer, and
- five (5) from PWWM.

The referenced database also lists a total of 23 contractor performance evaluations with an overall performance rating of 3.4 (satisfactory performance).

As such, PWWM recommends that JVA Engineering Contractors, Inc., the lowest responsive, responsible bidder, be awarded the subject Contract for the sum of $7,190,569.64.

Following PWWM's standard operating procedures, after award of this contract, a pre-construction meeting will be scheduled. The person responsible for all PTP projects in PWWM is Mr. Alejandro Martinez-Esteve, RA, LEED AP, Manager, Capital Improvements section. Following completion of the award process, the project will be assigned to Mr. Rakeshpal Gill, Project Manager, for day to day responsibilities.

This project is federally funded and is guided under 49 C.F.R. 26.13, where local agencies are required to have a signed policy statement expressing their commitment to DBE participation. As per Local Agency Program Manual, 14.2.2 Overall DBE Goal, FDOT is required to set overall DBE goals every three (3) years. The overall FDOT DBE goal for Federal Fiscal Years (FFY) 2015-2017 is 9.91%, effective October 1, 2014. (The goal for fiscal years 2012-2014 was 8.60%.) FDOT aspires to spend 9.91% of FHWA funds on projects with Certified DBEs as prime contractors/subcontractors and prime consultants/subconsultants. The goal is not a contractual requirement and neither FDOT nor Local Agencies in

the LAP program may take sanctions or other punitive actions for failure of contractor(s) to meet the 9.91% goal. However, FDOT strongly encourages contractors to seek out, solicit bids/quotes and use DBEs wherever possible, and it expects Local Agencies in LAP do likewise.

BACKGROUND:

Rapid population growth in the northwest area of Miami-Dade County, and the increased traffic demand associated with the residential and industrial land uses along the project area, have had an impact on the limited capacity of the roadway network. The existing five-lane undivided segment east of NW 87 Avenue is currently serving a limited industrial area near the Palmetto Expressway (SR-826). This approximate one (1) mile segment of roadway does not have the capacity to handle projected traffic volumes for the area.

FDOT performed a Project Development and Environmental Study for evaluation of the existing portions of NW 74 Street, from NW 114 Ave to SR-826/Palmetto Expressway. The analysis determined that a six-lane typical section was required to meet the expected future travel demand of the corridor.

The NW 74 Street corridor was divided into three (3) segments. The first segment, NW 107 Avenue to NW 87 Avenue, has been constructed. The second segment, NW 114 Avenue to NW 107 Avenue, is currently in the contract award process. This project is the third of the three (3) segments that will improve NW 74 Street between NW 87 Avenue and SR-826. Once construction of all segments is complete, NW 87 Avenue and SR-826 will be transferred to FDOT, and will become State Road/SR-934.
