

Memorandum

Date: September 16, 2015
To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

Agenda Item No. 8(F)(2)

From: Carlos A. Gimenez
Mayor

Subject: Recommendation for Approval of a Legacy Purchase under Contract No. RFP403,
Juvenile/Adult Photo Imaging System

Resolution No. R-768-15

Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request for a legacy purchase under *Contract No. RFP403, Juvenile/Adult Photo Imaging System* for the Information Technology Department. This purchase is for two (2) years and \$445,000 in expenditure authority. The Photo Imaging System (System) is utilized by various County departments to digitize mugshots, populate arrest data and share criminal background history with law enforcement agencies. It enables the expeditious processing of inmates (in a minute or less) by capturing front and side images without entering booking information.

The contract was competitively established in March 2005 and awarded to DataWorks Plus, LLC. Since then, the System has been customized by the vendor (e.g., the addition of applications, databases and investigative functionalities) to meet the County's needs. The current System is highly complex and can only be maintained and supported by DataWorks as it is the vendor's proprietary product. Accordingly, competition is unavailable and impracticable for the current System.

A legacy purchase is recommended to provide the Information Technology Department the time required to complete a full requirements review and consider a long-term solution that best meets the County's needs. During this period, the Information Technology Department will continue to research if the best option for the County is to recommend a successor legacy contract award or issue a solicitation for a System not proprietary to and customized by the current vendor, if it is determined that such competition exists. The requested allocation will ensure continuity of services for ongoing maintenance and support for user departments, including required software and hardware upgrades. Therefore, pursuant to Section 2-8.1(b)(2) of the County Code, it is in the County's best interest to approve this legacy purchase.

As a result of the countywide information technology consolidation, which includes the merging of information technology contracts, the Information Technology Department manages the operational needs under *Contract No. RFP403* on behalf of the PortMiami, Police, Corrections and Rehabilitation, and Juvenile Services departments. Currently, these user departments each have an allocation under the contract. Upon approval of this item by the Board, the various department allocations under *Contract No. RFP 403*, including this legacy purchase, will be consolidated under one (1) allocation for the Information Technology Department. The one (1) countywide allocation will allow the Information Technology Department to better utilize resources under the contract.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The requested allocation of \$445,000 is based on the services to be delivered under the legacy purchase during the two-year term for the departments in the table below.

Department	Allocation	Funding Source	Contract Manager
Corrections and Rehabilitation	\$47,000	General Fund	Mohammed Haq
Juvenile Services	17,000	General Fund	Cindy Akerman
Police	381,000	General Fund	Joy Stewart
Total	\$445,000
