

Memorandum

(Public Hearing 4-19-16)

Date: February 17, 2016

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

Agenda Item No. 5(F)

From: Carlos A. Gimenez
Mayor

Subject: Proposed Zoning Ordinance Amending the Naranja Community Urban Center
Zoning District – Zoning Hearing Application No. Z15-082, LVS Naranja, LLC

Ordinance No. 16-41

Attached please find materials related to a zoning application filed in accordance with Section 33-284.89.3 of the Code of Miami-Dade County regarding "Amendments to Urban Center District Land Use Plan Category or Other Regulating Plan." The material consists of a proposed ordinance containing the applicant's revisions to the Naranja Community Urban Center District regulating plans and related text as well as the Department of Regulatory and Economic Resources staff report. This item is quasi-judicial.

The proposed ordinance creates no fiscal impact to Miami-Dade County and is not anticipated to have a specific social equity benefit or burden as described by Ordinance No. 15-83, given that the proposed changes are compatible with the surrounding area.

Attachment

Jack Osterholt
Deputy Mayor

**Miami-Dade County Department of Regulatory and Economic Resources
Staff Report to the Board of County Commissioners**

Z15-082

Recommendation Summary for Naranja Community Urban Center District (NCUCD)	
Commission District	8
Applicant	LVS Naranja, LLC.
Summary of Requests	This application is to update the Land Use and Density Regulating Plans of the Naranja Community Urban Center District (NCUCD) to: (1) change the designation of the subject property from R, Residential, to RM, Residential Modified; (2) change the allowed density from a range of 6 to 18 units/acre net to a density range of 12 to 36 units/acre net; (3) re-designate the subject property from Edge Sub-District to Center Sub-District; and (4) amend the height from a maximum of two stories to a range of two stories (minimum) to four stories (maximum).
Location	Generally located south of SW 264 Street, west of SW 146 Court, and north of Old Dixie Highway, Miami-Dade County, Florida.
Property Size	±9.8 acres
Existing Zoning	Naranja Community Urban Center District (NCUCD)
Existing Land Use	Residential, Agriculture
2015-2025 CDMP Land Use Designation	Urban Center (see attached Zoning Recommendation Addendum)
Comprehensive Plan Consistency	Consistent with interpretative text, goals, objectives and policies of the CDMP
Applicable Zoning Code Section(s)	Section 33-284.89.3 Amendments to Urban Center District Land Use Plan Category or Other Regulating Plan (see attached Zoning Recommendation Addendum)
Recommendation	Approval

REQUEST:

MODIFICATION of the Land Use and Density Regulating Plans of the **Naranja Community Urban Center District (NCUCD)** to change the designation of the subject property from R, Residential, to RM, Residential Modified, change the allowed density from a range of 6 to 18 units/acre net to a density range of 12 to 36 units/acre net, re-designate the subject property from Edge Sub-District to Center Sub-District; and amend the height from a maximum of two stories to a range of two stories (minimum) to four stories (maximum).

PROPERTY HISTORY & DESCRIPTION:

The subject property consists of two adjoining parcels generally located south of SW 264th Street, west of SW 146th Court, and north and west of the South Dade Busway. The respective folios are 30-6933-000-0010 and 30-6933-000-0011. The parcels are currently in residential and agricultural use.

On December 2, 2004 the Board of County Commissioners (BCC) adopted Ordinance No. 04-217 establishing the **Naranja Community Urban Center District (NCUCD) Regulations**. The NCUCD provides the regulatory framework for all development within the Naranja area of southeastern Miami-Dade County. The properties within NCUCD boundaries were rezoned to NCUCD on May 19, 2005, pursuant to Resolution No. Z-13-05. The NCUCD regulations have

subsequently been amended in 2005, 2006, 2007 and 2015. NCUCD, as well as most of the other Urban Center Districts, rely on the Standard Urban Center District Regulations for the basic regulatory framework.

The subject property is currently designated R, Residential, and RM, Residential Modified, on the NCUCD's land use regulating plan and assigned a residential density range of 6 to 18 dwelling units per acre, for the R portion, and 12 to 36 dwelling units per acre for the RM portion. Approval of the applicant's request would result in a unified land use designation and density range for the entire property.

NEIGHBORHOOD CHARACTERISTICS		
	Zoning	Land Use Designation
Subject Property	NCUCD - R - Residential RM - Residential Modified	Community Urban Center
North	AU - Agricultural	Agriculture
South	NCUCD - R - Residential RM - Residential Modified MD - Market District	Community Urban Center
East	NCUCD - RM - Residential Modified MC - Mixed-Use Corridor	Community Urban Center
West	NCUCD - R - Residential	Community Urban Center

RECOMMENDATION:

In staff's opinion, the modification of the NCUCD land use and density regulating plans for the subject property would provide uses and density similar to those permitted on properties located to the east and southeast, which are currently designated as RM, Residential Modified, on the NCUCD Land Use Regulating Plan and assigned a density range of 12 to 36 units/acre net on the NCUCD Density Regulating Plan.

Staff notes that in order to accommodate the applicant's request for the RM land use designation or the proposed density range, additional changes to the NCUCD regulating plans are warranted. Specifically, the Sub-District and the Building Heights Regulating Plans of the NCUCD need to be updated so that the portion of the property being re-designated is made consistent with that already designated RM. In essence, the Sub-District Regulating Plan would require an update so that the western portion of the property is re-designated from the Edge Sub-District to the Center Sub-District and the Building Heights Regulating Plan from a maximum of two stories to a range of two stories (minimum) to four stories (maximum). The Center Sub-District re-designation and the additional height are required in order to accommodate the RM typical building type and the additional density.

The proposed changes are **consistent** with the "Policies for Development of Urban Centers" of the Comprehensive Development Master Plan (CDMP). The subject property lies within the Community Urban Center maximum radius (1,800 feet to 2,640 feet) and within a five-minute walk of the Busway station. The additional density and intensity are also **consistent** with and supportive of the transit- and pedestrian-oriented policies of the CDMP.

As previously stated, staff notes that the requested changes would enable the unified development of the subject property with the same product and building type, in a manner consistent with the ongoing development to the east and southeast of the same. The latter is characterized by multi-family and some mixed-use development ranging from three to six stories in height.

Additionally, staff notes that the approval of the requested changes would not result in a reduction of the acceptable Level of Service (LOS) standards on County services. The memorandum from the Division of Environmental Resources Management of RER indicates that the application meets all applicable LOS standards for an initial development order for potable water service, wastewater disposal, and flood protection given. Based on the aforementioned memoranda and the memoranda provided by the Miami-Dade Fire Rescue Department, the Park, Recreation and Open Spaces Department, and other departments, staff opines that approval of the subject request will not generate or result in excessive noise, cause undue or excessive burden on public facilities, including water, sewer, solid waste disposal, recreation, or other such facilities which have been constructed or which are planned and budgeted for construction.

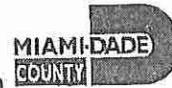

Staff opines that the applicant's request for a modification to the Land Use and the Density Regulating Plans of the NCUCD will not result in a negative impact on the surrounding area and would be compatible with the same. **Therefore, staff recommends approval of the request under Section 33-284.89.3.**

Staff opines that the proposed updates to the Sub-Districts and the Building Heights Regulating Plans of the NCUCD that further the intensification of the subject property are **compatible** with the changing conditions of the surrounding properties and **consistent** with the intensification policies provided by the CDMP urban center text. Therefore, staff recommends approval of the proposed modifications to the NCUCD regulating Plans.

Nathan Kogon, Assistant Director
Development Services Division
Miami-Dade County
Department of Regulatory and Economic Resources

Memorandum

Date: November 30, 2015

To: Jack Osterholt, Deputy Mayor/Director
Department of Regulatory and Economic Resources

From: Jose Gonzalez, P.E.
Department of Regulatory and Economic Resources 

Subject: BCC #Z2015000082-1st Revision
LVS Naranja, LLC.
SE Corner of SW 147th Avenue and SW 264th Street
Modification of the land use regulating plan of Naranja Community
Urban Center District to change the designation of the subject
parcel from Residential to Residential-Modified.
(NCUC) (6.56 Acres)
33-56-39

The subject application has been reviewed by the Department of Regulatory and Economic Resources – Division of Environmental Resources Management (DERM) for compliance with the requirements of Chapter 24 of the Miami-Dade County Code (the Code) and meets the minimum requirements of the Code. Accordingly, the application may be scheduled for public hearing.

Potable Water Service and Wastewater Disposal

Public water and public sanitary sewers can be made available to the subject property. Therefore, connection of the proposed development to the public water supply system and sanitary sewer system shall be required in accordance with Code requirements.

Be advised that the required water main extension permit is issued by the Florida Department of Health. Civil drawings for the proposed water main extension will need to be approved by the Miami-Dade Water and Sewer Department and the Environmental Plan Review Specialty Section of DERM.

Civil drawings for the required sewer main extension will need to be approved by Miami-Dade Water and Sewer Department and the DERM Environmental Wastewater Permitting Section, prior to approval of final development orders.

Existing public water and sewer facilities and services meet the Level of Service (LOS) standards set forth in the Comprehensive Development Master Plan (CDMP). Furthermore, the proposed development order, if approved, will not result in a reduction in the LOS standards subject to compliance with the conditions required by DERM for this proposed development order.

Notwithstanding the foregoing, and in light of the fact that the County's sanitary sewer system has limited sewer collection, transmission, and treatment capacity, no new sewer service connections can be permitted, unless there is adequate capacity to handle the additional flows that this project would generate. Consequently, final development orders for this site may not be granted if adequate capacity in the system is not available at the point in time when the project will be contributing sewage to the system. Lack of adequate capacity in the system may require the approval of alternate means of sewage disposal. Use of an alternate means of sewage disposal may only be granted in accordance

with Code requirements, and shall be an interim measure, with connection to the public sanitary sewer system required upon availability of adequate collection/transmission and treatment capacity.

Stormwater Management

A DERM Surface Water Management General Permit shall be required for the construction and operation of the required surface water management system. This permit shall be obtained prior to any future development order approval. The applicant is advised to contact the DERM Water Control Section at (305) 372-6681 for further information regarding permitting procedures and requirements.

Stormwater shall be retained on site utilizing properly designed seepage or infiltration drainage system. Drainage plans shall provide for full on-site retention of the stormwater runoff generated by a 5-year / 1-day storm event.

Site grading and development shall provide for the full retention of the 25-year/3-day storm event and shall also comply with the requirements of Chapter 11C of the Code, as well as with all state and federal criteria, and shall not cause flooding of adjacent properties.

Any proposed development shall comply with county and federal flood criteria requirements. The proposed development order, if approved, will not result in a reduction in the LOS standards for flood protection set forth in the CDMP subject to compliance with the conditions required for this proposed development order.

The applicant is advised that the proposed surface water management system must be approved by DERM. It is the applicant's responsibility to contact the Environmental Monitoring and Restoration Division of DERM at (305)372-6700 for additional information.

The applicant is advised that if contamination is found on the site a DERM Class VI Permit will be required for the construction of the proposed surface water management system.

Pollution Remediation

The subject property has records of contamination under Tropics North which include DERM Agricultural Waste tracking (AW)-252 and Solid Waste tracking (SW)-1297 and (SW)-1416. Based on the former agricultural use of the site and the historical records of solid waste, it is recommended that a Phase 1 and Phase 2 Environmental Site Assessment be conducted on the property prior to development.

Furthermore, any site development, drainage, and dewatering will require prior review and approval from the Environmental Monitoring and Restoration Division of DERM.

Wetlands

The subject property does not contain wetlands as defined in Section 24-5 of the Code; therefore, a Class IV Wetland Permit will not be required.

The applicant is advised that permits from the Army Corps of Engineers (305) 526-7181, the Florida Department of Environmental Protection (561-681-6600), and the South Florida Water Management District (1-800-432-2045) may be required for the proposed project. It is the applicant's responsibility to contact these agencies.

Tree Preservation

The applicant submitted a request for determination of specimen tree requirements to DERM Tree Section on October 1, 2015. An inspection of the site revealed that the subject properties contain

eighteen (18) specimen trees. Staff observed that four (4) of the specimen trees are in good condition. The remaining specimen trees were observed to have health and/or structural deficiencies that may justify their removal.

On October 23, 2015 DERM provided that applicant with a list of the specimen trees and an aerial map, depicting the approximate locations of these trees. The four (4) specimen trees in good condition and requiring preservation are identified as tree #s 2, 3, 8 and 9. On November 24, 2015, the applicant provided DERM with a letter stating that he agrees to preserve the four (4) specimen trees.

DERM has no objection to the approval of this application provided that the approval is conditioned on a requirement to preserve the aforementioned specimen trees. All trees not preserved onsite shall be replaced in accordance with Section 24-49.4 of the Code.

The applicant is advised to contact Tim Joyner at (305) 372-6548 to address any tree issues on the property.

Enforcement History

The subject property has one (1) closed enforcement records for violations of Chapter 24 of the Code. Please contact the Enforcement Section if you require additional information.

Concurrency Review Summary

A concurrency review has been conducted for this application and has determined that the same meets all applicable LOS standards for an initial development order, as specified in the adopted CDMP for potable water supply, wastewater disposal, and flood protection. Therefore, the application has been approved for concurrency subject to the comments and conditions contained herein.

This concurrency approval does not constitute a final concurrency statement and is valid only for this initial development order, as provided for in the adopted methodology for concurrency review. Additionally, this approval does not constitute any assurance that the LOS standards would be met by any subsequent development order applications concerning the subject property.

This memorandum shall constitute written approval as required by Chapter 24 of the Code.

If you have any questions concerning the comments or wish to discuss this matter further, please contact Christine Velazquez at (305) 372-6764.

Memorandum

Date: August 26, 2015

To: Nathan Kogon, Assistant Director
Department of Regulatory and Economic Resources

From: 
Kaul A. Pino, PLS, Chief
Platting and Traffic Review Section
Department of Regulatory and Economic Resources

Subject: Z2015000082
Name: NVS Naranja, LLC
Location: South of SW 264 St., West of SW 146 Ct.
Section 33 Township 56 South Range 39 East

The Department of Regulatory and Economic Resources Platting and Traffic Review Section has reviewed the subject application and has no objections.

This land requires platting in accordance with Chapter 28 of the Miami-Dade County Code. Any right-of-way dedications and/or improvements required will be accomplished thru the recording of a plat.

This application does meet the traffic concurrency* criteria for an Initial Development Order. It will generate 146 PM daily peak hour vehicle trips. The traffic distribution of these trips to the adjacent roadways reveals that the addition of these new trips does not exceed the acceptable level of service of the following roadways:

STA.#	LOCATION	LOS PRESENT	LOS W/PROJECT
9842	SW 147 Ave S/O SW 232 St to SW 264 St	B	B
9971	US 1 S/O SW 248 St to SW 304 St	D	D
9924	SW 268 St W/O SW 142 Ave to US 1	B	B
9860	SW 157 Ave S/O SW 272 St to US 1	C	C
9919	SW 264 St W/O SW 147 Ave to SW 157 Ave	B	B

The request herein, constitutes an Initial Development Order only, and one or more traffic concurrency determinations will subsequently be required before development will be permitted.

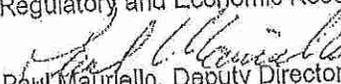

(*)Traffic concurrency is based on the density of the property with its proposed use where the number of peak hour vehicle trips may fluctuate.

Memorandum

Date: August 20, 2015

To: Nathan Kogon, Assistant Director
Regulatory and Economic Resources Department

From: 
Paul Mauriello, Deputy Director, Waste Operations
Public Works and Waste Management Department

Subject: LVS Naranja, LLC (#15_082)

The Department's review of the above-referenced item is provided below. Additional comments will be provided as needed. If you should have any questions, please do not hesitate to contact Stacey McDuffie, Manager, Intergovernmental and External Affairs, at 305-375-1354. The PWWM has no objections to the proposed application.

Application: *LVS Naranja, LLC* requests a change in the urban center district boundary plan from Residential to Residential modified, to permit a 74-unit multiple family development.

Location: The subject property is located on the south side of SW 264th Street between SW 146th Court and SW 147th Avenue, in Miami-Dade County, Florida.

Size: The subject property is approximately 2.27 acres in size.

Analysis:

1. Solid Waste Disposal

The Miami-Dade County Solid Waste Management System consists of both County facilities and private facilities under contract as follows: three Class I landfills (two owned by Waste Management Inc., of Florida) a Class III landfill, a Resources Recovery Facility waste to energy plant and associated ash monofill, and three regional transfer facilities. The Public Works and Waste Management Department (PWWM) does not assess or adjust estimated capacity requirements based on the impacts of individual developments. Instead, the Department maintains sufficient disposal capacity to accommodate five years of waste flows committed to the system through long-term interlocal agreements or contracts with municipalities and private waste haulers and anticipated non-committed waste flows. The latest Concurrency Status Determination issued on September 18, 2014, which is valid for one year, shows sufficient disposal system capacity to exceed the County's adopted level of service (five years of capacity). This determination, which is on file with the Regulatory and Economic Resources Department (formerly the Department of Planning and Zoning) is contingent upon the continued ability of the County to obtain and renew disposal facility operating permits from the Florida Department of Environmental Protection, as needed.

2. Garbage and Trash Collection Services

The property as mentioned in the application falls within the PWWM solid waste collection service area. Development on the property meets the County Code definition of a multi-family residential establishment. Pursuant to Chapter 15 of the Code, multi-family residential establishments must meet the following requirements:

"Every commercial and multi-family residential establishment shall utilize the solid waste collection services of either the proper governmental agency able to provide such services, or that of a licensed solid waste hauler authorized to perform such services by the Director of the Department." Therefore, the landlord or property owner is required to contact a private hauler to provide waste and recycling collection service.

3. Recycling

Regarding multi-family units, Section 15-2.2a of the Code requires "every multi-family residential establishment shall provide for a recycling program which shall be serviced by a permitted hauler or the appropriate governmental agency and shall include, at a minimum, the five (5) materials listed in Section 15-2.2 below."

- 1) Newspaper
- 2) Glass (flint, emerald, amber)
- 3) Aluminum cans
- 4) Steel cans
- 5) Plastics (PETE, HDPE-natural, HDPE-colored)

4. Waste Storage/Setout Considerations

Section 15-4 of the Code requires that plans for storage and collection of solid waste be adequate before a building permit may be issued. Site plans must address location, accessibility, number and adequacy of solid waste collection and storage facilities. The site plan legend must contain the following statement: "Facilities for the collection and storage of solid waste are shown in accordance with Section 15-4 of the Miami-Dade County Code."

5. Site Circulation Considerations

It is required that development plans associated with this project incorporate at least one of the following traffic circulation criteria to minimize the reversing of waste vehicles and hence, provide for the safe circulation of service vehicles:

- a. Cul-de-sac with a minimum 49 foot turning radius (no "dead-ends").
- b. "T" shaped turnaround 60 feet long by 10 feet wide
- c. Paved throughway of adequate width (minimum 15 feet)

In addition, any and all alleyways designed with utilities, including waste collection, provided at the rear of the property should be planned in accordance with standard street specifications with sufficient width and turning radii to permit large vehicle access. Additionally, there should be no "dead-end" alleyways developed. Also, a sufficient waste set-out zone should be preserved (between the edge of the pavement and any possible obstructions such as parked cars, fencing, etc.,) that would interrupt or preclude waste collection.

Memorandum

Date: August 31, 2015

To: Jack Osterholt, Deputy Mayor
Director, Regulatory and Economic Resources Department

From: Maria I. Nardi, Chief *M.I.*
Planning and Design Excellence Division
Parks, Recreation and Open Spaces Department

Subject: Z2015000082: LVS NARANJA, LLC
Revised Plans Submitted Dated Stamped Received 8/3/2015

Application Name: LVS NARANJA, LLC

Project Location: The site is located in that area LYING SOUTH OF SW 264 ST, APPRX 119.58' WEST OF SW 148 CT, Miami-Dade County.

Proposed Development: The request is for ZONE CHANGE FROM RESIDENTIAL TO RESIDENTIAL MODIFIED NARANJA URBAN CENTER (NCUC).

Impact and demand: This application does not generate any additional residential population, and therefore the CDMP Open Space Spatial Standards do not apply.

Recommendation: PROS has no pertinent comments for this application concerning impact or demand on existing County parks, proposed or budgeted service expansion, nor do we perform a concurrency review. Based on our findings described herein **PROS HAS NO OBJECTION TO THIS APPLICATION.**

If you need additional information or clarification on this matter, please contact John Bowers at (305) 755-5447.

Override _____

ORDINANCE NO. 16-41

ORDINANCE RELATING TO ZONING AND OTHER LAND DEVELOPMENT REGULATIONS; UPDATING THE NARANJA COMMUNITY URBAN CENTER DISTRICT REGULATIONS AS REQUESTED BY LVS NARANJA, LLC, FOR REAL PROPERTY GENERALLY LOCATED ON THE SOUTH SIDE OF SW 264TH STREET, WEST OF SW 146TH COURT, AND NORTH OF OLD DIXIE HIGHWAY; AMENDING SECTION 33-284.69 OF THE CODE OF MIAMI-DADE COUNTY, FLORIDA; PROVIDING SEVERABILITY, INCLUSION IN THE CODE, AND AN EFFECTIVE DATE

WHEREAS, in Ordinance No. 13-119, adopted on December 3, 2013, the Board of County Commissioners created a procedure to amend Urban Center District regulating plans; and

WHEREAS, 'LVS Naranja, LLC' owns real property within the Naranja Community Urban Center District (NCUCD) that is generally located on the south side of SW 264th Street, west of SE 146th Court and north of Old Dixie Highway; and

WHEREAS, said property is currently designated R, Residential, and RM, Residential Modified, in the NCUCD Land Use Regulating Plan; and

WHEREAS, 'LVS Naranja, LLC' has applied for an amendment to the NCUCD Land Use Regulating Plan and Density Regulating Plan to change the land use designation such that the entire property is designated RM, Residential Modified, and to change the allowable density from a range of 6 to 18 units/acre net to a density range of 12 to 36 units/acre net; and

WHEREAS, in order to implement the requested changes, additional updates to the NCUCD Sub-Districts Regulating Plan and the Building Heights Regulating Plan are required; and

WHEREAS, specifically, the Sub-District and the Building Heights Regulating Plans of the NCUCD need to be updated so that the portion of the property being re-designated is made consistent with that already designated RM; and

WHEREAS, based on the foregoing, it is necessary to amend the NCUCD Land Use Regulating Plan to effectuate the requested amendments,

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA:

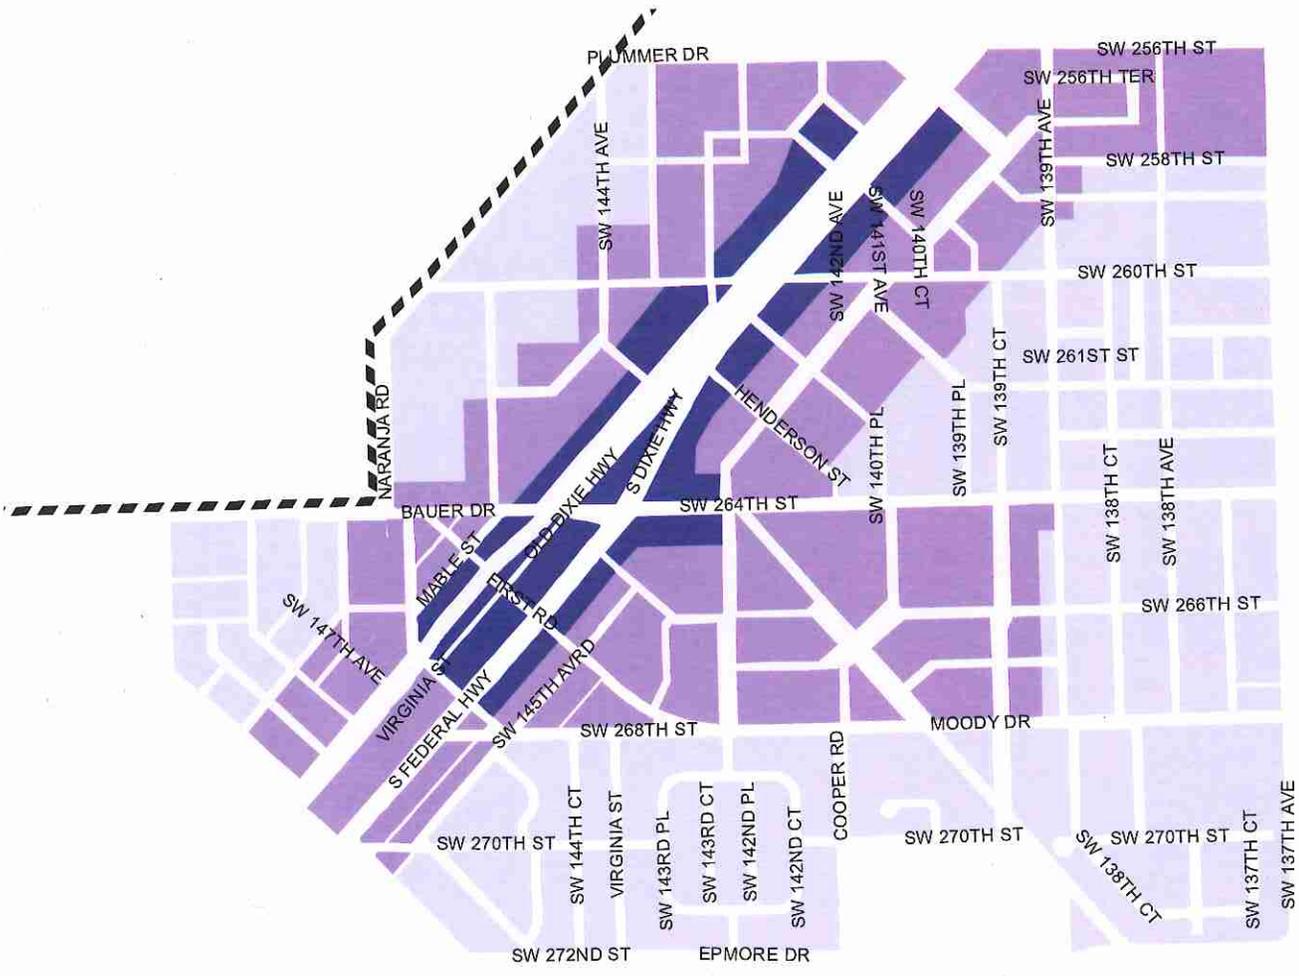

Section 1. Section 33-284.69 of the Code of Miami-Dade County, Florida, is hereby amended to read as follows:¹

Sec. 33-284.69. Regulating Plans.

The Regulating Plans consist of the following controlling plans as defined and graphically depicted in this section.

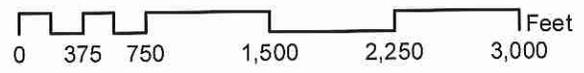

* * *

¹ Words stricken through and/or ~~[[double bracketed]]~~ shall be deleted. Words underscored and/or >>double arrowed<< constitute the amendment proposed. Remaining provisions are now in effect and remain unchanged.

Section 2. If any section, subsection, sentence, clause or provision of this ordinance is held invalid, the remainder of this ordinance shall not be affected by such invalidity.

Section 3. It is the intention of this Board of County Commissioners, and is hereby ordained that the provisions of this ordinance shall become and made part of the Code of Miami-Dade County, Florida. The section of this ordinance may be renumbered or relettered to accomplish such intention, and the word "ordinance" may be changed to "section," "article" or other appropriate word.

Section 4. This ordinance shall become effective ten (10) days after the date of enactment unless vetoed by the Mayor, and if vetoed, shall become effective only upon an override by this Board.

PASSED AND ADOPTED: April 19, 2016

Approved by County Attorney as
to form and legal sufficiency:
