Resolution No. R-46-16

Recommendation

It is recommended that the Board of County Commissioners adopt the attached resolution approving an Off-System Construction and Maintenance Agreement between Miami-Dade County and the Florida Department of Transportation (FDOT) for the construction of improvements along West Flagler Street from 180 feet west and 250 feet east of SR 985/SW 107 Avenue.

Fiscal Impact/Funding Source

The project is estimated to cost $300,000.00 and will be built by FDOT with state funds. The County is required to provide maintenance operations upon completion of the project, which is included in the Miami-Dade County Department of Public Works and Waste Management (PWWM) operating cost. The annual maintenance cost for the additional improvements stipulated under this Agreement is estimated at $339.44 and will be funded through the DTPW General Fund allocation ($237.66 for Index Code PW338475) and Storm Water Utility allocation ($101.78 for Index Code PWESUDRAIN).

Track Record/Monitor

The project will be assigned to Mr. Bassam Moubayed, CFM, Chief of the Construction Division, PWWM, who will be responsible for monitoring this project for the County.

Background

FDOT is currently working on the SR 985/SW 107 Avenue Roadway Improvements Project from the SW 1100 Block to north of West Flagler Street. The project consists of two (2) segments. The first segment is from the SW 1100 Block to SW 3 Street and the second segment is from SW 3 Street to north of West Flagler Street. The second segment includes widening SW 107 Avenue to add an additional lane in northbound and southbound directions. As part of the proposed improvements, FDOT is constructing roadway elements for a few hundred feet along West Flagler Street, west and east of SW 107 Avenue, within the County's right-of-way. These improvements are necessary in order to construct the intersection at West Flagler Street and SW 107 Avenue.

The improvements to be constructed include, but may not be limited to, milling and resurfacing, overbuild, upgrading drainage, replacement of sidewalk, replacement of curb

and gutter, replacement of a traffic separator, signalization construction, and signing and pavement markings. Construction of the improvements is scheduled to commence in June 2016.
